## Program Review - A25800 Accounting and Finance

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The Accounting and Finance program provides students with a degree that offers great employment prospects as well as transfer options for those seeking to further their education.

**Strengths:** Program enrollment is stable, and students do well find employment. A new full-time instructor has been hired and we are optimistic about his long-term prospects here.

**Areas for Improvement:** Boosting enrollment numbers would allow us to offer more modalities, giving students more options.

**Needs:** No major needs at the moment. Our need last year was to hire a new full-time instructor, which we were able to do.

**Actions:** Continue strengthening our online courses to make sure they offer equivalent experiences to seated courses.

### DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	D25800 (Accounting Diploma) C25800A (Bookkeeping) C25800B (Federal Income Tax) C25800C (Financial Accounting) C25800D (Managerial Accounting)
Is there anything you want to note about these diplomas, certificates, or pathways?	One minor change from last year. C25800A was renamed from Computerized Accounting to Bookkeeping.

<p><u>Uniqueness:</u></p> <ul style="list-style-type: none"> <li>• What do we do that sets us apart from neighboring institutions?</li> <li>• How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>	<p>A</p>	<p>The curriculum itself is standard, though our online offerings may set the program apart. The entire program can now be completed online. This allows many working adults and parents to complete the program where it would otherwise be impossible.</p> <p>If enrollment numbers keep improving, we will be able to supplement the schedule with more hybrid sections for those who want more of the in-person experience.</p> <p>No marketing information is available at the time of this writing.</p>										

ENTRY

	Rating	Explanation
<p><u>Enrollment Goals:</u></p> <ul style="list-style-type: none"> <li>• In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>• What strategies have been and/or will be implemented?</li> </ul>		<p>Gaston College hours – 68</p> <p>CPC offers two tracks: Accounting (64) and Financial Services (64). The Accounting track is almost identical to ours.</p> <p>Cleveland CC seems to have discontinued their accounting program.</p>

	Rating	Explanation
		CVCC offers Accounting (68-69) and Financial Services (67-68) tracks. The only major difference in the Accounting track is they use ACC 240 (non-profit) vs our ACC 269 (auditing). We've been discussing making a similar change to our curriculum next year.

PROGRESS

	Rating	Explanation
<u>SLOs and Curriculum Map:</u> <ul style="list-style-type: none"> <li>Attach curriculum map and analysis of program learning outcomes.</li> </ul>		
<u>Retention and Progression:</u> <ul style="list-style-type: none"> <li>How does program retention compare to the retention goal?</li> <li>What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	A	Fall 2020 to Fall 2021 – 25% Fall 2021 to Spring 2022 – 63%  No new data on retention goal this year.  The most significant barrier to student progress is the highly sequenced nature of the program. Mandatory advising will hopefully help with that. Hiring a new full-time faculty member has made the program less reliant on adjunct faculty, which will lead to better long-term program quality.
<u>Demographics:</u> <ul style="list-style-type: none"> <li>What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>	A	While the program doesn't have any initiatives, the school has several programs to help disadvantaged groups.

	Rating	Explanation
--	--------	-------------

<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> </ul>	A	<p>The program is sequenced well and students who stay on track have no difficulty getting the correct courses.</p> <p>Students who fall behind can have a challenging time getting back on track. Some choose to take longer to finish the program, while others can supplement with coursework at other institutions to catch up.</p>
---	---	---

	Rating	Explanation
<ul style="list-style-type: none"> <li>Are courses filled at an appropriate rate?</li> </ul>		The college has adopted mandatory advising and dedicated academic advisors, has helped students stay on track. We are hopeful that increased enrollment will lead to more hybrid and off-sequence offers.
<u>Modality:</u> <ul style="list-style-type: none"> <li>Are we choosing the best delivery methods and times?</li> <li>Also consider online and other locations, if applicable.</li> </ul>	A	<p>The program offers multiple modalities from traditional seated to completely online. Efforts are made to offer day sections for traditional students, especially for ACC 120 and ACC 121, which are the introductory courses.</p> <p>Higher-level courses are mostly online as enrollment numbers decrease. Students seem capable of finding and taking the classes they need.</p>
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>What do course evaluations say?</li> <li>What is the process for addressing student feedback?</li> </ul>	A	<p>Many students are extremely happy with the program and instructors. There have been a few adjunct faculty that have underperformed. They are generally given an opportunity to improve before a decision is made whether to invite them back to teach.</p> <p>Student feedback is distributed to instructors and supervisors for discussion during the faculty evaluation process. In the faculty evaluation process, any issues that show up in the course evaluations are analyzed to see if action should be taken.</p>

COMPLETION

	Rating	Explanation
<u>Student Achievement:</u> <ul style="list-style-type: none"> <li>Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>	A	ACC 149 – 22% withdrawn. This is the result of reliance on an adjunct instructor. We think our new instructor will help relieve that pressure.
<u>Graduation:</u> <ul style="list-style-type: none"> <li>How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> </ul>	A	Headcount: 157 Awards: 56 Awards at the highest level: 7 Awards/headcount ratio: 36%

	Rating	Explanation
<ul style="list-style-type: none"> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>		The most significant barrier we can control is the sequenced nature of the program, which is being addressed via mandatory advising.

TRANSITION

	Rating	Explanation
<u>Job Placement/Transfer:</u> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>	n/a	No data on job placement this year.
<u>Community:</u> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>	A	<p>Overall, the program is a good fit for the community. Demand for accountants will persist for the near future, and the program prepares them for entry-level positions in the area. The advisory committee agrees with this and sees no need to change the program currently.</p> <p>Regarding community partnerships, many students have taken advantage of the Work-Based Learning program, which allows students to work in local businesses in exchange for college credit. Most of these positions are also paid, which is great for our students. They benefit by gaining workplace experience and networking opportunities while also earning college credit (and often money). This also benefits the college by boosting our image in the community. When a business owner sees quality workers doing good things, they recognize what Gaston College is doing and spread the word.</p>

### Student Learning Outcomes - A25800 Accounting and Finance

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
1	Demonstrate the ability to use General Journal to record business transactions	ACC 120 (Prin of Financial Acct) Problem 2-2A This problem involves students preparing journal entries, posting them to the ledger, and preparing an unadjusted trial balance.	On average, students will earn at least 85% or higher on this artifact.	Spring 2017 82% Fall 2017 92% Fall 2018 91% Fall 2019 94% Fall 2020 Mean of Completers: 90% Range: 6-99 N: 113 Fall 2021 Mean of completers: 93% Range: 3-100 N: 130	The measurement tool effectively measures students' ability to correctly analyze and record business transactions and economic events, leading to the proper reporting of financial information.	Student performance is strong. We do not see an area for improvement currently.	The benchmark was raised two years ago from 80 to 85%. Students are still performing above the new benchmark. Though nothing about the tool or outcome changed last cycle, student performance rose from 90-93%.	The faculty feel this is an important outcome and see no need to change it for the time being. If performance remains strong even with the benchmark being raised, faculty may consider a new outcome in the future.
2	Demonstrate the ability to adjust the accounts and prepare a trial balance at the end of the period.	ACC 220 (Intermediate Accounting I) Chapter 3, problem 3-6 This problem involves students preparing general journal entries, posting them to the ledger, preparing a trial balance,	On average, students will earn at least 80% or higher on this artifact.	Fall 2017 85% Fall 2018 80% Fall 2019 91% Fall 2020 Mean of Completers: 83% Range: 9-100 n: 6 Fall 2021 Mean of Completers: 96% Range: 68-100 n: 11.	Results show the students can recognize accounts that need to be adjusted and can update the accounts by preparing an adjusted trial balance at the end of the reporting period. Performance	It's likely this performance increase is due to the low number of students and significantly higher bottom-end of the range. It will take more data cycles to know if the long-term average will remain so high.	Prior to 2020, one assignment was used to measure PLO #2 and #3. Starting Fall 2020, assignment was split into two problems to give more specific data. Last year, there was a significant difference in performance between the two, but that gap closed quite a bit this year.	Gather more data to ensure students keep performing at a high level.

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
		preparing and posting adjusting entries, preparing the financial statements, and preparing the closing journal entries.			increased from 83-96% from last year.			
3	Demonstrate the ability to prepare an Income Statement, Statement of Retained Earnings and Balance Sheet.	ACC 220 (Intermediate Accounting I) Chapter 3, problem 3-8 This problem involves students preparing general journal entries, posting them to the ledger, preparing a trial balance, preparing, and posting adjusting entries, preparing the financial statements, and preparing the closing journal entries.	On average, students will earn at least 80% or higher on this artifact.	Fall 2017 85% Fall 2018 80% Fall 2019 91% Fall 2020 Mean of Completers: 100% Range: 100-100 n: 6 Fall 2021 Mean of Completers: 99.9% Range: 99-100 n: 11.	Results show the tool evaluating students' ability to prepare corporate financial statements using generally accepted accounting principles. Student performance was exceptionally high this cycle at 99.9%, continuing the impressive performance from last year.	No areas for improvement are identified. Student performance is exceptionally good.	Prior to 2020, one assignment was used to measure PLO #2 and #3. Starting Fall 2020, the assignment was split into two problems to give more specific data. Last year, there was a significant difference in performance between the two, but that gap closed quite a bit this year.	If results remain so high, the tool should be reviewed to ensure appropriate rigor.

## Program Review – D35100 AC, Heating, and Refrigeration Technology

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

**Strengths:** The ACHR curriculum is a vital asset for local HVAC contractors and industry maintenance departments. Our instructors are knowledgeable with over 25 years of combined experience.

**Areas for Improvement:** Recruitment could be better and new equipment is always a plus. With increased space we now have more room for hands-on training.

**Needs:** Money from the institution to upgrade existing equipment and purchase new equipment would be helpful.

**Actions:** Identify recruitment opportunities and equipment needed to improve the program.

### DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	Diploma, C35100A (Cooling), C35100B (Heat Pump), C35100C (Heating)
Is there anything you want to note about these diplomas, certificates, or pathways?	Certificates are designed to address specific industry needs.

### CONNECTION

	Rating	Explanation
<u>Viability:</u> <ul style="list-style-type: none"> <li>• How viable is the program? Consider the accompanying program viability report.</li> </ul>	D	22.31 FTE production with 1 FT instructor and 1 PT, net loss of \$40,657.71. The contributions of the program to local industry can't be measured in FTEs alone.
<u>Uniqueness:</u> <ul style="list-style-type: none"> <li>• What do we do that sets us apart from neighboring institutions?</li> <li>• How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>	A	Renewable energy programs and instructor experience. Expanded marketing would benefit the program.

ENTRY

	Rating	Explanation
<u>Enrollment Goals:</u> <ul style="list-style-type: none"> <li>In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>What strategies have been and/or will be implemented?</li> </ul>	O	Program hours are set at or within 1 credit hour of state minimums as requested by the administration.

PROGRESS

	Rating	Explanation
<u>SLOs and Curriculum Map:</u> <ul style="list-style-type: none"> <li>Attach curriculum map and analysis of program learning outcomes.</li> </ul>		
<u>Retention and Progression:</u> <ul style="list-style-type: none"> <li>How does program retention compare to the retention goal?</li> <li>What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	A	Retention 80% for diploma. Course success rates are high.
<u>Demographics:</u> <ul style="list-style-type: none"> <li>What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>	A	HVAC industry has been predominantly white male in the past. We have been able to attract non-traditional students and serve them well.
<u>Course Sequence:</u> <ul style="list-style-type: none"> <li>Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>Are courses filled at an appropriate rate?</li> </ul>	A	Courses are sequenced to meet needs. Courses normally have a suitable number of students.
<u>Modality:</u> <ul style="list-style-type: none"> <li>Are we choosing the best delivery methods and times?</li> <li>Also consider online and other locations, if applicable.</li> </ul>	A	We offer courses day and evening; it is difficult to deliver these courses online and COVID proved that.
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>What do course evaluations say?</li> <li>What is the process for addressing student feedback?</li> </ul>	A	Evaluations are good. Student feedback is addressed to the instructor and executive level as needed. Instructors in the ACHR curriculum have good relationships with students and most

		concerns are addressed in person in a timely manner.
--	--	--

#### COMPLETION

	Rating	Explanation
<u>Student Achievement:</u> <ul style="list-style-type: none"> <li>Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>	D	Enrollments are slightly down but expect them to recover.
<u>Graduation:</u> <ul style="list-style-type: none"> <li>How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>What are the barriers to timely student completion and how can they be addressed?</li> </ul>	A	The percentage is 38%, I am not sure how that is calculated but I believe reported is lower than actual. Diploma graduates receive 3 awards each. Even if a student does not graduate it is probable that a certificate was earned.

#### TRANSITION

	Rating	Explanation
<u>Job Placement/Transfer:</u> <ul style="list-style-type: none"> <li>Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>	A	Most have jobs waiting or are employed at time of completion.
<u>Community:</u> <ul style="list-style-type: none"> <li>Is the program the right fit for our community?</li> <li>How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>What is the advisory committee feedback?</li> </ul>	A	Our community would not be properly served without this program.

## Program Review - Associate in Fine Arts in Visual Arts (A10600)

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The mission and purpose of the Associate in Fine Arts in Visual Arts (AFAVA) degree at Gaston College is to provide students with a transfer degree which allows for seamless entry to a senior institution offering a Bachelor of Fine Arts (BFA) degree or experience to enter the workforce in an art-related field. The Associate in Fine Arts in Visual Arts to Bachelor of Fine Arts Articulation Agreement (AFAVA to BFA AA) is an agreement jointly created by the North Carolina Community College System and the University of North Carolina BFA visual arts programs. The AFAVA to BFA is focused on developing seamless transfer for students who begin visual arts studies at a community college and then transfer to one of the UNC BFA visual arts programs. There are seven BFA-granting institutions within the UNC system whose focus is on the visual arts: Appalachian State University – BFA in Studio Art, East Carolina State University – BFA in Art, UNC Asheville – BFA in Art, UNC Chapel Hill – BFA in Studio Art, UNC Charlotte – BFA in Art, UNC Greensboro – BFA in Studio Art, Western Carolina University – BFA in Art. This agreement requires Gaston College graduates to obtain a grade of “C” or better in each course and an overall GPA of at least 2.0 on a 4.0 scale in order to transfer.

The AFAVA degree shall be granted for a planned program of study consisting of a minimum of 60-61 semester hours of college transfer courses. Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

In addition to transferring to BFA programs, the AFAVA degree program prepares students for many career options in art and design. Each participant receives foundational training for entry into a career as an art professional. Students who transfer from Gaston College pursue majors that include the following: Animation, Architecture, Art Education, Art History, Art Therapy, Computer Art/Design, Commercial Art, Design, Fashion Design, Fine Arts, Graphic Design, Illustration, Interior Design, Museum Studies, Photography, Studio Arts, Visual Communications, and Web Design. Students completing the AFAVA program will meet the following program learning outcomes:

1. Demonstrate use of the elements of art and apply the principles of design to create original compositions.

## Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

2. Produce a body of work that demonstrates fundamental competence with traditional and current art methods, processes, and techniques in a variety of art media.
3. Recognize and analyze the aesthetic, social, and historical context of major and diverse artistic periods and styles.
4. Use the terminology of visual arts to communicate effectively through writing and/or speaking.
5. Demonstrate competence in the preparation of a digital portfolio and a culminating pre-graduation exhibition.

A culminating show of student work will be required for graduation.

The art faculty serves as the primary program review committee for this degree program. This group meets regularly depending upon current needs and activities. Additionally, an external AFAVA Advisory Board meets annually to review curricula, recruitment, and other topics. This committee is composed of representatives from the community, local school systems, graduates, and current faculty.

The following action items from the 2021-2022 program review cycle were addressed.

Create an orientation video for the AFAVA program – An orientation video has been created and will be distributed to area high schools throughout the 2022-2023 school year.

Further investigate major renovations to the current facilities

The exterior of CVA has been power washed; rotted wood has been repaired and painted. A donor paid for a new building/renovation study, but the donor has decided not to proceed since the college was not willing to contribute to the project.

Update the student lounge area, as well as the student exhibition space with paint, drywall, and furniture.

Bistro tables and chairs were added to the student lounge area, plus entryway seating was updated. In the kitchen area, the old counter and sink were replaced, plus cabinets were painted. The gallery space of CVA (D.F. Beam Visual Arts Building), in which events like graduating students' culminating exhibits and seasonal art sales occur, was renovated to remove carpet from the walls and replace it with new drywall and paint. Other changes include paint, updated display pedestals, and lighting. This project was completed in time to showcase five graduating students' bodies of work in an exhibition called *Color the World* in October 2022.

Collaborate with marketing to create program specific strategies for enrollment.

At this time, collaboration with the GC Marketing Department to develop specific strategies has not occurred, but this remains a goal for the coming year.

Add a high school art teacher, AFAVA student, and a community arts employer to the AFAVA Advisory Board

## Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

This goal was not met in the 2021-2022 cycle. Efforts were hampered when one person originally invited to participate on the board relocated to a new state. However, developing a robust Advisory Board remains a priority, and recruitment efforts for the Advisory Board are ongoing.

Students will create a Google Folder with written descriptions and images of all work from the art studio courses.

During 2021-2022, AFAVA students created Google Drive folders that contained images/written descriptions of their work in Drawing and Sculpture classes. Doing this allowed students to build materials for their culminating exhibits.

Explore a program website with a directory of current student work and/or student websites.

Investigation of a department website/directory of current students indicated that having a departmental website is of less benefit to students than encouraging/requiring students to build their own websites. Further, faculty are instructing AFAVA students to focus on consistently posting their work to existing social media platforms that are already being used, such as Flickr, Instagram, and Facebook.

Explore adding AutoCAD to ART 122: Three Dimension Design to be in alignment with the senior institutions.

Exploration of the costs related to AutoCAD indicated that the value added to ART 122 was limited and did not justify the expense.

Explore embedding conceptual practices in the studio courses.

This goal was not met in the 2021-2022 cycle.

Collaborate with community stakeholders to help non-transfer students enter the workforce (investigate apprenticeship program and work-based learning opportunities)

This goal was met in part by having working artists do presentations on campus in which they discussed professional opportunities with AFAVA students. The opportunity to gain practical experience in the field of art is encouraged by the Work-Based Learning (WBL 111) elective that is one of the suggested options in the AFAVA degree.

Advising of all AFAVA students will move to an assigned advisor in the newly formed Arts and Sciences Advising Center – By Fall 2021, all AFAVA students were being advised by professional advisors in the Arts and Sciences Advising Center. Those who met with an advisor received specific guidance on their degree requirements and courses for future semesters. Based on the timeline of courses agreed on in that meeting, students are then able to register independently for future semesters. Those with questions are free to consult with their advisors on any questions.

## Strengths

## Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

Survey art courses are a vital part of the general education component for most degree programs at the college. There is consistently a high demand for these courses. In addition, there has been growth in the need for studio courses. Data analysis of previous semesters has been conducted to determine student demand related to course needs.

The program is housed in a stand-alone art building. Additionally, there is a student art gallery and a professional art gallery that attract local and national exhibiting artists. The program employs faculty with a diverse range of skills. Students can get individual attention from experts in a variety of mediums (computers, sculpture, painting, ceramics, printmaking, etc.). Since the last program review, the following equipment/facility updates have been accomplished: The gallery space in CVA (D.F. Beam Visual Arts Building), in which events like graduating students' culminating exhibits and seasonal art sales occur, was renovated to include new drywall, paint, updated display pedestals, and lighting. Faculty in the program continue to work diligently on collaboration with the senior institutions to help with seamless transfer.

Numerous impactful academic resources are offered to aid in student successful completion. The Division remains active in a variety of campus initiatives and activities, including: CoDE (Co-requisite Developmental Education); Gaston College Study Tours; Writing Center; Learning Center, MASC Center, Transfer Advising Center; Psi Beta; Gamma Beta Phi; Completion by Design; Achieving the Dream; NC College Transfer Program Association; STEM Persistence and Retention via Curricula, Centralization, and Cohorts (SPARC); Inquiry Based Learning methods; and North Carolina Guided Pathways to Success (NC-GPS).

### Areas for Improvement

Program leaders have identified several areas for further development. Faculty will focus on recruitment efforts for the program, brainstorming ways to increase response rates for course evaluations and graduation surveys, improvement of seamless transfer to senior institutions, and preparation for the local job market using work-based learning courses. One of the action items from 2021-2022 was to collaborate with marketing to create strategies for the program. Due to a reorganization of the marketing team and new hires in this area, this action was not completed but remains a priority for the 2022-2023 cycle.

### Needs

There is a continued need for a targeted marketing plan for the recruitment to the AFAVA program and awareness of the program-specific scholarship opportunity. While facilities are adequate for current enrollment, growth is limited. There is a need for a designated space for each medium (computers, sculpture, painting, ceramics, printmaking, etc.).

### Actions for 2022-23

Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

Distribute the AFAVA orientation video created in 2021-2022 to area high schools to aid in student recruitment efforts.

Investigate funding sources for a state-of-the-art color printer.

Work with GC Marketing Department to generate specific strategies to grow enrollment for the AFAVA program.

Add a high school art teacher, AFAVA student, and a community arts employer to the AFAVA Advisory Board.

Rearrange some studio spaces to add 2 additional “seats” so current seating caps may be raised from 14 to 16 in Printmaking, Painting, Drawing and 2-D design.

Replace broken easels plus purchase additional easels for expanding painting/drawing classes.

Purchase equipment needed for expansion (4 additional taborets for painting, 4 more adjustable chairs, 2 new worktables for sculpture/3-D studio.

Recover tops of sculpture tables

Purchase touch screen Smartboard for printmaking studio

DIPLOMAS, CERTIFICATES, & PATHWAYS

CONNECTION

	Rating	Explanation
<p><u>Viability</u>:</p> <ul style="list-style-type: none"> <li>• How viable is the program? Consider the accompanying program viability report.</li> </ul>		<p>FTE Count A10600</p> <ul style="list-style-type: none"> <li>• 2018-2019 39.62</li> <li>• 2019-2020 55.38</li> <li>• 2020-2021 49.81</li> <li>• 2021-2022 47.5</li> </ul> <p>There was a decrease in FTE of approximately 2.31 percentage points 2020-2021 to 2021-2022. Art classes are one of the top FTE earners at the College. Many other programs use ART 111, ART 114, and/or ART 115 to satisfy the Humanities/Fine Arts requirements for their</p>

		<p>degree programs. In addition, ART 111, ART 114, and ART 115 are part of the college-wide general education competencies.</p> <p>The return on investment for this program is consistently high; FTE income significantly outweighs the cost for running the program and faculty salaries.</p>
<p><u>Uniqueness:</u></p> <ul style="list-style-type: none"> <li>• What do we do that sets us apart from neighboring institutions?</li> <li>• How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>		<p>There is a unique scholarship opportunity at Gaston College for AFAVA students through a private donor.</p> <p>The AFAVA program has a stand-alone art building, and two art galleries. The program faculty members are professional artists with diverse specialties; thus, students receive specialized instruction.</p> <p>Gaston College is participating in the North Carolina Guided Pathways to Success (NC-GPS). As a result of this initiative, we have created streamlined pathways for students in the various degree programs. One of the benefits of NC-GPS is to create greater cost savings and efficiencies for the students.</p> <p>Division faculty/staff are currently developing a more robust marketing plan with the high school population as a target audience. We continue to collaborate with senior institutions regarding the Baccalaureate Degree Plans (BDPs) to ensure a smooth transfer process.</p> <p>Student resources for this program are unique. Beyond our traditional learning center, we also have both a Writing Center and Math and Science Center staffed with professional academic coaches who hold a bachelor's degree or higher.</p>

ENTRY

	Rating	Explanation
<p><u>Enrollment Goals:</u></p> <ul style="list-style-type: none"> <li>• In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> </ul>		<p>Neighboring institutions that offer an AFAVA degree include Central Piedmont Community College (CPCC), Cleveland Community College</p>

<ul style="list-style-type: none"> <li>• What strategies have been and/or will be implemented?</li> </ul>	<p>(CCC) and Catawba Valley Community College (CVCC).</p> <p>Just as Gaston College requires 60-61 hours to earn the AFAVA, CPCC's degree requires 60 hours of instruction. While GC's AFAVA requires 25 hours of general education courses, CPCC requires 28 semester hours of general education core courses and 32 semester hours of courses in a wide selection of ART classes, compared to GC's requirement of 30. The remaining five to six hours of GC's requirement are elective hours that allow students to choose from various ART courses, SPA classes or a Work-Based Learning credit. CPCC's curriculum does suggest taking a foreign language.</p> <p>CCC and GC require the same number of hours to earn the AFAVA degree (60-61). The list of/required number of general education courses is the same. These include ENG 111/112, 6 hours of Humanities/Fine Arts, 6 hours of Social/Behavioral Sciences, 4 hours of Natural Sciences, 3-4 hours of Mathematics, and ACA 122. While GC requires six specific required ART classes, CCC requires five. The other 19 hours of CCC's degree are elective ART classes or MAT 172. Their published information does not indicate the need for hours in a foreign language.</p> <p>CVCC requires 63-65 hours to complete the AFAVA degree compared to GC's required 60-61 credit hours. Of those 63-65 hours for CVCC students, 30-31 hours are required in general education classes. CVCC has only five required ART classes (ART 114, 115, 121, 122, 131). GC requires those five, but also requires ART 214 (Portfolio and Resume). While GC points AFAVA students to a wide variety of ART classes, SPA 111/112, or a Work-Based Learning credit to complete their elective hours, CVCC</p>
---	--

		points students to 18-20 more hours of general education classes to complete elective hours.

PROGRESS

	Rating	Explanation
<u>SLOs and Curriculum Map:</u> <ul style="list-style-type: none"> <li>Attach curriculum map and analysis of program learning outcomes.</li> </ul>		See attached curriculum map and program learning outcomes
<u>Retention and Progression:</u> <ul style="list-style-type: none"> <li>How does program retention compare to the retention goal?</li> <li>What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>		<p>Program Retention A10600</p> <ul style="list-style-type: none"> <li>Fall 2017 to Fall 2018 33%</li> <li>Fall 2018 to Fall 2019 59%</li> <li>Fall 2019 to Fall 2020 54%</li> <li>Fall 2020 to Fall 2021 44%</li> <li>Fall 2021 to Spring 2022 86%</li> </ul> <p>There was an increase in the retention rate of new students of approximately 42 percentage points in the last cycle.</p> <p>Divisional administrators track individual course withdrawal and success rates and create strategies to improve. Art faculty will implement strategies to increase the retention rate in identified courses.</p>
<u>Demographics:</u> <ul style="list-style-type: none"> <li>What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>		<p>Demographics A10600 Fall 2021</p> <p>Percent Female 62%</p> <p>Percent Male 38%</p> <p>Percent White 42%</p> <p>Percent Non-White 58%</p> <p>We continue to strive to serve broader demographics, including minorities, low-income students, working adults, returning students, and students with low academic achievement. We provide academic holistic support for students, including growth mindset activities in various courses, and individual help in the Writing Center, Math and Science Center, Learning Center, TRIO, and the Arts and Sciences Transfer Center. Additionally, we are an early adopter of the North Carolina Community College System developmental redesign, which has a goal of accelerating the progression of underprepared students using a corequisite model.</p>

<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>		<p>Course sequencing is a high priority within the program. Most studio classes are offered in the afternoon to ensure students can complete general education requirements during the morning hours. Students are advised to balance studio and general education classes throughout the program to offset the need for too many studio courses in one semester.</p> <p>Data analysis of fill rates and course demands of prior semesters is used to create the schedule for each upcoming semester. Course fill rates are closely monitored during registration periods to maximize efficiencies in course offerings.</p>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>		<p>All learning modalities (traditional, web-blended, hybrid, and online) exist in the survey classes for A10600. However, all studio classes are traditional classes. Classes are offered during the day on the main campus. There are a few classes offered in the evenings based on student demand.</p>
<p><u>Evaluation:</u></p> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>		<p>Course evaluations are conducted each fall and spring semester for every faculty member and every class. Faculty members along with their department chairs have access to course evaluations upon the completion of the semester. Annually, strategies to address student feedback are developed for any areas of concern. Due to course evaluations being administered online, the response rate remains low. Institutional Effectiveness and the Dean's Council continue to brainstorm ways to increase student response rates. Overall, student feedback for the program is positive.</p>

## COMPLETION

	Rating	Explanation
<p><u>Student Achievement:</u></p> <ul style="list-style-type: none"> <li>• Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>		<p>Low Enrollment – courses are stacked to accommodate several courses in one-time block. ART 214</p>

	Rating	Explanation
		<p>ART 231 ART 283</p> <p>Low Success Rates – when a course has a low success rate, it is often because there are so few students in that section.</p> <p>High Withdrawal Rates - Art classes do not rank in the courses with the highest withdrawal rates (Fact Book)</p>
<p><u>Graduation:</u></p> <ul style="list-style-type: none"> <li>• How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>		<p>Timely student completion has been a major objective for both the Division and the College. Specific initiatives such as Completion by Design, Achieving the Dream, and NC-GPS have provided the framework for improvement strategies. Students in A10600 have diversified goals for attending; and completion of a credential is only one preference.</p> <p>Barriers to timely completion include the fact that the majority of the courses are only offered in a traditional, seated format and many of the courses meet for several hours at a time, which is not conducive to most students' current preference.</p> <p>Actual - 94 students, 7 received an award = 7%</p>

An annual Transfer Advisory Committee is conducted with representatives from the main senior institutions for our transfer students.

ADDITIONAL INFORMATION

	Comments
Please include any additional data and/or information related to program-level accreditation.	

## Student Learning Outcomes – A10600 Associate in Fine Arts in Visual Arts

The following rubric is used to holistically evaluate the Program Learning Outcomes for the Associate in Fines Arts in Visual Arts. The benchmark is an overall score of 3 out of 4 or 75% (a rating of “good”). The rubric scoring range is shown below:

Improvement Needed (1)	Fair (2)	Good (3)	Excellent (4)
0-59% success rate on the course assessment activity	60-74% success rate on the course assessment activity	75-84% success rate on the course assessment activity	85-100% success rate on the course assessment activity

The Associate in Fine Arts in Visual Arts program consists of five expected learning outcomes. Each area is rated according to the appropriate assessment.

The scoring rubric above is used to provide a holistic evaluation of overall student success for each degree program. The total overall success rate for the program learning outcomes as measured by this rubric is 100%.

All program learning outcomes met the 75% benchmark.

Detailed actions to be implemented addressing these outcomes are included in the assessment tables below.

Summary of Associate in Fine Arts in Visual Arts	Total Points Achieved
Program Learning Outcome 1: Demonstrate use of the elements of art and apply the principles of design to create original compositions. 90	4
Program Learning Outcome 2: Produce a body of work that demonstrates fundamental competence with traditional and current art methods, processes, and techniques in a variety of art media. 96	4
Program Learning Outcome 3: Recognize and analyze the aesthetic, social, and historical context of major and diverse artistic periods and styles. 88	4
Program Learning Outcome 4: Use the terminology of visual arts to communicate effectively through writing and/or speaking. 92	4
Program Learning Outcome 5: Demonstrate competence in the preparation of a digital portfolio and a culminating pre-graduation exhibition. 100	4
Total Achieved/Total Possible	20/20

1	Demonstrate use of the elements of art and apply the principles of design to create original compositions.	Students will be assessed on this outcome in several ways. In ART 122: Three-Dimensional Design students will complete a final exam that will demonstrate their comprehension of the elements of art and the principles of design. The application part of this outcome will be assessed from the following two components of ART 214: Portfolio and Resume: portfolio and	On average, students completing the final exam in ART 122 will earn at least 70% of the available points to demonstrate their ability to use their comprehension of the elements of art and the principles of art. On average, students completing the portfolio and critique in ART 214 will earn at least 70% of the available points demonstrating their ability to create	Fall 2021 Combined Mean: 95 Final Exam: 92.5 Portfolio: 100 Faculty Critique: 93	Students consistently perform well on the final exam in ART 122. The exam covers the elements and principles of art. The quality of the artwork in ART 122, as well as understanding materials and the metaphor of materials, has increased over the past two years. Emphasis has been placed on students learning how to hone their craft.	Fall 2021: For ART 122, there were six questions out of fifty that were below the 80% benchmark (Q4, Q17, Q31, Q34, Q40, Q42, and Q47). Areas below the benchmark dealt with understanding of the terms proportion, economy, local color, intensity, scale, hue, and rhythm. Students need to continue to master vocabulary and terminology. Students need to demonstrate	Changes implemented since the last cycle: To lay a foundation for proficiency in vocabulary/terminology, both were posted in the form of visuals in ART 114/115.  Further, the Art 122 instructor consistently demonstrated the use of terms/vocabulary in class lectures and discussions and assigned multiple quizzes, as well as an essay on color to increase student fluency with both. Art terminology was discussed in the studio and students reviewed vocabulary before each critique.  To increase the quality of final portfolios, coaching students on portfolio content happened in	The ART 122 faculty will continue to use terminology/vocabulary quizzes throughout the semester and will consider making those a larger part of the students' overall grades. They will incorporate use of correct vocabulary as a formal component within the Faculty Critique process.  All concepts including those in which student responses fell below the benchmark (proportion, economy, local color, intensity, scale, hue, and rhythm) will be emphasized by encouraging multiple viewings of vocabulary lectures, making the	4

2	Produce a body of work that demonstrates fundamental competence with traditional and current art methods, processes, and techniques in a variety of art media.	ART 214: Portfolio and Resume students will be assessed on the following three components of the course: portfolio, final exhibition, and faculty critique. This course is a culminating experience and looks at the students' entire body of work from their degree.	On average, students completing the portfolio, exhibition, and critique in ART 214 will earn at least 70% of the available points on each part demonstrating their ability to produce a body of work illustrating fundamental competence with traditional and current art methods, processes, and techniques in a variety of art media.	Fall 2021 Combined Mean: 98 Portfolio: 100 Final Exhibition: 100 Faculty Critique: 93	The main strength of the exhibition is that students gain hands-on experience and create a strong body of work. All art faculty participate in the faculty critique process. Feedback has been positive from students and faculty, as the critique is the strongest aspect of the review. An additional strength is the updated technology	An area that needs improvement is consistent demonstration of a strong work ethic/more professionalism. Students need to demonstrate the ability to meet deadlines and produce professional quality images of their art. How well students prepare documentation for their portfolios is a continuing issue.	Changes implemented since last cycle: Students who took ART 122 as their first class in the series progressively built their portfolios. In that class, they created personal websites that displayed photos of their work. In ART 214, students were encouraged to have personal websites as well as a portfolio pdf. Students also presented their work in both written and oral formats.	Investigation of a department website/directory of current students indicates that having a departmental website is of less benefit to students than encouraging/requiring students to build their own websites. Therefore, faculty will focus on building/growing social media that are already being used. Student work will be displayed on existing platforms like Flickr, Instagram, and Facebook. To emphasize the need for a stronger work ethic/more professionalism in portfolio creation and the final	4

## Program Review – A60160 Automotive Systems Technology

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The mission and purpose of the Associate of Science in Automotive Systems Technology program is to prepare individuals to apply technical knowledge and skills to repair, service, and maintain all types of automobiles. The program includes instruction in brake systems, electrical systems, engine performance, engine repair, suspension and steering, automatic and manual transmissions and drive trains, and heating and air condition systems.

### Strengths

Curricula in our Mobile Equipment Maintenance and Repair pathways prepare individuals for employment as entry-level transportation service technicians. The program introduces transportation industry careers and increases student awareness of the diverse technologies associated with this dynamic and challenging field.

### Areas for Improvement

Program leaders and Advisory Board members will focus on recruitment efforts for the automotive program. We will work with advisory board members to increase the number of scholarship opportunities for students in the Automotive Systems Technology program. Brainstorm with marketing to improve visibility. We will explore ways to increase response rates for course evaluations and graduation surveys. We will continue to work with the automotive advisory board to identify program weaknesses, identify developing trends in the transportation industry, identify program needs for curriculum development that improves students' knowledge and skills for a seamless transfer into the job market.

### Needs

There is a need for targeted marketing for the recruitment of students and an awareness of scholarship opportunities. While facilities are adequate for current enrollment, the new curriculum revision proposal will tighten available space. Because of limited space, the Automotive Advisory Board is concerned that the program cannot meet the demands of emerging technologies in the transportation industry and could weaken the program's ability to serve students and businesses in our community. Introducing innovative programs to the transportation program could mean expansion of current facilities or the construction of a new facility to house new courses such as Hybrid Electric, Electric Vehicles, expanding Light Duty Diesel (LDD) course offerings, and creating a Paint and Body program.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

### Actions

In an effort to meet the needs of the automotive program, the following steps will be implemented during the 2022-2023 academic year:

- Collaborate with the marketing department to create specific strategies for program recruiting
- Increase advisory board diversity and membership.
- Investigate opportunities for expansion of programs.
- Continue to evaluate curriculum to be reflective of the service area needs.
- Work to obtain Master level accreditation for the program from the Automotive Service Excellence Education Foundation.

### DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	Automotive Systems Technology (D60160) Automotive Systems Technology – Automotive Engines and Power Trains Certificate (C60160A) Automotive Systems Technology – Automotive Fuel and Electrical Systems Certificate (C60160B)
Is there anything you want to note about these diplomas, certificates, or pathways?	Each pathway offered is designed for the student who is looking for targeted training. Each pathway was built using advisory board input to meet our service area needs.

### CONNECTION

	Rating	Explanation
<u>Viability</u> : <ul style="list-style-type: none"><li>• How viable is the program? Consider the accompanying program viability report.</li></ul>	D	<p>FTE Count A60160</p> <ul style="list-style-type: none"><li>• 2017-2018 70.45</li><li>• 2018-2019 63.19</li><li>• 2020-2021 37.66</li></ul> <p>There was a decrease in FTE of about 9% from 2017-2018 and about 5.41% from 2017-2018 to 2018-2019. In 2020-2021, FTE fell by 44% amidst COVID-19 and moving to online. This weighed heavily on enrollment.</p> <p>Three (3) evening classes are running at 50% enrollment capacity for the first time</p>

	Rating	Explanation
		in a few semesters. Even after all the program has endured, FTE count for Fall 2022 is up 84%.
<u>Uniqueness:</u> <ul style="list-style-type: none"> <li>• What do we do that sets us apart from neighboring institutions?</li> <li>• How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>	<p>D</p> <p>A</p>	<p>The program needs to be modernized. We will follow the advice of the Automotive Advisory Board to purchase equipment and make curriculum changes that meet the needs of students and the businesses within the College's service area.</p> <p>Gaston College has increased its efforts to market programs in the CTE Division in creative ways. The College held its first CTE Tuesday Zoom with Lincoln County Schools. In the meeting, interested students spoke with the Automotive Chair, a current student, and a graduate. The second marketing event was an open house in a Zoom format. In this meeting, students had the opportunity to speak to the Dean and each Automotive Instructor.</p>

ENTRY

	Rating	Explanation
<u>Enrollment Goals:</u> <ul style="list-style-type: none"> <li>• In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> </ul>	D	<p>Hours to complete the program are lower than in other programs. The difference is those programs have introduced new emerging technology courses that have extended their hours to completion. At other institutions, the focus is on the student getting what they need and what the service area needs in a worker. The differences are, here at Gaston College, we reduced hours to get them out into the workforce without removing essential courses to allow for the introduction of new courses that teach current but growing trends in the auto industry. Examples of those trends are LDD,</p>

<ul style="list-style-type: none"> <li>• What strategies have been and/or will be implemented?</li> </ul>		<p>Hybrid Electric, Full Electric, Full Electric and Autonomous vehicles.</p> <p>Every year, the College conducts a Program Revision. During this period, the program chair has an opportunity to make corrections to the program according to a host of factors that impact program design and course offerings. Examples of developments that would lead to a program revision are the emergence of innovative technologies in the industry such as Full Electric vehicles.</p>
---	--	---

PROGRESS

	Rating	Explanation
<p><u>SLOs and Curriculum Map:</u></p> <ul style="list-style-type: none"> <li>• Attach curriculum map and analysis of program learning outcomes.</li> </ul>		<p>The program SLO's are broad to allow for a variety of learning experiences in an industry and learning environment that constantly changes. There may be multiple opportunities for students to remove an engine, but there may only be one at removing and replacing a timing belt or chain on a vehicle. So, SLO's are flexible and adaptable to meet an ever-changing landscape.</p>
<p><u>Retention and Progression:</u></p> <ul style="list-style-type: none"> <li>• How does program retention compare to the retention goal?</li> <li>• What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	A	<p>The Automotive program has grown from a 17% retention rate from Fall 2020-2021 to an 83% rate from Fall 2021-2022. The Automotive program has a 4% higher retention rate of new students than the College's 79% rate.</p>
<p><u>Demographics:</u></p> <ul style="list-style-type: none"> <li>• What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>	D	<p>Automotive is using a wide range of college publications with images of students of all demographics to highlight the makeup of our student population.</p> <p>Demographics A60160 Fall 2021</p>

	Rating	Explanation
		<p>Percent Female 17%  Percent Male 83%  Percent White 70%  Percent Non-White 30%</p> <p>Demographics Gaston College Fall 2021  Percent Female 66%  Percent Male 34%  Percent White 63%  Percent Non-White 37%</p> <p>The Automotive Department continues to strive to serve broader demographics, including minorities, low-income students, working adults, returning students, and students with low academic achievement. We support student success by identifying College resources like the Writing Center, Math and Science Center, Learning Center, and TRIO. Additionally, the department has asked local dealerships and shop owners to contribute to an Automotive Minority scholarship to help students in targeted demographics.</p>
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> </ul>	<p>A</p>	<p>Course sequencing is a high priority within the program. All the programs in the CTE Division block an 8 – 10 Tuesday and Thursday morning time slot for students to take their General Education courses. The Division requests these block times for students, ensuring they get the courses they need and enough student enrollment for the classes to run. Having division sequences overlap removes a roadblock and prevents a student from getting off sequence and delaying program completion. Courses having State prerequisites are sequenced one after the other and listed as a high priority course in the program's course outline.</p>

	Rating	Explanation
<ul style="list-style-type: none"> <li>Are courses filled at an appropriate rate?</li> </ul>		Yes. Because the program's overall goal of having student's complete lab tasks and live vehicle repairs, it is necessary to limit the number of students to instructor ratio to 15 to 1. Using high-valued tools and electronic equipment can be dangerous and expensive if not appropriately supervised.
<u>Modality:</u> <ul style="list-style-type: none"> <li>Are we choosing the best delivery methods and times?</li> <li>Also consider online and other locations, if applicable.</li> </ul>	A	Yes, Automotive students are visual and tactile learners, so we incorporate lecture, discussion, and hands-on training methods. We do have web-assisted classes, but our student population does not perform as well as seated students do. The program offers morning and evening classes for day and evening instruction.
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>What do course evaluations say?</li> <li>What is the process for addressing student feedback?</li> </ul>	A	In one instructor evaluation, a student commented that the course was filled with coursework. The actual problem was the course was web-assisted, and the students had not been keeping up with their assignments. The instructor allowed the student an opportunity to complete and submit missing assignments. Other evaluations reveal student satisfaction.

COMPLETION

	Rating	Explanation
<u>Student Achievement:</u> <ul style="list-style-type: none"> <li>Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>	A	Enrollment, success rates and withdrawal rates are satisfactory. They are no more than the result of attrition that occurs in all programs over time.
<u>Graduation:</u> <ul style="list-style-type: none"> <li>How does the actual awards/headcount percentage</li> </ul>	D	Awards/headcount are lower than we would like. What is missing is an evaluation tool that can identify barriers so they can be addressed.

	Rating	Explanation
<p>compare to the awards/headcount goal?</p> <ul style="list-style-type: none"> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>		For some, it is a time commitment issue, and for others it is financial.

TRANSITION

	Rating	Explanation
<p><u>Job Placement/Transfer:</u></p> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>	O	As with all post-secondary education, not all students who entered the Automotive program have entered or continued in the field. The ones who have been successful and well respected. According to the DOL, the median age of an automotive technician is now 57 years old, an increase of 2 years from 2020-2021 data.
<p><u>Community:</u></p> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>	D	<p>The program needs to be modernized. It has not seen a total revision in course offerings in over 25 years.</p> <p>Industry has provided the use of tools the College does not have access to. A few businesses have donated blown engines and transmissions.</p> <p>The Committee has said, on several occasions, the College has not responded to requests made by them.</p>

Students themselves identified gaps in their understanding and began asking questions of the instructor for the correct information.	exercise and perceived opinion.
#4	Communicate effectively, both written and orally.	Students will communicate with the customer concerning necessary repairs and how the fix for the problem was determined. Assessed in AUT-116 using a rubric with a maximum score of 16.	Students will achieve and an average score of at least 12 of 16 on the rubric.	Fall 2021 Mean: 11 Range: 6 - 16 n: 18	Students were able to fill-in a repair order	Students failed to solicit valuable information from the vehicle owner. Students with weak communication skills will not be able to perform at the highest levels	Instructors added garage lingo to increase students' knowledge of descriptive words used to describe vehicle issues related to repairs.	Refer them to the student learning center for tutoring. Continue to recommend students who need assistance.

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
#5	Demonstrate professionalism and manual dexterity.	Students will fill out a repair order, communicate effectively and professionally with the vehicle owner. Assessed by a rubric in AUT-213 with a maximum score of 16	Students will achieve and an average score of at least 12 of 16 on the rubric.	Fall 2021-AUT-116-D01 Mean:14 Range:12 - 16 n:17	Students valued the professional modeling and feedback they received from the instructor.	Enhance lessons by including more professional development training.	Student professionalism has improved.	Bring shop managers to be a part of the process. Snap-On's professional development team will be a continued part of TRN-116's instruction.
#6	Demonstrate good reasoning skills, troubleshooting various automotive drivability issues.	Students will use Pro-demand to locate various automotive diagnostic information as assessed by a rubric in AUT-181 with a maximum score of 16.	Students will achieve and an average score of at least 12 of 16 on the rubric.	Fall 2021-AUT-123-D01 Mean: 13 Range: 10-16 n: 17	Students are using Pro-Demand to find troubleshooting information.	Students are becoming aware of the program's full capability and assigned tasks to find specific repair information	Students were assigned specific information to locate using Pro-demand.	All students in the automotive program will be required to attach their repair information with their submitted repair orders.

## Program Review - D20100 Biotechnology

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The Biotechnology Diploma is a program that focuses on the application of the biological sciences, biochemistry, and genetics to the preparation of new and enhanced agricultural, environmental, clinical, and industrial products, including the commercial exploitation of microbes, plants, and animals. Potential course work includes instruction in general biology, general and organic chemistry, physics, biochemistry, molecular biology, immunology, microbiology, genetics, and cellular biology. This curriculum will prepare students for careers through the study of principles in science, laboratory techniques and applied processes. Graduates should be qualified to obtain occupations as process and manufacturing technicians in the life science, food, and agricultural sectors. Upon the completion of this program student will be able to:

1. Demonstrate comprehension of life at the cellular and molecular level using written communication.
2. Illustrate the proper use of a variety of laboratory techniques and procedures with accuracy, precision, and safety.
3. Integrate the laboratory and lecture components of the program through the use of an experimental approach.

The following action items from the 2021-2022 program review cycle were addressed.

To meet the needs of Division, the following actions will be implemented during the 2021-2022 academic year:

Increase the number of successful coaches in the division.

During the Fall of 2021, the Arts and Sciences had 4 success coaches that were primarily responsible for all of success coaching of all students in A&S. Starting Fall 2021, A&S faculty were provided success coach training in order to conduct a new model of success coaching by the A&S faculty. More than 8 training sessions were provided to all A&S faculty. In the Spring 2022, A&S faculty began serving as a success coach for a case load of students. Each A&S faculty member had a case load of 10-20 students throughout the spring semester. The 4 primary success coaches in A&S remained as success coaches for a reduced load of students while assuming the roles of trainer and guide for faculty as they learned to coach students using this new model. Success coaches provided faculty monthly emails with tips and tricks to support faculty as they worked with their students. In addition, A&S Success Coach Group was created in Google Drive to provide faculty with examples and tips on how to successfully coach students. Faculty success coaches were provided with a survey at the end of the Spring Semester to gauge the success of the success coaching pilot. Feedback provided by faculty

## Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

indicated that while they wanted to serve as success coaches, faculty felt that they could serve their own students as a success coach as opposed to being assigned a caseload. This feedback was used to update the Faculty Success Coaching to a new model that is being implemented in Fall 2022.

Train all faculty and advisor on the new Self-Service program.

The Dean's office worked with the Office of Registration and Records to provide training and training materials to all Arts and Science faculty. During the Fall of 2021, a group of select faculty served as a test group to implement Self-Service. This pilot group provided feedback to the Dean's office and the Office of Registration and Records to provide insight into the process on the faculty end. In the Spring 2022, all A&S faculty transitioned into using Self-Service. All faculty and advisors were provided with training and training materials (in NeoGov) as they transitioned into this new system.

Explore more inclusive access and Open Education Resources (OER) in the general education and program courses.

The college implemented a new advising model for the academic year (2021-2022). Based on our Quality Enhancement Plan (QEP), Gaston College launched the *Path to Potential – A Case Management Advising Model*. This model provided three new advising centers on campus (Arts & Sciences, Career & Technical Ed., and Health and Human Services). A.S. students primarily utilize the Arts & Science advising center under this new model. This advising center for A&S offers new student advising, first semester advising, and ongoing advising for all A&S students. These division specific centers have a greater ability to focus directly on student needs and each advisor follows the students from entry until graduation. During the first semester, advisors met with over 2200 students while still providing new student outreach while following up and creating academic plans for continuing students. Overall assessment of the success of the new Advising Model will be forthcoming after completion of several advising cycles with final analysis occurring in the 5<sup>th</sup> year review of the advising program model.

Work with Human Resources to hire new faculty in the division.

The Arts & Sciences held several hiring committees throughout the 2021-2022 academic year to replace faculty who retired or resigned. During the Spring and Summer of 2022, 2 biology instructors of 4 were hired, 1 math instructors, 1 PSY and 1 Art instructor for College Now Programs. These faculty will start during the AY 2022-2023. Despite filling the need with these faculty members, the division also saw the retirements or resignations of 1 biology and 1 chemistry faculty as well as several other faculty from other A&S areas that serve to teach students in the A.S. pathway.

Implement the QEP case management advising model for all A&S

The college implemented a new advising model for the academic year (2021-2022). Based on our Quality Enhancement Plan (QEP), Gaston College launched the *Path to Potential – A Case Management Advising Model*. This model provided three new advising centers on campus (Arts & Sciences, Career & Technical Ed., and Health and Human Services). A.S. students primarily utilize the Arts & Science advising center under this new model. This advising center for A&S offers new student advising, first semester advising, and ongoing advising for all A&S students. - Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

providing new student outreach while following up and creating academic plans for continuing students. Overall assessment of the success of the new Advising Model will be forthcoming after completion of several advising cycles with final analysis occurring in the 5<sup>th</sup> year review of the advising program model.

Add a new certificate under the Biotechnology diploma, Foundations of Healthcare Certificate (C20100C) for both curriculum and College Now students.

Several degree and certificate programs were added to the Biotechnology options at Gaston College. An A.A.S in Biotechnology (A20100) was added during the year to support students pursuing a career-ready degree in Biotechnology. The biotechnology program focuses on the application of the biological sciences, biochemistry, and genetics to the preparation of new and enhanced agricultural, environmental, clinical, and industrial products, including the commercial exploitation of microbes, plants, and animals. Potential course work includes instruction in general biology, general and organic chemistry, physics, biochemistry, molecular biology, immunology, microbiology, genetics, and cellular biology. In addition, a new certificate for both College Now and Curriculum students was developed called Biotechnology – Foundations of Healthcare Certificate (C20100C). This certificate in Biotechnology is designed for high school students, high school graduates, four-year students, career transfers, and any interested adults who are seeking a job in the biotechnology field.

### Strengths

The Foundations of Biotechnology and Basic Biotechnology certificates continue to be popular with the high school CCP population. In addition, the Biotechnology diploma is a popular add on major for many Associate in Science students.

Numerous impactful academic resources are offered to aid in student successful completion. The Division remains active in a variety of campus initiatives and activities, including: CoDE (Co-requisite Developmental Education); Gaston College Study Tours; Writing Center; Learning Center, MASC Center, Transfer Advising Center; Psi Beta; Gamma Beta Phi; Completion by Design; Achieving the Dream; NC College Transfer Program Association; STEM Persistence and Retention via Curricula, Centralization, and Cohorts (SPARC); Inquiry Based Learning methods; and North Carolina Guided Pathways to Success (NC-GPS).

With the increase in online classes, many A&S faculty received specialized professional development related to conducting high quality online courses in the form of Blackboard and Accessibly Training, as well as Quality Matters Courses. This initiative will be continued and strengthened through an initiative in Arts and Sciences as a whole.

### Areas for Improvement

The Arts and Sciences Division is always looking to enhance and improve the student experience. With continuous improvement in mind, several areas have been identified for further development. There has been a marked increase in interest from the high school population, Career and College Promise (CCP); however, the successful completion rates of this group remain low. Additionally, divisional leaders will focus on providing further academic support to students in science and math courses, brainstorming

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

ways to increase response rates for course evaluations and graduation surveys, improvement of seamless transfer to senior institutions, and reducing course withdraw rates.

### Needs

Despite adding new faculty in the division, multiple retirements, and resignations as well as growth in the College Now programs, the college has multiple open positions. Full-time faculty are needed in the following areas – math (2 positions), biology (3 positions), communications (1 position), and foreign language (1 position).

### Actions for 2022-2023

- Implement strategies to improve online learning and teaching within Arts and Sciences.
- Work with Human resources to hire faculty in needed positions within Arts and Sciences.
- Investigate potential science friendly 2+2 to transfer institutions for Science Majors.
- Design global activities into at least one science course to align with Gaston College Global Initiative of increasing cultural and global awareness in courses

Is there anything you want to note about these diplomas, certificates, or pathways?	C20100C /C20100CP Biotechnology Certificate – Foundations of Healthcare was a new certificate added this past academic year.

CONNECTION

	Rating	Explanation
<p><u>Viability:</u></p> <ul style="list-style-type: none"> <li>• How viable is the program? Consider the accompanying program viability report.</li> </ul>		<p>FTE Count D20100</p> <ul style="list-style-type: none"> <li>• 2018-2019 9.94</li> <li>• 2019-2020 13.38</li> <li>• 2020-2021 10.25</li> <li>• 2021-2022 35.31</li> </ul> <p>There was an increase in FTE of approximately 25.06 from 2020-2021 to 2021-2022.</p> <p>Many Associates in Science Degree majors will add the Biotechnology diploma as a second major. The Biotechnology certificates, especially for the high school population, are typically selected based on the courses students are interested in completing, more than the desire to earn the actual credential.</p> <p>The Arts and Sciences division consistently earns approximately half of the College FTEs. The return on investment for this program is consistently high; FTE income significantly outweighs the cost for running the program and faculty salaries.</p>
<p><u>Uniqueness:</u></p> <ul style="list-style-type: none"> <li>• What do we do that sets us apart from neighboring institutions?</li> <li>• How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>		<p>Gaston College is participating in the North Carolina Guided Pathways to Success (NC-GPS). As a result of this initiative, we have created streamlined pathways for students in the various degree programs. One of the benefits of NC-GPS is to create greater cost savings and efficiencies for the students.</p> <p>Division faculty/staff are currently developing a more robust marketing plan with the high school population as a target audience. We continue to collaborate with senior institutions regarding the Baccalaureate Degree Plans (BDPs) to ensure a smooth transfer process.</p> <p>Additionally, student resources for this program are unique. Beyond our traditional learning center, we also have both a Writing Center and Math and Science Center staffed with professional academic coaches who hold a bachelor's degree or higher.</p>

ENTRY

	Rating	Explanation
<p><u>Enrollment Goals:</u></p> <ul style="list-style-type: none"> <li>In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>What strategies have been and/or will be implemented?</li> </ul>		<p>Cleveland Community College is the closest institution with an active Biotechnology degree program. The course hours toward graduation are comparable (CCC – 65 c.h. vs. GC – 68 c.h. for the AAS degree). Key difference between CCC and GC is that CCC requires the standard state required career ready courses such as BTC-280, BTC-150, and BIO-140/140A where GC does not have those courses as options.</p> <p>Adding the option to have BTC-280, BTC-150, or BIO-140/140A would be additions to the Biotechnology degree that would provide a more career-ready biotechnology program.</p>

PROGRESS

	Rating	Explanation
<p><u>SLOs and Curriculum Map:</u></p> <ul style="list-style-type: none"> <li>Attach curriculum map and analysis of program learning outcomes.</li> </ul>		<p>See attached curriculum map and program learning outcomes.</p>
<p><u>Retention and Progression:</u></p> <ul style="list-style-type: none"> <li>How does program retention compare to the retention goal?</li> <li>What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>		<p>Program Retention D20100</p> <ul style="list-style-type: none"> <li>Fall 2017 to Fall 2018 100%</li> <li>Fall 2018 to Fall 2019 33%</li> <li>Fall 2020 to Fall 2021 0%</li> <li>Fall 2021 to 2022 96%</li> </ul> <p>There was an increase in retention of new students of approximately 96 percentage points from Fall 2020-Fall 2021 to Fall 2021-Fall 2022.</p> <p>Program Retention C20100</p> <ul style="list-style-type: none"> <li>Fall 2017 to Fall 2018 35%</li> <li>Fall 2018 to Fall 2019 65%</li> <li>Fall 2020 to Fall 2021 45%</li> <li>Fall 2021 to Fall 2022 74%</li> </ul> <p>There was an increase in retention of new students of approximately 29 percentage points from Fall 2020-Fall 2021 to Fall 2021-Fall 2022.</p>

	<p>The College retention goal for new students, 49%, was exceeded last year for both C20100 and the D20100 diploma. D20100 and C20100 are not typically the primary major for students. A new certificate (C20100C/C20100CP - Biotechnology – Foundations of Healthcare) was added during the academic year 2021-2022 and the retention for this certificate was 86% for C20100C and 88% for C20100CP.</p>
<p><u>Demographics:</u></p> <ul style="list-style-type: none"> <li>• What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>	<p>Demographics D20100 Fall 2021  Percent Female 50%  Percent Male 50%  Percent White 67%  Percent Non-White 33%</p> <p>Fall 2021, fifty percent of the students in D20100 were white females, 33% were non-white male, and 17% were white male. We continue to strive to serve broader demographics, including minorities, low-income students, working adults, returning students, and students with low academic achievement. We provide academic holistic support for students, including growth mindset activities in various courses, and individual help in the Writing Center, Math and Science Center, Learning Center, TRIO, and the Transfer Advising Center. Additionally, we are an early adopter of the North Carolina Community College System developmental redesign, which has a goal of accelerating the progression of underprepared students using a corequisite model.</p>
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>	<p>Course sequencing is a high priority within the Division. Collaboration with other divisions and programs occurs each semester to meet the general education needs of all program's college wide. A course matrix of semester offerings is provided to college program leaders. Data analysis of fill rates and course demands of prior semesters is used to create the schedule for each upcoming semester. Course fill rates are closely monitored during registration periods to maximize efficiency in course offerings.</p>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>	<p>All learning modalities (traditional, web-blended, hybrid, and online) exist in 20100 programs. Classes are offered day, night, and online. Various start dates are provided to</p>

		accommodate the different populations served as well as to aid in progression to degree completion.
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>		<p>Course evaluations are conducted each fall and spring semester for every faculty member and every class. Faculty members along with their department chairs have access to course evaluations upon the completion of the semester. Annually, strategies to address student feedback are developed for any areas of concern. Due to course evaluations being administered online, the response rate remains low. Institutional Effectiveness and the Dean’s Council continue to brainstorm ways to increase student response rates. Overall, student feedback for the program is positive.</p>

COMPLETION

	Rating	Explanation
<u>Student Achievement:</u> <ul style="list-style-type: none"> <li>• Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>		<p>In previous years, BTC-181 and BIO-250 were courses with low enrollment. Since the addition of the High School Pathway as well as hybrid and online models of instructions for both mentioned courses, enrollment in each course has increased. Currently, the withdraw rates remain low in these biotechnology specific courses.</p>
<u>Graduation:</u> <ul style="list-style-type: none"> <li>• How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>		<p>20100  Headcount – 235  Awards – 1148  Awards at the Highest Level – 0  Awards to Headcount Ratio – 489%</p> <p>Timely student completion has been a major objective for both the Division and the College. Specific initiatives such as Completion by Design, Achieving the Dream, and NC-GPS have provided the framework for improvement strategies. Students in A10400 and P1042C have diversified goals for attending; and</p>

	Rating	Explanation
		completion of a credential is only one preference. Many students plan to transfer before fulfilling degree requirements.

TRANSITION

	Rating	Explanation
<p><u>Job Placement/Transfer:</u></p> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>		<p>Transfer Performance, as provided by the NCCCS performance measures, has been consistent for Gaston College, 2018 - 85%, 2019 - 82%, 2020 – 86%, 2021 – 83% 2022 - 85%. The numbers indicate that transfer performance is below the average college percentage for the state but above the system baseline level. We have created a Transfer Performance Improvement Team consisting of divisional leadership, faculty, and staff to address improvement of this measure.</p> <p>Additionally, we have a Transfer Advisory Committee with membership from our Transfer Advising Center (TAC), A&amp;S Dean’s Office, Academic Affairs, and representatives from our top transfer institutions. This committee meets in the spring semester.</p> <p>Students have the benefit of one-on-one advising in the TAC. Transfer advisors assist students in developing educational plans with the goal of seamless transfer to a senior institution based on the published Baccalaureate Degree Plans (BPDs).</p>
<p><u>Community:</u></p> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>		<p>Program administrators, faculty, and staff collaborate with internal and external stakeholders regarding program updates and changes. An annual Transfer Advisory Committee is conducted with representatives from the main senior institutions for our transfer students. Transfer Admission Guarantees (TAGs) have been developed with several public and private institutions in our area. Students are guaranteed admission to the selected institution if they maintain a certain GPA and follow the established program guidelines. Several of the</p>

		private institutions offer specific scholarship opportunities to Gaston College transfer students.

## Student Learning Outcomes – D20100 Biotechnology

The following rubric is used to holistically evaluate the Program Learning Outcomes for the Biotechnology Diploma. The benchmark is an overall score of 3 out of 4 or 75% (a rating of “good”). The rubric scoring range is shown below:

Improvement Needed (1)	Fair (2)	Good (3)	Excellent (4)
0-59% success rate on the course assessment activity	60-74% success rate on the course assessment activity	75-84% success rate on the course assessment activity	85-100% success rate on the course assessment activity

The Biotechnology Diploma program consists of three expected learning outcomes. Each area is rated according to the appropriate assessment.

The scoring rubric above is used to provide a holistic evaluation of overall student success for each degree program. The total overall success rate for the program learning outcomes as measured by this rubric is 83%.

Two out of three of the learning outcomes met the 75% benchmark. One learning outcome was below the 75% benchmark.

Detailed actions to be implemented addressing these outcomes are included in the assessment tables below.

Summary of Associate in Fine Arts in Visual Arts	Total Points Achieved
Program Learning Outcome 1: Demonstrate comprehension of life at the cellular and molecular levels. 62%	2
Program Learning Outcome 2: Illustrate the proper use of a variety of laboratory techniques and procedures with accuracy, precision, and safety. 94%	4
Program Learning Outcome 3: Integrate the laboratory and lecture components of the program using an experimental approach. 96%	4
Total Achieved/Total Possible	10/12
Overall Rubric Score	83%

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented	Score 1-4
				Results	Strengths	Areas for Improvement			
1	Demonstrate comprehension of life at the cellular and molecular levels.	<p>BIO 111: General Biology I</p> <p>Students will complete a comprehensive final exam. The final exam will include 30 multiple choice questions which allows students to meet the following student learning outcomes:</p> <p>1. Investigate and design basic laboratory experimentation and techniques through the utilization of the scientific method. 2. Examine and relate the chemistry of life to</p>	On average, students will earn at least 70% on this artifact.	Fall 2021 Mean of Completers= 64%	Fall 2021 Overall, the questions are still very balanced and cover each learning outcome in depth.	<p>Fall 2021 Not all faculty included the same videos to address all areas of weakness as this option because an individual preference based on teaching styles. This may have impacted overall results this past assessment. The wording of some questions on the assessment makes some of the questions confusing to some students. For example, question 14 states: "The intracellular fluid of a cell has 50%</p>	<p>Fall 2021. Assessment Results declined from 68% to 64%</p> <p>Question 22 did replace errors in grammar, which may have contributed to a higher success rate for this question in the FA 2021. Question 29 was never replaced with this testing cycle.</p>	<p>Assessment results for BIO 111 will be collected again during the next assessment cycle. Reword question 22 to replace errors in grammar. Replace question 29 with a new question. Make sure we have videos that address the core topics for all faculty. Include videos that address current areas of weakness including the variables relating to the Scientific Method, Genetics including sex-linked traits and</p>	2

		<p>biological processes.</p> <p>3. Correlate cellular structure and function to cellular processes.</p> <p>4. Attribute the mechanisms of genetics to biological patterns of inheritance.</p> <p>5. Attribute and correlate the mechanisms of evolution to cellular biology.</p>				<p>salinity, and the extracellular fluid has 5% salinity. Which of the following correctly describes the movement of salt and water.” Typically, the concept is taught based on the movement of the water across a selectively permeable cell membrane and not necessarily the movement of the salt. Thus, the wording should reflect the net movement of the water, rather than both the salt and the water.</p>		<p>Punnett Squares. Instructors will be provided with a series of core practice test questions to help students learn how to critically read test questions.</p> <p>Students should also be giving more scenario or case study-based questions to improve their overall critical thinking skills.</p>

						types of questions, it could help students better understand their use in the lab.			
Program Learning Outcome 2: Illustrate the proper use of a variety of laboratory techniques and procedures with accuracy, precision, and safety. - Total									4/4
3	Integrate the laboratory and lecture components of the program using an experimental approach	BIO 275 Microbiology: Success is demonstrated using an experimental approach in which students will analyze various scientific results by integrating lab and lecture components. A rubric will be used to assess the results and analysis of the data.	On average, students will earn at least 80% on this artifact.	Fall 2021 95.5%	The assessment criterion for the competency was met. The new explanations and videos helped students better understand standard deviation (SD). Students are beginning to catch on to SD more after providing more practice before the assessment.	Students continue to need assistance in the math calculations for standard deviation	The action plan was to work to enhance the ability of students to calculate standard deviation by providing pre-lab examples before calculating the SD for the assessment. The action plan was implemented. Online courses received video instruction on how to calculate SD as well as information on its use and how it is used in Microbiology.	Assessment results for BIO 275 will be collected again during the next assessment cycle.  Instructors will continue enhancing the students understanding of SD through the use of pre-lab examples and videos and continue to enhance the student's ability to calculate and evaluate SD in a lab setting.	4

						<p>There was a slight increase in the overall assessment score. The score the previous year was 95.22% and it increased to 95.50%. This could be explained by the additional videos and enhanced teaching strategy of standard deviation. Despite preparations for online, some students still struggle completing science online. Overall, students performed about the same, with slight improvement, on the SD portion of the assessment.</p>

## Program Review – A30120 Broadcasting and Production Technology

Instructions: Fill in the Program Name and Program Code in the header above and then answer the questions below. Where available, fill in the Rating box based on the provided Rating Scale below and your own assessment of program strengths and weaknesses.

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

- **Strengths**: The Broadcasting (BPT) program offers diverse offerings with many great ways for students to air their content. It features shows that air on Channel 21, a podcast channel, and a recording studio. The program has amazing labs with industry standard equipment. The program has dedicated, passionate instructors that are highly skilled in their field. BPT offers hands-on instruction that really allows students to master the equipment and software. The program invites the community to the television shows, and the instructors invite them to record in the studio. We also filmed campus sporting events.
- **Areas of Improvement**: BPT participated in a statewide SIP this past year and we will be making lots of changes to the degree that should update the curriculum and make things more streamlined. The area of improvement will be building all these new courses and teaching out the old ones smoothly. Also, advising will be critical as all courses have new names and contact hours.
- **Needs**: We may need more faculty support as we teach out our old courses, add SMT, and add the new ones.
- **Actions**: We are undergoing major curriculum changes in this program which will update the curriculum and make it more attractive to future students. The new name of the program will be Audio and Video Production Technology.

CONNECTION

	Rating	Explanation
<p><u>Viability:</u></p> <ul style="list-style-type: none"> <li>How viable is the program? Consider the accompanying FTE data.</li> </ul>	A	<p>FTE Count 30120</p> <ul style="list-style-type: none"> <li>2018-2019: 47.02</li> <li>2019-2020: 34.41</li> <li>2020-2021: 19.75</li> <li>2021-2022 33.4</li> <li></li> </ul> <p>Program FTE is on an upswing with a significant increase between 2020 and 2021.</p> <p>The program is economically viable with FTE exceeding program costs.</p>
<p><u>Uniqueness:</u></p> <ul style="list-style-type: none"> <li>What do we do that sets us apart from neighboring institutions?</li> <li>How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>	O	<p>The program is the only degree-based broadcasting program in the area that focuses on technical skills. CPCC offers digital media/journalism, and the Carolina School of Broadcasting closed this year. The program is also the only one with a recording studio that offers multi-track recording. We are also a community college leader in sports broadcasting. The program markets it in many different ways. The faculty regularly post on social media; the program has a very active Facebook presence. The instructors and students visit local high schools with similar programs and regularly submit stories to the college marketing area. The program also broadcasts on WSGE and utilizes Channel 21.</p> <p>The addition of sports also makes it unique. Additional program-specific marketing efforts from the college would also be beneficial.</p>

ENTRY

	Rating	Explanation
<p><u>Enrollment Goals:</u></p> <ul style="list-style-type: none"> <li>In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>What strategies have been and/or will be implemented?</li> </ul>	A	<p>Our hours are less than most of the other BPT programs. The statewide curriculum improvement process has streamlined the courses and will make most of the BPT programs in the state more aligned. Each will be able to keep their own unique features, but will have similar offerings.</p>

PROGRESS

	Rating	Explanation
<u>SLOs and Curriculum Map:</u> <ul style="list-style-type: none"> <li>• Attach curriculum map and analysis of program learning outcomes.</li> </ul>	A	
<u>Retention and Progression:</u> <ul style="list-style-type: none"> <li>• How does program retention compare to the retention goal?</li> <li>• What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	D	According to this Gaston Colleges factbook for 2021- 2022, our retention rate for 2020-2021 was 67% and it dropped to 57% from 2021 to 2022. A barrier to student success is the contact hours in the program. Many students have trouble finishing with the substantial number of contact hours. Our upcoming changes should help with that.
<u>Demographics:</u> <ul style="list-style-type: none"> <li>• What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>		Students in the program are 51% White, 21% Black, 15% Unknown and 10% Hispanic. Most students are between 18 and 24 years of age (79%), and most are male (82%) which presents opportunities to brainstorm about recruiting and retaining more diverse students.
<u>Course Sequence:</u> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>	A	All sequences and courses have been streamlined for this upcoming year due to statewide changes.
<u>Modality:</u> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>	O	Most of our classes are hybrid to cut down on long lab times. Many of our students have requested night classes, but they do not fill.
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>	O	Course evaluations were strong in our area. We look at each piece of student feedback and are constantly finding ways to improve.

COMPLETION

	Rating	Explanation
<u>Student Achievement:</u>	A	BPT 135 and 285. Those courses are stacked together to help fill space. Students have a

<ul style="list-style-type: none"> <li>Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>		choice of 135 or 235 and that's why it is smaller. 285 is the final class to graduation so it's always going to be smaller.
<u>Graduation:</u> <ul style="list-style-type: none"> <li>How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>What are the barriers to timely student completion and how can they be addressed?</li> </ul>	A	The awards to headcount ratio is 40% according to the GC Factbook. We would like to increase that number and we think a lot of the changes we are making to the program will help.

### TRANSITION

	Rating	Explanation
<u>Job Placement/Transfer:</u> <ul style="list-style-type: none"> <li>Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>	O	All our graduates (but one) last year graduated having secured FT employment in the field. We have a new job partnership with TEGNA, and they hired all of them to work in their streaming center.
<u>Community:</u> <ul style="list-style-type: none"> <li>Is the program the right fit for our community?</li> <li>How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>What is the advisory committee feedback?</li> </ul>	O	Yes, our job partnerships are growing and with sports, they will grow even more. In the past years, three organizations have reached out to us to employ our graduates: -TEGNA, WCNC, and the Honey Hunters.

## Program Review – A25120 Business Administration

Instructions: Fill in the Program Name and Program Code in the header above and then answer the questions below. Where available, fill in the Rating box based on the provided Rating Scale below and your own assessment of program strengths and weaknesses.

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

Strengths: Enrollment for Business (General) is strong, the program is healthy. Enrollment for Business (HRM) is lower but still enough for viability.

Areas for improvement: Heavy reliance on adjunct instruction.

Needs: Dedicated instructor for Business (General) who can also teach HRM classes.

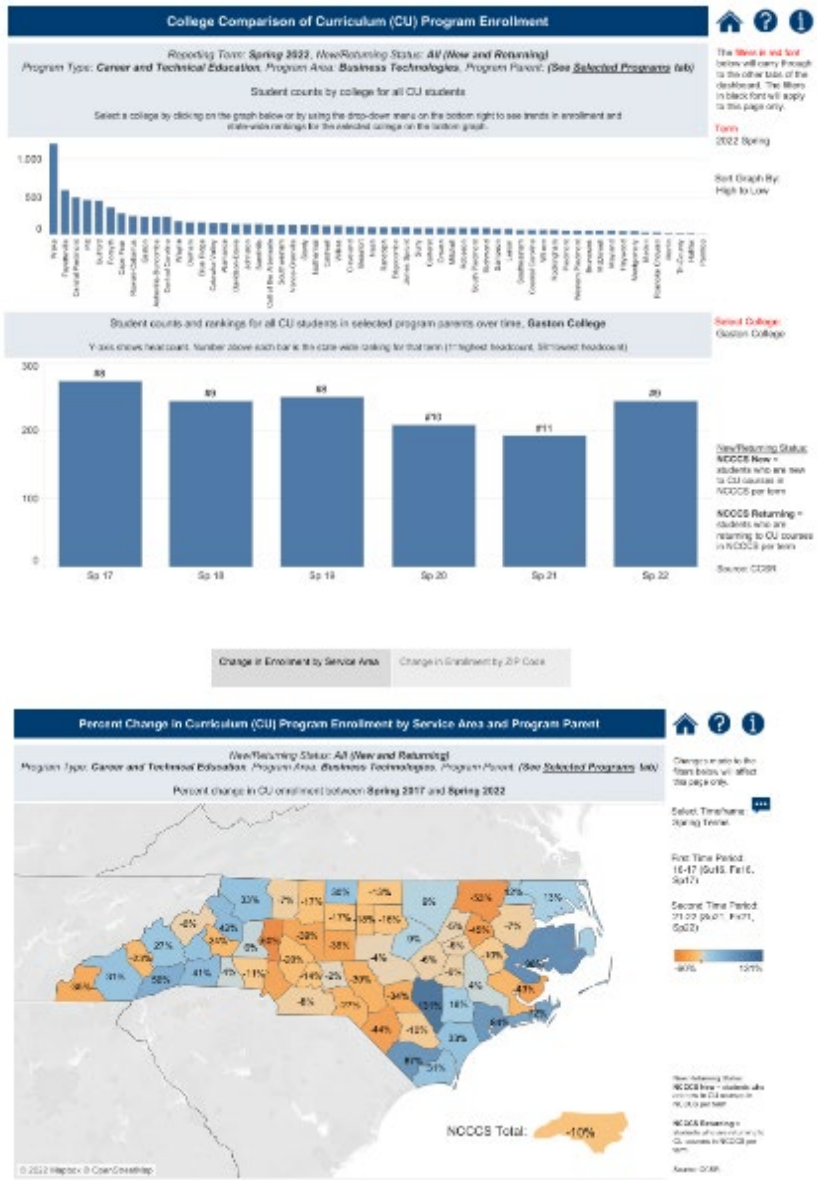

Actions: Request Business/HRM instructor

<u>Course Sequence:</u>	O	A25120BU																																																																																																																																																																																																																																																

	Rating	Explanation
<ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>		<p>The program is sequenced appropriately, and enrollment numbers allow offering off-sequence courses in most semesters, making it easy for students to finish the program if they attend part-time or get off-sequence for another reason.</p> <p>There is some level of debate regarding whether general education courses should be sequenced toward the beginning of the program vs the end. Currently, they are sequenced toward the end to present less of a barrier to completion. Evaluation will continue.</p> <p>A25120HR The program is sequenced appropriately, and courses fill at an appropriate rate. HR-specific courses naturally net lower enrollment numbers but remain healthy enough to run. BUS 259 has historically been a barrier to completion for many students due to the number of prerequisites. However, a new version of the course significantly reduces that barrier, which will help students complete in a timely manner if they are part-time or off-sequence.</p>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>	A	<p>The department offers a variety of hybrid and online courses.</p> <p>Enrollment trends show most students prefer morning (seated) or online courses. There used to be significant demand at the Kimbrell and Lincolnton campuses, but that is no longer the case, so seated classes are focused entirely on the Dallas Campus.</p>
<p><u>Evaluation:</u></p> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>	O	<p>Many of our students are extremely happy with our instructors and courses. There have been a few adjunct faculty that have underperformed. Generally, we give them an opportunity to improve before deciding whether to invite them back to teach.</p> <p>Student feedback is distributed to instructors and supervisors for discussion during the faculty evaluation process.</p>

COMPLETION

	Rating	Explanation
<p><u>Student Achievement:</u></p> <ul style="list-style-type: none"> <li>• Are there courses with low enrollments? low success</li> </ul>	O	There are no standout issues for either program.

	Rating	Explanation
rates? high withdrawal rates?		
<u>Graduation:</u> <ul style="list-style-type: none"> <li>How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>What are the barriers to timely student completion and how can they be addressed?</li> </ul>	O	Headcount – 584 Awards – 201 Awards at the highest level – 34 Awards to headcount ratio – 34%  No awards goal was set for this year.  No barriers to timely completion have been identified at this time. Most issues have been resolved via mandatory academic advising. BUS 259 used to be a barrier for HRM but is no longer.

TRANSITION

	Rating	Explanation
<u>Job Placement/Transfer:</u> <ul style="list-style-type: none"> <li>Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>	n/a	No data on job placement this year
<u>Community:</u> <ul style="list-style-type: none"> <li>Is the program the right fit for our community?</li> <li>How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>What is the advisory committee feedback?</li> </ul>	O	The department believes the program is the right fit for our community, as does the advisory board. Whether they are seeking new employment, trying to advance in their existing careers, or planning to continue their education beyond the associate’s level, our students can achieve these goals. The department has not benefitted from any community partnerships, though opportunities might exist. Faculty shortage has meant that we are focused on maintaining the programs and serving students, which doesn’t leave much time to pursue outside partnerships. That said, many students have pursued Work-Based Learning opportunities that have allowed faculty to visit students working in community businesses.

				Results	Strengths	Areas for Improvement			
1 A25120BU A25120HR	Recognize and explain the influence of supply and demand theories in various business situations	ECO 251 (Principles of Microeconomics) Supply and Demand Module Exam This is an objective measurement tool that assesses understanding of supply and demand in various business situations.	On average, students will earn at least 80% on this artifact.	Fall 2016 81% Fall 2017 83% Fall 2018 85% Fall 2019 90% Fall 2020 Mean of Completers: 87% Range: 37.5-100 n: 224 Fall 2021 Mean of Completers: 85% Range: 25-100 n: 224.	Students are demonstrating competency in learning supply and demand concepts, how they are used to allocate resources in a market economy and understanding how changes relate to changes in the broader market. Performance is significantly higher than the benchmark.	Though performance is still above benchmark, it was slightly down from last year (87-85%)	Elasticity was removed from the measurement tool for Fall 2020 with the prediction that it would help boost student performance. Contrary to expectations, performance was down slightly from 2019, though still exceeding the benchmark.	No immediate changes, but some faculty have floated the idea of selecting questions from the final exam rather than a dedicated supply/demand exam. The Arts and Sciences division has been measuring elements of our final exam for their own review, so perhaps we could merge the two to eliminate redundancy. We will talk more about this before a decision is made.	4

## Program Review - A40140 Civil Engineering Technology

Instructions: Fill in the Program Name and Program Code in the header above and then answer the questions below. Where available, fill in the Rating box based on the provided Rating Scale below and your own assessment of program strengths and weaknesses.

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

**Strengths:** The program has experienced many years of stable levels. It has expanded to include NCDOT certifications as well as maintaining a level of rigor that prepares students for industry and educational goals. Another strength is the retention of students with 100% being retained in the past year and with a 100% retention for new students. Retention continues to be strong at 100%.

**Areas of Improvement:** The program enrollment numbers do not reflect the industry needs. The industry and educational demands are not being met with the number of students. The program receives inquiries on filling industry openings greater than the student body. Recruiting efforts have and will continue to address this area.

**Needs:** The needs to the program are for resources from marketing and greater recruiting assistance. These resources should yield higher student numbers and thus better meet industry needs.

**Actions:** While complying with safety requirements, the next steps for the program are to increase recruiting efforts with local high schools and develop an overall marketing strategy for the division. This strategy should involve open houses, and bettering recruiting efforts with the high schools in Gaston and Lincoln Counties. Last year the program developed an extensive handout that was distributed to High Schools. A Lunch and Learn series has been developed to improve employer to student connections.

### DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	C40140 – Certificate in Civil Engineering Technology
Is there anything you want to note about these diplomas, certificates, or pathways?	Associates Degree and Certificate will be the focus area.

CONNECTION

	Rating	Explanation
<p><u>Viability:</u></p> <ul style="list-style-type: none"> <li>How viable is the program? Consider the accompanying program viability report.</li> </ul>	A	FTE is stable at 22.38. Increased efforts are being made to reverse the trend and the plan is to focus on Lincoln County Schools. The program continues to have opportunities but industry demand through continual request for personnel is not being met. The viability is not fully represented unless all outside courses like math, science, and English are considered.
<p><u>Uniqueness:</u></p> <ul style="list-style-type: none"> <li>What do we do that sets us apart from neighboring institutions?</li> <li>How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>	A	We are the only Civil Engineering Technology program in Gaston and Lincoln County. We have developed connections with local employers to improve community connections. Also, we have started a Lunch and Learn series to improve employer/student connections. Marketing efforts have not been fruitful and the program needs more resources in the local High Schools to inform and connect with students. The Lunch and Learn series is being piloted to better connect students and industry.

ENTRY

	Rating	Explanation
<p><u>Enrollment Goals:</u></p> <ul style="list-style-type: none"> <li>In comparison to neighboring institutions, how do program hours compare? What are differences in major courses</li> <li>What strategies have been and/or will be implemented?</li> </ul>	A	Enrollment was adequate but needs to be improved. The program hours are at 70 whereas sister programs are at 74. Other programs offer courses in two semesters and focus more on transfer than this program. The program will continue to connect with employers and improve relationships to connect students with employers.

PROGRESS

	Rating	Explanation
<p><u>SLOs and Curriculum Map:</u></p> <ul style="list-style-type: none"> <li>Attach curriculum map and analysis of program learning outcomes.</li> </ul>		See Attached Map

<p><u>Retention and Progression:</u></p> <ul style="list-style-type: none"> <li>• How does program retention compare to the retention goal?</li> <li>• What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	O	<p>The retention rate was 100%. Challenges outside of our control (change in major, unsuccessful grades) do create barriers. The program is challenging, and many students have outside work. To address challenges the program removed some course pre-requisites and made sure others are aligned with student needs.</p>
<p><u>Demographics:</u></p> <ul style="list-style-type: none"> <li>• What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>	A	<p>Our demographics are predominately white male, but we have a strong presence of Hispanic students. We have increased our female population in courses and in the major.</p>
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>	O	<p>The program has been effectively sequenced for over 10 years. Each course is aligned within the curriculum to develop a higher level of learning for industry or another course. The course fill rate is improving and could benefit with renewed marketing focus.</p>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>	A	<p>The current modality is seated with several courses offering on-line components. The flipped course will be evaluated this year to determine if the model will work with the students. Also, if the population of Lincoln County (LC) students increase substantially then the possibility of offering a course on the Lincoln Campus will be evaluated.</p>
<p><u>Evaluation:</u></p> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>	A	<p>The evaluations showed that most students agreed with the course objectives and attained course learning outcomes. However, when provide feedback the issues are corrected by adjustments to the course and/or assignments.</p>

COMPLETION

	Rating	Explanation
<p><u>Student Achievement:</u></p> <ul style="list-style-type: none"> <li>• Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>	D	<p>There are several courses with low enrollment due to overall small numbers in program. This should be improved with extensive marketing. There are NO high withdrawal courses.</p>

	Rating	Explanation
<u>Graduation:</u> <ul style="list-style-type: none"> <li>How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>What are the barriers to timely student completion and how can they be addressed?</li> </ul>	O	The program graduated five. The students are advised during each semester to ensure the students know where they are in the program. During the semester the instructor's check-in with students who are struggling. Barriers that are controllable are addressed by options for tardiness due to work schedule as well as extra credit and homework for further understanding.

#### TRANSITION

	Rating	Explanation
<u>Job Placement/Transfer:</u> <ul style="list-style-type: none"> <li>Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>	O	According to internal records, students who wish to be employed usually attain employment within six months at the latest. This has been impacted due to COVID, but jobs still exist and are being filled. The demand for Civil Technicians continues to rise beyond the student population. Outlook shows at least 1.2% growth annually.
<u>Community:</u> <ul style="list-style-type: none"> <li>Is the program the right fit for our community?</li> <li>How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>What is the advisory committee feedback?</li> </ul>	O	The program is essential to providing opportunities for construction and site development in the local market. As Gaston and Lincoln Counties grow, the labor pool can be met by the Civil ET students. The industry is expected to grow. Local employers, like Pinnix and City of Gastonia are on the advisory board to ensure community focus is maintained. The advisory committee is always happy with the program and employs students whenever a need arises.

#### ADDITIONAL INFORMATION

	Comments
Please include any additional data and/or information related to program-level accreditation.	The program is currently accredited by ETAC-ABET. However, this outside accreditation will be discontinued at the completion of the cycle.

### Student Learning Outcomes - A40140 Civil Engineering Technology

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
1	Graduates will demonstrate an ability to apply knowledge, techniques, skills and modern tools of mathematics, science, engineering, and technology to solve well-defined civil engineering technology problems.	<p>Direct Construction Estimating Rubric. This rubric consists of four Performance Indicators rated from 1 to 4 for a maximum possible score of 16.</p> <p>Truss Problem Rubric. This rubric consists of four Performance Indicators rated from 1 to 4 for a maximum possible score of 16.</p> <p>Indirect</p> <ul style="list-style-type: none"> <li>Graduate Exit Survey Question 1. This survey is given to students when they apply to</li> </ul>	<p>Direct</p> <p>On average, students will earn at least 12 out of 16 on each rubric.</p> <p>Indirect</p> <p>On average, students will rate at least 4 out of 5 on this question.</p>	<p>2021</p> <p>Mean:12.9, 12.8, 5.0</p> <p>Range:8-15,8-15,5</p> <p>n:10,10,6</p> <p>2022</p> <p>Mean:12.4, 10.5, 4.8</p> <p>Range:10-13.5,8-12,4-5</p> <p>n:6,6,5</p>	<p>The numbers show that the evaluation tool and the timing of the evaluation shows the students are meeting the course objectives and excelling.</p>	<p>Several values for the Truss problem assessment evaluation have been below acceptable levels.</p>	<p>More problems, quizzes and other examples were implemented to improve the Truss problem. The results were positive, but several students did not respond to methodology.</p>	<p>The construction estimating assessment modifications were positive but still have impacts of COVID. The attempt to put the Truss analysis in the Final was unsuccessful. We will move Truss' analysis to a quiz.</p>

				Results	Strengths	Areas for Improvement		
		graduate. It measures how well students feel they have achieved the learning outcomes.						
2	Graduates will demonstrate an ability to design solutions for well-defined civil engineering technology technical problems and assist with the engineering design of systems, components, or processes appropriate to the discipline.	<p>Direct CAD Drawing Rubric. This rubric consists of four Performance Indicators rated from 1 to 4 for a maximum possible score of 16.</p> <p>Traverse Loop Rubric. This rubric consists of four Performance Indicators rated from 1 to 4 for a maximum possible score of 16.</p> <p>Indirect Graduate Exit Survey Question 2. This survey is given to</p>	<p>Direct On average, students will earn at least 12 out of 16 on each rubric.</p> <p>Indirect On average, students will rate at least 4 out of 5 on this question.</p>	<p>2021 Mean:12.3,11, 4.7 Range:8-16, 11, 4-5 n:9,3, 6</p> <p>2022 Mean:15, NA, 4.6 Range:14-16, NA, 4-5 n:7, -, 5</p>	The students are achieving the learning outcomes successfully.	The traverse loop assignment has achieved outcomes. CAD outcomes were lower, but more focus will be placed on skills versus completion of task.	The traverse loop assignment was moved from SRV 110 (Surveying I) to SRV 111 (Surveying II), a second-year course to allow further study on the process. Results are pending.	The traverse loop will be evaluated to ensure it is a second level outcome and that lessons that were impacted due to forced online learning are achieved. Also, building information modeling (BIM) will be integrated into the CADD course where possible.

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
		students when they apply to graduate. It measures how well students feel they have achieved the learning outcomes.						
3	Graduates will demonstrate an ability to apply written, oral, and graphical communication in well-defined technical and non-technical environments; and an ability to identify and use appropriate technical literature.	<p>Direct Truss Building (Group) Rubric. This rubric consists of four Performance Indicators rated from 1 to 4 for a maximum possible score of 16.</p> <p>Non-Technical Report Rubric. This rubric consists of four Performance Indicators rated from 1 to 4 for a maximum possible score of 16.</p> <p>Indirect Graduate Exit Survey Question 3. This survey is</p>	<p>Direct On average, students will earn at least 12 out of 16 on each rubric.</p> <p>Indirect On average, students will rate at least 4 out of 5 on this question.</p>	<p>2021 Mean:14,14.3,4.8 Range:13-15, 12-16, 4-5 n:2(Groups),8,6</p> <p>2022 Mean:14.5,14.5,4.6 Range:14-15, 12-16, 4-5 n:2(Groups),6,5</p>	The results show that the students have achieved the student learning outcomes.	Evaluating multiple alternatives of trusses was successful and will be continually reviewed. More focus on the building exercise will be encouraged.	The evaluations show that the learning outcomes were achieved; however, critical analysis continues to be improved on truss alternative evaluation. We will accomplish this with more truss analysis exercises.	We will provide more truss analysis exercises. Alternative and better focus will be placed on the engineering design process. Multiple designs will be required before a final approval to build is given.

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
		given to students when they apply to graduate. It measures how well students feel they have achieved the learning outcomes.						
4	Graduates will demonstrate an ability to conduct standard tests, measurements, and experiments and to analyze and interpret the results.	<p>Direct Standard Proctor Rubric. This rubric consists of four Performance Indicators rated from 1 to 4 for a maximum possible score of 16.</p> <p>Concrete Report Rubric. This rubric consists of four Performance Indicators rated from 1 to 4 for a maximum possible score of 16.</p> <p>Indirect Graduate Exit Survey Question 4.</p>	<p>Direct On average, students will earn at least 12 out of 16 on each rubric.</p> <p>Indirect On average, students will rate at least 4 out of 5 on this question.</p>	<p>2021 Mean:12.8,13.2,4.7 Range: 9-16,11-15,4-5 n:6,6,6</p> <p>2022 Mean:13.2,13.5,4.8 Range: 13-16,10-15,4-5 n:6,6,5</p>	The results show that the students have achieved the student learning outcome.	The students still show opportunities for better application of the learning outcomes. The standard proctor test is hands-on and sometimes causes conflict due to the write-up length.	The application has been improving. During the evaluation, the NCDOT returned and began to train the students which has assisted in real application of the classroom knowledge.	The evaluation tools will continue to be monitored. Each of these items require writing extensive reports. While it is application of real work, student acceptance varies.

## Program Review – P1012C Career and College Promise Pathway – Associate in Arts

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The mission and purpose of the Associate in Arts (AA) degree at Gaston College is to provide students with a transfer degree which allows for seamless entry to a senior institution. All public senior institutions in North Carolina and many private are a part of the Comprehensive Articulation Agreement (CAA) and the Independent Comprehensive Articulation Agreement (ICAA). These agreements enable Gaston College graduates in the AA program to transfer with junior status. Gaston College graduates must obtain a grade of “C” or better in each course and an overall GPA of at least 2.0 on a 4.0 scale in order to transfer with a junior status.

The AA degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit of college transfer courses. Within the degree program, the students have the opportunity to achieve competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

The Arts and Sciences Divisional Council (dean, associate deans, and department chairs) serves as the primary program review committee for this degree program. This group meets once or twice monthly depending upon current needs and activities. Additionally, an external Transfer Advisory Committee meets annually to review curricula, transfer issues, and other topics. This committee is composed of representatives of four-year institutions where Gaston College students may transfer.

The following action items from the 2021-2022 program review cycle were addressed.

Increase the number of success coaches in the division

All A&S faculty received success coach training during the Fall 2021 term. During the Spring 2022 term, the A&S students were distributed among A&S faculty members to serve as their success coach. Faculty were surveyed about their experience at the end of the semester. Based on the information collected, changes were made to the success coach model. Beginning Fall 2022, faculty will serve as success coaches for the students in their classes for all course related issues (attendance, low grades, etc.). Two staff members will be assigned to A&S students to serve as a success coach for non-academic issues.

Train all faculty and advisor on the new Self-Service program

Faculty within the division were trained to use the Self-Service program. The dean and associate deans used the program in the fall semester. During the spring semester, all faculty within the Science and

## Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

Math, Physics, and Academic Studies department were trained and used the Self-Service program. All faculty teaching during the summer semester were trained and used the Self-Service program during the summer term. The remaining faculty were trained prior to the start of the Fall 2022 term.

Explore more inclusive access and Open Education Resources (OER) in the general education and program courses.

Faculty teaching in the A.A. pathway were provided the option to attend workshops and training during OER week during the Spring 2022 semester. Arts and Science faculty groups met to discuss inclusive access and OER options in addition to the recommended training. Some course release was available to instructors moving to OER. BIO-275 moved their textbook requirements to inclusive access. Active OER groups in Science and Math are continuing to meet (Course Leads) and discussing the transition to OER in future academic years. Psychology and Sociology faculty met and made PSY 150 and SOC 210 OER respectively. ENG 111, ENG 112, and MAT 171 taught exclusively at local high schools are now OER. English faculty are currently in the process of making all ENG 111 sections OER.

Work with Human Resources to hire new faculty in the division.

The Arts & Sciences held several hiring committees throughout the 2021-2022 academic year to replace faculty who retired or resigned. During the Spring and Summer of 2022, 2 biology instructors of 4 were hired, 1 math instructors, 1 PSY and 1 Art instructor for College Now Programs. These faculty will start during the AY 2022-2023. Despite filling the need with these faculty members, the division also saw the retirements or resignations of 1 biology and 1 chemistry faculty as well as several other faculty from other A&S areas that serve to teach students in the A.S. pathway.

Implement the QEP case management advising model for all A&S

The Arts and Science Advising Center was fully staffed with three full-time advisors and one part-time advisor. All students participating in a Transfer Agreement Guarantee (TAG) program are assigned to the Lead Advisor in the center. The Early Childhood Education students are also all assigned to one advisor. The other students within the division are divided equally among the advisors. New students are required to meet with their assigned advisor during their first semester, and they are encouraged to schedule a follow up meeting during their first semester to create a two-year plan. Students are encouraged to complete ACA 122: College Transfer Success, ENG 111: Writing and Inquiry, and their required math course in their first semester.

Strengths

The program remains vital to the offerings at the College, as evidenced by program enrollment data. In addition, courses within the Arts and Sciences (A&S) Division in this program are an integral component of all degrees offered at the College. The Division remains at the forefront for statewide and national improvement initiatives. With the interdependent nature of the Arts and Sciences Division, collaboration with other programs and divisions at the College is a high priority and strong point. To increase fill-rates and provide consistent offerings of courses, A&S has worked hard to streamline semester schedules. Data analysis of previous semesters has been conducted to determine student demand related to course, modality, time of day, and campus location.

Numerous impactful academic resources are offered to aid in student successful completion. The Division remains active in a variety of campus initiatives and activities, including: CoDE (Co-requisite Developmental Education); Gaston College Study Tours; Writing Center; Learning Center, MASC

Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

Center, Transfer Advising Center; Psi Beta; Gamma Beta Phi; Completion by Design; Achieving the Dream; NC College Transfer Program Association; STEM Persistence and Retention via Curricula, Centralization, and Cohorts (SPARC); Inquiry Based Learning methods; and North Carolina Guided Pathways to Success (NC-GPS).

Many A&S faculty received specialized professional development related to conducting high quality online courses in the form of online course audits, Blackboard and Accessibly Training, Quality Matters Courses (QM), and Association of College and University Educators (ACUE).

Areas for Improvement

The Arts and Sciences Division is always looking to enhance and improve the student experience. With continuous improvement in mind, several areas have been identified for further development: This includes developing and training faculty in a new Success Coach Model, developing more targeted professional development related to online teaching and content improvement. Additionally, divisional leaders will focus on providing further academic support to students in science and math courses, Needs

Due to multiple retirements and resignations as well as growth in the College Now programs, the college has multiple open positions. Full-time faculty are needed in the following areas – math, biology, and communications.

Actions for 2022-2023

- Implement strategies to improve online learning and teaching within Arts and Sciences.
- Work with Human resources to hire faculty in needed positions within Arts and Sciences.
- Develop Strategies to retain existing faculty.
- Increase Diversity among Arts & Science Faculty
- Increase Fall to Fall retention and degree completion within Arts and Sciences

<u>Retention and Progression:</u> <ul style="list-style-type: none"> <li>How does program retention compare to the retention goal?</li> <li>What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>		<p>Program Retention A10100</p> <ul style="list-style-type: none"> <li>Fall 2017 to Fall 2018 60%</li> <li>Fall 2018 to Fall 2019 63%</li> <li>Fall 2019 to Fall 2020 48%</li> <li>Fall 2020 to Fall 2021 65%</li> </ul> <p>There was an increase in retention of new students of 17 percentage points from Fall 2020 to Fall 2021.</p> <p>Program Retention P1012C</p> <ul style="list-style-type: none"> <li>Fall 2017 to Fall 2018 41%</li> <li>Fall 2018 to Fall 2019 40%</li> <li>Fall 2019 to Fall 2020 17%</li> <li>Fall 2020 to Fall 2021 52%</li> </ul> <p>There was an increase in retention of new students of 35 percentage points from Fall 2020 to Fall 2021.</p>

	Rating	Explanation
		<p>Both areas experienced an improvement in fall-to-fall retention rates. However, the barrier to student progress for the P1012C involves the uniqueness of the high school population. The student's goal may be to take a course or two and not to progress through the pathway. The P1012C pathway is for 11<sup>th</sup> and 12<sup>th</sup> grade students only. If students enroll in the pathway in the fall of their senior year they would no longer be in this pathway or perhaps at Gaston College during the following fall. This can result in a lower fall to fall retention rate for this population.</p> <p>Divisional administrators track individual course withdraw and success rates and create strategies to improve.</p>
<p><u>Demographics:</u></p> <ul style="list-style-type: none"> <li>• What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>		<p>Demographics A10100 Fall 2021  Percent Female 61%  Percent Male 39%  Percent White 47%  Percent Non-White 53%</p> <p>Demographics P1012C Fall 2021  Percent Female 62%  Percent Male 38%  Percent White 32%  Percent Non-White 68%</p> <p>Fall 2021, there were more female students in both the A10100 and P1012C programs than male, which was consistent with the College demographics. During Fall 2021, more non-white students were served proportionally in the P1012C pathway compared to college wide.</p> <p>We continue to strive to serve broader demographics, including minorities, low-income students, working adults, returning students, and students with low academic achievement. We provide academic holistic support for students, including growth mindset activities in various</p>

	Rating	Explanation
		<p>courses, and individual help in the Writing Center, Math and Science Center, Learning Center, TRIO, and the Transfer Advising Center. Additionally, we are an early adopter of the North Carolina Community College System developmental redesign, which has a goal of accelerating the progression of underprepared students using a corequisite model.</p>
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>		<p>Course sequencing is a high priority within the Division. Collaboration with other divisions and programs occurs each semester to meet the general education needs of all program's college wide. A course matrix of semester offerings is provided to college program leaders.</p> <p>Data analysis of fill rates and course demands of prior semesters is used to create the schedule for each upcoming semester. Course fill rates are closely monitored during registration periods to maximize efficiencies in course offerings.</p>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>		<p>All learning modalities (traditional, web-blended, hybrid, and online) exist in A10100 and P1012C. Classes are offered day, night, and online on multiple campuses and high school locations. Various start dates are provided to accommodate the different populations served as well as to aid in progression to degree completion.</p>
<p><u>Evaluation:</u></p> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>		<p>Course evaluations are conducted each fall and spring semester for every faculty member and every class. Faculty members along with their department chairs have access to course evaluations upon the completion of the semester. Annually, strategies to address student feedback are developed for any areas of concern. Overall, student feedback for the program is positive.</p>

COMPLETION

	Rating	Explanation
<p><u>Student Achievement:</u></p> <ul style="list-style-type: none"> <li>Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>		<p>Current science courses with a high withdraw rate are BIO-110 (17%), BIO-161 (19%), and CHM 130/130A (17%). In math, courses with a high withdraw rate are MAT-152 (21%), MAT-171 (11%), and MAT-172 (23%). COM 231(21%) and 120 (19%) have high withdrawal rates. These courses have a strong writing and oral presentation focus which contributes to the difficulty. ENG 002(25%), ENG 011(23%), ENG 111 (17%), and ENG 112 (16%) traditionally have higher withdrawal rates due primarily to the strong writing requirements in each class. REL 110 (25%), SOC 225 (23%)</p> <p>It is important to address these high withdrawal rates to help improve student success in these courses, whether through student and/or faculty support in these courses and making faculty aware of the high withdrawal rates.</p>
<p><u>Graduation:</u></p> <ul style="list-style-type: none"> <li>How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>What are the barriers to timely student completion and how can they be addressed?</li> </ul>		<p>A10100 Headcount – 1403 Awards – 211 Awards at the Highest Level – 211 Awards to Headcount Ratio – 15%</p> <p>P1012C Headcount – 2113 Awards – 0 Awards at the Highest Level – 0 Awards to Headcount Ratio – 0%</p> <p>Timely student completion has been a major objective for both the Division and the College. Specific initiatives such as Completion by Design, Achieving the Dream, and NC-GPS have provided the framework for improvement strategies. Students in A10100 and P1012C have diversified goals for attending; and completion of a credential is only one preference. Many students plan to transfer before fulfilling degree requirements.</p>

TRANSITION

	Rating	Explanation
<p><u>Job Placement/Transfer:</u></p> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>		<p>Transfer Performance, as provided by the NCCCS performance measures, has been consistent for Gaston College, 2018 - 85%, 2019 - 82%, 2020 – 86%, 2021 – 83%, 2022 – 85%. The numbers indicate that transfer performance is below the average college percentage for the state but above the system baseline level. We have created a Transfer Performance Improvement Team consisting of divisional leadership, faculty, and staff to address improvement of this measure.</p> <p>Additionally, we have a Transfer Advisory Committee with membership from our Arts and Sciences Advising Center, A&amp;S Dean’s Office, Academic Affairs, and representatives from our top transfer institutions. This committee meets in the spring semester.</p> <p>Students have the benefit of one-on-one advising in the Arts and Sciences Advising Center. Transfer advisors assist students in developing educational plans with the goal of seamless transfer to a senior institution based on the published Baccalaureate Degree Plans (BPDs). The advising staff offer both in person and virtual advising meetings.</p>
<p><u>Community:</u></p> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>		<p>Program administrators, faculty, and staff collaborate with internal and external stakeholders regarding program updates and changes. An annual Transfer Advisory Committee is conducted with representatives from the main senior institutions for our transfer students. Transfer Admission Guarantees (TAGs) have been developed with several public and private institutions in our area. Students are guaranteed admission to the selected institution if they maintain a certain GPA and follow the established program guidelines. Several of the private institutions offer specific scholarship</p>

Please include any additional data and/or information related to program-level accreditation.	

## Program Review – P1012T Career and College Promise Pathway – Associate in Arts Teacher Prep

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The mission and purpose of the Associate in Arts Teacher Preparation (AATP) degree at Gaston College is to provide students with a transfer degree that is intended to provide smooth transfer for community college students who wish to continue their education in teacher preparation at constituent institutions of the University of North Carolina (UNC) System and Signatory Institutions of the North Carolina Independent Colleges and Universities (NCICU) institutions. Gaston College AATP graduates must obtain a GPA of at least 2.7 on a 4.0 scale and a grade of C or better in all transfer courses.

As stated in the North Carolina Community College System website:

The AATP is a Uniform Articulation Agreement (UAA) between the North Carolina Community Colleges and 15 UNC System and 24 NCICU institutions. This articulation agreement describes a progression degree plan that includes required teacher education degree plans and pre-major courses that are acceptable to all state funded teacher education program options. Students who follow the progression degree plan will have 60 hours applied to constituent institutions of the UNC System or NCICU Signatory Institutions.

This agreement does not guarantee student acceptance into any bachelor program at UNC System or NCICU institutions. Teacher Preparation students must meet applicable admissions criteria and policies designated by, and earn admission into, the UNC constituent or NCICU Signatory institution of their choice. These criteria and admissions requirements may include (but are not limited to) minimum GPA and Praxis scores and their associated timelines, as published by each university's bachelor's degree in Teacher Education-related programs.

The AATP degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit of college transfer courses. Within the degree program, the students have the opportunity to achieve competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

The Arts and Sciences Divisional Council (dean, associate deans, and department chairs) serves as the primary program review committee for this degree program. This group meets once or twice monthly depending upon current needs and activities. Additionally, an external Transfer Advisory Committee

## Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

meets annually to review curricula, transfer issues, and other topics. This committee is composed of representatives of four-year institutions where Gaston College students may transfer.

Due to the AATP beginning in Fall 2021 there are currently no action items from the 2021-2022 program review cycle to address.

### Strengths

While the program is new to the college, this program is one that was created to further assist the teacher preparation pipeline in our state as there is currently a high need and demand for qualified K – 12 teachers. In addition, courses within the Arts and Sciences (A&S) Division in this program are an integral component of all degrees offered at the college. The Division remains at the forefront for statewide and national improvement initiatives. With the interdependent nature of the Arts and Sciences Division, collaboration with other programs and divisions at the College is a high priority and strong point. To increase fill-rates and provide consistent offerings of courses, A&S has worked hard to streamline semester schedules. Data analysis of previous semesters has been conducted to determine student demand related to course, modality, time of day, and campus location.

Numerous impactful academic resources are offered to aid in student successful completion. The Division remains active in a variety of campus initiatives and activities, including: CoDE (Co-requisite Developmental Education); Gaston College Study Tours; Writing Center; Learning Center, MASC Center, Transfer Advising Center; Psi Beta; Gamma Beta Phi; Completion by Design; Achieving the Dream; NC College Transfer Program Association; STEM Persistence and Retention via Curricula, Centralization, and Cohorts (SPARC); Inquiry Based Learning methods; and North Carolina Guided Pathways to Success (NC-GPS).

### Areas for Improvement

The Arts and Sciences Division is always looking to enhance and improve the student experience. With continuous improvement in mind, several areas have been identified for further development: This includes developing and training faculty in a new Success Coach Model, developing more targeted professional development related to online teaching and content improvement. Additionally, divisional leaders will focus on providing further academic support to students in science and math courses, Needs

Due to multiple retirements and resignations as well as growth in the College Now programs, the college has multiple open positions. Full-time faculty are needed in the following areas – math, biology, and communications.

### Actions for 2022-2023

- Implement strategies to improve online learning and teaching within Arts and Sciences.
- Work with Human resources to hire faculty in needed positions within Arts and Sciences.

Executive Summary

- Strengths: What are we doing well?
  - Areas for Improvement: What can we do to better serve our students?
  - Needs: What do we need from the institution?
  - Actions: What are our next steps? How will we make use of this program review for future improvement?
- Develop Strategies to retain existing faculty.
  - Increase Diversity among Arts & Science Faculty
  - Increase Fall to Fall retention and degree completion within Arts and Sciences

## Program Review – P1042C Career and College Promise Pathway – Associate in Science

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The mission and purpose of the Associate in Science (AS) degree at Gaston College is to provide students with a transfer degree which allows for seamless entry to a senior institution. All public senior institutions in North Carolina and many private are a part of the Comprehensive Articulation Agreement (CAA) and the Independent Comprehensive Articulation Agreement (ICAA). These agreements enable Gaston College graduates in the AS program to transfer with junior status. Gaston College graduates must obtain a grade of “C” or better in each course and an overall GPA of at least 2.0 on a 4.0 scale in order to transfer with a junior status.

The AS degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit of college transfer courses. Within the degree program, the students have the opportunity to achieve competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

The Arts and Sciences Divisional Council (dean, associate deans, and department chairs) serves as the primary program review committee for this degree program. This group meets once or twice monthly depending upon current needs and activities. Additionally, an external Transfer Advisory Committee meets annually to review curricula, transfer issues, and other topics. This committee is composed of representatives of four-year institutions where Gaston College students may transfer.

The following action items from the 2021-2022 program review cycle were addressed.

To meet the needs of Division, the following actions will be implemented during the 2021-2022 academic year:

Increase the number of success coaches in the division:

During the Fall of 2021, the Arts and Sciences had 4 success coaches that were primarily responsible for all of success coaching of all students in A&S. Starting Fall 2021, A&S faculty were provided success coach training in order to conduct a new model of success coaching by the A&S faculty. More than 8 training sessions were provided to all A&S faculty. In the Spring 2022, A&S faculty began serving as a success coach for a case load of students. Each A&S faculty member had a case load of 10-20 students throughout the spring semester. The 4 primary success coaches in A&S remained as success coaches for a reduced load of students while assuming the roles of trainer and guide for faculty as they learned to coach students using this new model. Success coaches provided faculty monthly emails with tips and tricks to support faculty as they worked with their students. In addition, A&S Success Coach Group was created in Google Drive to provide faculty with examples and tips on how to successfully coach students. Faculty success coaches were provided with a survey at the end of the

## Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

Spring Semester to gauge the success of the success coaching pilot. Feedback provided by faculty indicated that while they wanted to serve as success coaches, faculty felt that they could serve their own students as a success coach as opposed to being assigned a caseload. This feedback was used to update the Faculty Success Coaching to a new model that is being implemented in Fall 2022.

Train all faculty and advisors on the new Self-Service program

The Dean's office worked with the Office of Registration and Records to provide training and training materials to all Arts and Science faculty. During the Fall of 2021, a group of select faculty served as a test group to implement Self-Service. This pilot group provided feedback to the Dean's office and the Office of Registration and Records to provide insight into the process on the faculty end. In the Spring 2022, all A&S faculty transitioned into using Self-Service. All faculty and advisors were provided with training and training materials (in NeoGov) as they transitioned into this new system.

Explore more inclusive access and Open Education Resources (OER) in the general education and program courses.

Faculty teaching in the A.S. pathway were provided the option to attend workshops and training during OER week during the Spring 2022 semester. Science faculty groups met to discuss inclusive access and OER options in addition to the recommended training. BIO-275 moved their textbook requirements to inclusive access. Active OER groups in Science and Math are continuing to meet (Course Leads) and discussing the transition to OER in future academic years.

Work with Human Resources to hire new faculty in the division.

The Arts & Sciences held several hiring committees throughout the 2021-2022 academic year to replace faculty who retired or resigned. During the Spring and Summer of 2022, 2 biology instructors of 4 were hired, 1 math instructors, 1 PSY and 1 Art instructor for College Now Programs. These faculty will start during the AY 2022-2023. Despite filling the need with these faculty members, the division also saw the retirements or resignations of 1 biology and 1 chemistry faculty as well as several other faculty from other A&S areas that serve to teach students in the A.S. pathway.

Implement the QEP case management advising model for all A&S.

The college implemented a new advising model for the academic year (2021-2022). Based on our Quality Enhancement Plan (QEP), Gaston College launched the *Path to Potential – A Case Management Advising Model*. This model provided three new advising centers on campus (Arts & Sciences, Career & Technical Ed., and Health and Human Services). A.S. students primarily utilize the Arts & Science advising center under this new model. This advising center for A&S offers new student advising, first semester advising, and ongoing advising for all A&S students. These division specific centers have a greater ability to focus directly on student needs and each advisor follows the students from entry until graduation. During the first semester, advisors met with over 2200 students while still providing new student outreach while following up and creating academic plans for continuing students. Overall assessment of the success of the new Advising Model will be forthcoming after completion of several advising cycles with final analysis occurring in the 5<sup>th</sup> year review of the advising program model.

Work with director of marketing to strategize ways to increase enrollment in SPARC.

During the 2021-2022 academic year, the SPARC team worked with the director of marketing to develop new recruitment materials that included updated college logos and college colors after Gaston College rebranded the last academic year. In addition, new SPARC logos were created with the updated branding material to align with college colors and branding. Outside of Marketing, the SPARC program increased the scholarship award amount provided to students based on updated instructions

## Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

from the National Science Foundation. Students were also offered a hybrid model of activities to open the SPARC program to a wider range of students.

### Strengths

The program remains vital to the offerings at the College, as evidenced by program enrollment data. In addition, courses within the Arts and Sciences (A&S) Division in this program are an integral component of all degrees offered at the College. The Division remains at the forefront for statewide and national improvement initiatives. With the interdependent nature of the Arts and Sciences Division, collaboration with other programs and divisions at the College is a high priority and strong point. To increase fill-rates and provide consistent offerings of courses, A&S has worked hard to streamline semester schedules. Data analysis of previous semesters has been conducted to determine student demand related to course, modality, time of day, and campus location.

Numerous impactful academic resources are offered to aid in student successful completion. The Division remains active in a variety of campus initiatives and activities, including: CoDE (Co-requisite Developmental Education); Gaston College Study Tours; Writing Center; Learning Center, MASC Center, Transfer Advising Center; Psi Beta; Gamma Beta Phi; Completion by Design; Achieving the Dream; NC College Transfer Program Association; STEM Persistence and Retention via Curricula, Centralization, and Cohorts (SPARC); Inquiry Based Learning methods; and North Carolina Guided Pathways to Success (NC-GPS).

The Gaston College SPARC Scholars program is a scholarship initiative funded by the National Science Foundation under Grant Nos. (1355569, 1742128, 1833738) and a private donor to help offset the unmet need of Gaston College students. Scholarships up to 10,000 per student, per year, are offered to select full-time Associate of Science and Associate of Engineering students, who plan to transfer to a four-year university after graduating from Gaston College, major in Science, Technology, Engineering, or Math (STEM), and who show academic merit. Transition scholarships of up to \$7,500 for at least the first year after transfer are also available to participants of the program. The amount awarded is determined based upon federal financial need.

In addition to receiving scholarship funds to offset their unmet financial need, SPARC Scholars are part of a learning community with specially designed course schedules, in which they work closely with other scholars and faculty members. SPARC Scholars also participate in undergraduate research experiences, extracurricular events, and field trips, as well as benefit from a mentoring relationship with a selected faculty member.

Another STEM program, Bridges to Baccalaureate (B2B) is a grant program supported by the National Institutes of Health. This multi-college grant between Gaston College, Rowan Cabarrus Community College, and the University of North Carolina at Charlotte provides paid research opportunities to students in A.S and A.E. programs. This program provides paid undergraduate research experiences with a Gaston College faculty member and allows Gaston College students to participate in research at UNCC to begin forming research relationships with a faculty mentor at UNCC. In addition to paid research experiences, students are provided travel money and support to present at regional and national conferences across the U.S.

### Areas for Improvement

Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The Arts and Sciences Division is always looking to enhance and improve the student experience. With continuous improvement in mind, several areas have been identified for further development. Additionally, divisional leaders will focus on providing further academic support to students in science and math courses, brainstorming ways to increase response rates for course evaluations and graduation surveys, improvement of seamless transfer to senior institutions, and reducing course withdraw rates. A greater need for articulation agreements in the sciences with area 4-year universities that make 2+2 transfer agreements more viable for students pursuing science majors. Increasing availability of courses at Gaston College and creating better 2+2 agreements in science-related majors is an area that needs to be addressed.

Recruiting efforts to enroll students in the SPARC program need improvement. While great strides were made over the last academic year, there are still significant issues getting the word out to talented high school students and their parents. Each year, there are fewer first semester students in the program as students typically find out about the program by word of mouth after starting at the College or because students enter with College Now credits. At the high schools, specific science teachers have been the biggest supporters and recommended the program to students who would benefit from the program; however, the high school counselors do not typically do the same.

Needs

Despite adding new faculty in the division, multiple retirements, and resignations as well as growth in the College Now programs, the college has multiple open positions. Full-time faculty are needed in the following areas – math (1 position), biology (3 positions), communications (1 position), and foreign language (1 position).

Actions for 2022-2023

- Implement strategies to improve online learning and teaching within Arts and Sciences.
- Work with Human resources to hire faculty in needed positions within Arts and Sciences.
- Develop Strategies to retain existing faculty.
- Increase Diversity among Arts & Science Faculty
- Increase Fall to Fall retention and degree completion within Arts and Sciences

<p><u>Enrollment Goals:</u></p> <ul style="list-style-type: none"> <li>• In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>• What strategies have been and/or will be implemented?</li> </ul>		<p>Program hours are comparable with neighboring institutions. The nearest colleges, Cleveland Community College, Central Piedmont Community College, and Catawba Valley Community College all share the same Associate in Science program requirements.</p>

PROGRESS

	Rating	Explanation
<p><u>SLOs and Curriculum Map:</u></p> <ul style="list-style-type: none"> <li>• Attach curriculum map and analysis of program learning outcomes.</li> </ul>		<p>See attached curriculum map and analysis of learning outcomes documents.</p>
<p><u>Retention and Progression:</u></p> <ul style="list-style-type: none"> <li>• How does program retention compare to the retention goal?</li> <li>• What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>		<p>Program Retention A10400</p> <ul style="list-style-type: none"> <li>• Fall 2018 to Fall 2019 61%</li> <li>• Fall 2019 to Fall 2020 53%</li> <li>• Fall 2020 to Fall 2021 38%</li> <li>• Fall 2021 to Fall 2022 54%</li> </ul> <p>There was an increase in retention of new students of 16 percentage points from Fall 2020 to Fall 2021.</p> <p>Program Retention P1042C</p> <ul style="list-style-type: none"> <li>• Fall 2018 to Fall 2019 52%</li> <li>• Fall 2019 to Fall 2020 26%</li> <li>• Fall 2020 to Fall 2021 39%</li> <li>• Fall 2021 to Fall 2022 74%</li> </ul> <p>There was an increase in retention of new students of 35 percentage points from Fall 2020 to Fall 2021.</p> <p>There remains a barrier to student progress for the P1042C which involves the uniqueness of the high school population. The student's goal may be to take a course or two and not to progress through the pathway. The P1042C pathway is for 11<sup>th</sup> and 12<sup>th</sup> grade students only. If students enroll in the pathway in the fall of their senior year they would no longer be in this pathway or perhaps at Gaston College during the following fall. Therefore, based on the population of students enrolled in the pathway we do not expect this retention rate to meet the College goal in the future.</p>
<p><u>Demographics:</u></p> <ul style="list-style-type: none"> <li>• What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>		<p>Demographics A10400 Fall 2021</p> <p>Percent Female 59%</p> <p>Percent Male 41%</p> <p>Percent White 51%</p> <p>Percent Non-White 49%</p> <p>Demographics P1042C Fall 2021</p>

	Rating	Explanation
		<p>Percent Female 59%  Percent Male 41%  Percent White 39%  Percent Non-White 61%</p> <p>Fall 2021, there were more female students in both the A10400 and P1042C programs than male, which was consistent with the College demographics. During Fall 2021, more non-white students were served in the P1042C pathway.</p> <p>We continue to strive to serve broader demographics, including minorities, low-income students, working adults, returning students, and students with low academic achievement, especially in the STEM programs. Traditionally there is gender disparity across STEM fields with more male students pursuing the degrees. We have a high percentage of women faculty members teaching our math and science courses. Additionally, our science courses have been restructured using Inquiry Based Learning, which research suggests helps to eliminate the gender gap in learning. We also have created a Math and Science Center for added academic support in those areas.</p> <p>We provide academic holistic support for students, including growth mindset activities in various courses, and individual help in the Writing Center, Math and Science Center, Learning Center, TRIO, and the Transfer Advising Center. Additionally, we are an early adopter of the North Carolina Community College System developmental redesign, which has a goal of accelerating the progression of underprepared students using a corequisite model.</p>
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> </ul>		<p>Course sequencing is a high priority within the Division. Collaboration with other divisions and programs occurs each semester to meet the general education needs of all program's college</p>

	Rating	Explanation
<ul style="list-style-type: none"> <li>Are courses filled at an appropriate rate?</li> </ul>		<p>wide. A course matrix of semester offerings is provided to college program leaders.</p> <p>Data analysis of fill rates and course demands of prior semesters is used to create the schedule for each upcoming semester. Course fill rates are closely monitored during registration periods to maximize efficiencies in course offerings.</p>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>Are we choosing the best delivery methods and times?</li> <li>Also consider online and other locations, if applicable.</li> </ul>		<p>All learning modalities (traditional, web-blended, hybrid, and online) exist in A10400 and P1042C. Classes are offered day, night, and online on multiple campuses. Various start dates are provided to accommodate the different populations served as well as to aid in progression to degree completion.</p>
<p><u>Evaluation:</u></p> <ul style="list-style-type: none"> <li>What do course evaluations say?</li> <li>What is the process for addressing student feedback?</li> </ul>		<p>Course evaluations are conducted each fall and spring semester for every faculty member and every class. Faculty members along with their department chairs have access to course evaluations upon the completion of the semester. Annually, strategies to address student feedback are developed for any areas of concern. Due to course evaluations being administered online, the response rate remains low. Institutional Effectiveness and the Dean's Council continue to brainstorm ways to increase student response rates. Overall, student feedback for the program is positive.</p>

## COMPLETION

	Rating	Explanation
<p><u>Student Achievement:</u></p> <ul style="list-style-type: none"> <li>Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>		<p>Current science courses with a high withdraw rate are BIO-110 (17%), BIO-161 (19%), and CHM 130/130A (17%). Each of these courses are foundational courses that are not part of the plan for students pursuing an A.S. degree. Most students completing these courses are students in other degree programs with little background in the sciences. In math, courses with a high withdraw rate are MAT-152 (21%), MAT-171</p>

	Rating	Explanation
		(11%), and MAT-172 (23%). It is important to address these high withdrawal rates to help improve student success in these courses, whether through student and/or faculty support in these courses.
<p><u>Graduation:</u></p> <ul style="list-style-type: none"> <li>• How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>		<p>A10400 Headcount – 762 Awards – 130 Awards at the Highest Level – 130 Awards to Headcount Ratio – 17%</p> <p>P1042C Headcount – 1024 Awards – 0 Awards at the Highest Level – 0 Awards to Headcount Ratio – 0%</p> <p>Timely student completion has been a major objective for both the Division and the College. Specific initiatives such as Completion by Design, Achieving the Dream, and NC-GPS have provided the framework for improvement strategies. Students in A10400 and P1042C have diversified goals for attending; and completion of a credential is only one preference. Many students plan to transfer before fulfilling degree requirements.</p>

TRANSITION

	Rating	Explanation
<p><u>Job Placement/Transfer:</u></p> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>		<p>Transfer Performance, as provided by the NCCCS performance measures, has been consistent for Gaston College, 2018 - 85%, 2019 - 82%, 2020 – 86%, 2021 – 83%, 2022 – 85%. The numbers indicate that transfer performance is below the average college percentage for the state but above the system baseline level. We have created a Transfer Performance Improvement Team consisting of divisional leadership, faculty, and staff to address improvement of this measure.</p>

	Rating	Explanation
		<p>Additionally, we have a Transfer Advisory Committee with membership from our Arts and Sciences Advising Center, A&amp;S Dean's Office, Academic Affairs, and representatives from our top transfer institutions. This committee meets in the spring semester.</p> <p>Students have the benefit of one-on-one advising in the Arts and Sciences Advising Center. Transfer advisors assist students in developing educational plans with the goal of seamless transfer to a senior institution based on the published Baccalaureate Degree Plans (BPDs). The advising staff offer both in person and virtual advising meetings.</p>
<p><u>Community:</u></p> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>		<p>Program administrators, faculty, and staff collaborate with internal and external stakeholders regarding program updates and changes. An annual Transfer Advisory Committee is conducted with representatives from the main senior institutions for our transfer students. Transfer Admission Guarantees (TAGs) have been developed with several public and private institutions in our area. Students are guaranteed admission to the selected institution if they maintain a certain GPA and follow the established program guidelines. Several of the private institutions offer specific scholarship opportunities to Gaston College transfer students.</p>

## Program Review – P1042T Career and College Promise Pathway – Associate in Science Teacher Prep

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The mission and purpose of the Associate in Science Teacher Preparation (ASTP) degree at Gaston College is to provide students with a transfer degree that is intended to provide smooth transfer for community college students who wish to continue their education in teacher preparation at constituent institutions of the University of North Carolina (UNC) System and Signatory Institutions of the North Carolina Independent Colleges and Universities (NCICU) institutions. Gaston College AATP graduates must obtain a GPA of at least 2.7 on a 4.0 scale and a grade of C or better in all transfer courses.

As stated in the North Carolina Community College System website:

The AATP is a Uniform Articulation Agreement (UAA) between the North Carolina Community Colleges and 15 UNC System and 24 NCICU institutions. This articulation agreement describes a progression degree plan that includes required teacher education degree plans and pre-major courses that are acceptable to all state funded teacher education program options. Students who follow the progression degree plan will have 60 hours applied to constituent institutions of the UNC System or NCICU Signatory Institutions.

This agreement does not guarantee student acceptance into any bachelor program at UNC System or NCICU institutions. Teacher Preparation students must meet applicable admissions criteria and policies designated by, and earn admission into, the UNC constituent or NCICU Signatory institution of their choice. These criteria and admissions requirements may include (but are not limited to) minimum GPA and Praxis scores and their associated timelines, as published by each university's bachelor's degree in Teacher Education-related programs.

The ASTP degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit for college transfer courses. Within the degree program, the students have the opportunity to achieve competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

The Arts and Sciences Divisional Council (dean, associate deans, and department chairs) serves as the primary program review committee for this degree program. This group meets once or twice monthly depending upon current needs and activities. Additionally, an external Transfer Advisory Committee

## Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

meets annually to review curricula, transfer issues, and other topics. This committee is composed of representatives of four-year institutions where Gaston College students may transfer.

Due to the ASTP beginning in Fall 2021 there are currently no action items from the 2021-2022 program review cycle to address.

### Strengths

While the program is new to the college, this program is one that was created to further assist the teacher preparation pipeline in our state as there is currently a high need and demand for qualified K – 12 teachers. In addition, courses within the Arts and Sciences (A&S) Division in this program are an integral component of all degrees offered at the college. The Division remains at the forefront for statewide and national improvement initiatives. With the interdependent nature of the Arts and Sciences Division, collaboration with other programs and divisions at the College is a high priority and strong point. To increase fill-rates and provide consistent offerings of courses, A&S has worked hard to streamline semester schedules. Data analysis of previous semesters has been conducted to determine student demand related to course, modality, time of day, and campus location.

Numerous impactful academic resources are offered to aid in student successful completion. The Division remains active in a variety of campus initiatives and activities, including: CoDE (Co-requisite Developmental Education); Gaston College Study Tours; Writing Center; Learning Center, MASC Center, Transfer Advising Center; Psi Beta; Gamma Beta Phi; Completion by Design; Achieving the Dream; NC College Transfer Program Association; STEM Persistence and Retention via Curricula, Centralization, and Cohorts (SPARC); Inquiry Based Learning methods; and North Carolina Guided Pathways to Success (NC-GPS).

### Areas for Improvement

The Arts and Sciences Division is always looking to enhance and improve the student experience. With continuous improvement in mind, several areas have been identified for further development: This includes developing and training faculty in a new Success Coach Model, developing more targeted professional development related to online teaching and content improvement. Additionally, divisional leaders will focus on providing further academic support to students in science and math courses, Needs

Due to multiple retirements and resignations as well as growth in the College Now programs, the college has multiple open positions. Full-time faculty are needed in the following areas – math, biology, and communications.

### Actions for 2022-2023

- Implement strategies to improve online learning and teaching within Arts and Sciences.
- Work with Human resources to hire faculty in needed positions within Arts and Sciences.

Executive Summary

- Strengths: What are we doing well?
  - Areas for Improvement: What can we do to better serve our students?
  - Needs: What do we need from the institution?
  - Actions: What are our next steps? How will we make use of this program review for future improvement?
- Develop Strategies to retain existing faculty.
  - Increase Diversity among Arts & Science Faculty
  - Increase Fall to Fall retention and degree completion within Arts and Sciences

<p><u>Uniqueness</u>:</p> <ul style="list-style-type: none"> <li>• What do we do that sets us apart from neighboring institutions?</li> <li>• How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>		<p>Gaston College is participating in the North Carolina Guided Pathways to Success (NC-GPS). As a result of this initiative, we have created streamlined pathways for students in the various degree programs. One of the benefits of NC-GPS is to create greater cost savings and efficiencies for the students.</p> <p>Division faculty/staff are currently developing a more robust marketing plan with the high school</p>

	Rating	Explanation
		<p>population as a target audience. We continue to collaborate with senior institutions regarding the AATP curriculum program course requirements.</p> <p>Additionally, student resources for this program are unique. Beyond our traditional learning center, we also have both a Writing Center and Math and Science Center staffed with professional academic coaches who hold a bachelor's degree or higher.</p>

## ENTRY

	Rating	Explanation
<p><u>Enrollment Goals:</u></p> <ul style="list-style-type: none"> <li>In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>What strategies have been and/or will be implemented?</li> </ul>		<p>Due to the nature of the ASTP curriculum that is part of the UAA as set by the NCCCS and UNC/NCICU Signatory institutions, the program hours are similar to the neighboring institutions offering this program. There are no differences in the courses that can be offered in this program for our students per the UAA.</p> <p>Continued marketing efforts are/will be made to promote the ASTP program for current and prospective students to further increase enrollment in the program.</p>

## PROGRESS

	Rating	Explanation
<p><u>SLOs and Curriculum Map:</u></p> <ul style="list-style-type: none"> <li>Attach curriculum map and analysis of program learning outcomes.</li> </ul>		See attached curriculum map and analysis of learning outcomes documents
<p><u>Retention and Progression:</u></p> <ul style="list-style-type: none"> <li>How does program retention compare to the retention goal?</li> <li>What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>		<p>According to this Gaston Colleges Fact Book for 2021- 2022, the ASTP.</p> <p>Program Retention A1040T:</p> <ul style="list-style-type: none"> <li>Fall 2021 to Spring 2022 = n/a</li> </ul> <p>Program Retention P1042T:</p> <ul style="list-style-type: none"> <li>Fall 2021 to Spring 2022 = n/a</li> </ul>

	Rating	Explanation
		<p>Due to the ASTP program beginning in FA 2021 there is currently not enough information or data to determine any barriers to student progress.</p> <p>However, the barrier to student progress for the P1042T involves the uniqueness of the high school population. The student’s goal may be to take a course or two and not to progress through the pathway. The P1042T pathway is for 11<sup>th</sup> and 12<sup>th</sup> grade students only. If students enroll in the pathway in the fall of their senior year, they would no longer be in this pathway or at Gaston College during the following fall. This can result in a lower fall to fall retention rate for this population.</p> <p>Divisional administrators track individual course withdraw and success rates and create strategies to improve.</p>
<p><u>Demographics:</u></p> <ul style="list-style-type: none"> <li>• What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>		<p>With the start of the ASTP program in Fall 2021, efforts are being made to market to all populations. Gaston College currently provides a CCP ASTP Pathway for students enrolled in the local high schools to begin working towards this program. HS Counselors and Career Coaches located at each of the high schools assist in sharing the information with all students.</p> <p>According to the NCCCS Analytics and Reporting - Student, Program, and Course Enrollment – Dashboards - Curriculum Program Enrollment there is not a report, yet, indicating the ASTP demographics.</p> <p>Gaston College continues to strive to serve broader demographics, including minorities, low-income students, working adults, returning students, and students with low academic achievement. We provide academic holistic support for students, including growth mindset activities in various courses, and individual help</p>

	Rating	Explanation
		<p>in the Writing Center, Math and Science Center, Learning Center, TRIO, and the Transfer Advising Center. Additionally, we are an early adopter of the North Carolina Community College System developmental redesign, which has a goal of accelerating the progression of underprepared students using a corequisite model.</p>
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>		<p>Any pre-requisites are noted in course descriptions to assist students in planning and course selections. Currently, the ASTP program of study is not provided in a semester-by-semester sequence as students have the ability to select courses in a sequence that meets their needs.</p> <p>Course sequencing is a high priority within the Division. Collaboration with other divisions and programs occurs each semester to meet the general education needs of all program's college wide. A course matrix of semester offerings is provided to college program leaders.</p> <p>Data analysis of fill rates and course demands of prior semesters is used to create the schedule for each upcoming semester. Course fill rates are closely monitored during registration periods to maximize efficiencies in course offerings.</p>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>		<p>All learning modalities (traditional, web-blended, hybrid, and online) exist in A1040T and P1042T. Classes are offered day, night, and online on multiple campuses and high school locations. Various start dates are provided to accommodate the different populations served as well as to aid in progression to degree completion.</p>
<p><u>Evaluation:</u></p> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>		<p>Course evaluations are conducted each fall and spring semester for every faculty member and every class. Faculty members along with their department chairs have access to course evaluations upon the completion of the semester. Annually, strategies to address student feedback are developed for any areas of concern. Overall, student feedback for the program is positive.</p>

COMPLETION

	Rating	Explanation
<p><u>Student Achievement:</u></p> <ul style="list-style-type: none"> <li>• Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>		<p>According to the 2021 – 2022 Grade Distribution Reports for Arts &amp; Sciences, current courses with a high withdraw rates are:</p> <ul style="list-style-type: none"> <li>• BIO 110 (17%)</li> <li>• CHM 151 (25%)</li> <li>• MAT 152 (21%)</li> <li>• MAT 171 (11%)</li> <li>• MAT 172 (23%)</li> <li>• COM 231(21%)</li> <li>• COM 120 (19%)</li> <li>• ENG 002 (25%) – supplemental course</li> <li>• ENG 011 (23%) – supplemental course</li> <li>• ENG 111 (17%)</li> <li>• ENG 112 (16%)</li> <li>• REL 110 (25%)</li> <li>• SOC 225 (23%)</li> </ul> <p>The COM courses have a strong writing and oral presentation focus which may contribute to the difficulty.</p> <p>EDU 187 (25%) is a foundational course for the teacher prep programs that is a 3-credit hour course with a 3-hour lab.</p> <p>The ENG courses traditionally have higher withdrawal rates due primarily to the strong writing requirements in each class.</p> <p>It is important to address these high withdrawal rates to help improve student success in these courses, whether through student and/or faculty support in these courses and making faculty aware of the high withdrawal rates.</p>
<p><u>Graduation:</u></p> <ul style="list-style-type: none"> <li>• How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>		<p>According to the Gaston College 2021 – 2022 Fact Book: (n/a data due to program started FA 2021)</p> <p>A1040T</p> <ul style="list-style-type: none"> <li>• Headcount – n/a</li> <li>• Awards – n/a</li> <li>• Awards at the Highest Level – n/a</li> <li>• Awards to Headcount Ratio – n/a</li> </ul>

	Rating	Explanation
		<p>P1042T</p> <ul style="list-style-type: none"> <li>• Headcount – 2</li> <li>• Awards – n/a</li> <li>• Awards at the Highest Level – n/a</li> <li>• Awards to Headcount Ratio – n/a</li> </ul> <p>Timely student completion has been a major objective for both the Division and the College. Specific initiatives such as Completion by Design, Achieving the Dream, and NC-GPS have provided the framework for improvement strategies. Students in A1040T and P1042T have diversified goals for attending; and completion of a credential is only one preference. For some students depending on which teacher education program, they are wanting to pursue at a four-year institution, it is best if the students transfer to that institution prior to completing the ASTP program as completing the program and then transferring could delay their time to bachelor's degree completion.</p>

TRANSITION

	Rating	Explanation
<p><u>Job Placement/Transfer:</u></p> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>		<p>Transfer Performance, as provided by the NCCCS performance measures, has been consistent for Gaston College, 2018 - 85%, 2019 - 82%, 2020 – 86%, 2021 – 83%, 2022 – 85%. The numbers indicate that transfer performance is below the average college percentage for the state but above the system baseline level. We have created a Transfer Performance Improvement Team consisting of divisional leadership, faculty, and staff to address improvement of this measure.</p> <p>Additionally, we have a Transfer Advisory Committee with membership from our Arts and Sciences Advising Center, A&amp;S Dean's Office, Academic Affairs, and representatives from our top transfer institutions. This committee meets in the spring semester.</p> <p>Students have the benefit of one-on-one advising in the Arts and Sciences Advising Center. Transfer advisors assist students in developing</p>

	Rating	Explanation
		<p>educational plans with the goal of seamless transfer to a senior institution based on the published UAA Teacher Prep Pathway and Baccalaureate Degree Plans (BPDs)/Teacher Education Program Admissions. The advising staff offer both in-person and virtual advising meetings.</p>
<p><u>Community:</u></p> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>		<p>Statewide employment projections have indicated that we are in a teacher shortage and will continue to need qualified teacher candidates, therefore this program is a right fit for our community. According to the North Carolina Department of Commerce, currently there is an annual projected growth rate of .5% for those in Education, Training, and Library occupations across our state. Within Gaston College's serving counties of Gaston and Lincoln counties, the local public school system is one of the largest employers (top 5) within each county. NC Commerce Quarterly Census of Employment and Wages for 2021 indicated the Gaston County Schools is the 2<sup>nd</sup> largest employer in Gaston County, and Lincoln County Schools is the 1<sup>st</sup> largest employer in Lincoln County, both systems with over 1,000 employees. There are other charter and private schools in the communities.</p> <p>Program administrators, faculty, and staff collaborate with internal and external stakeholders regarding program updates and changes. An annual Transfer Advisory Committee is conducted with representatives from the main senior institutions for our transfer students. Transfer Admission Guarantees (TAGs) have been developed with several public and private institutions in our area. Students are guaranteed admission to the selected institution if they maintain a certain GPA and follow the established program guidelines. Several of the private institutions offer specific scholarship opportunities to Gaston College transfer students.</p>

## ADDITIONAL INFORMATION

	Comments
Please include any additional data and/or information related to program-level accreditation.	Information regarding the UAA is available using the following links: <ul style="list-style-type: none"><li data-bbox="649 357 1347 430">• <a href="#">UAA in Teacher Preparation between NCCS and UNC System</a></li><li data-bbox="649 430 1372 462">• <a href="#">UAA in Teacher Preparation between NCCS and NCICU</a></li></ul>

Upon successful completion of any associate degree program at Gaston College, students will demonstrate general education competencies in the following areas:

- Competency 1: Information Literacy and Educational Technology
- Competency 2: Communication
- Competency 3: Mathematical and Scientific Reasoning
- Competency 4: Humanities and Fine Arts
- Competency 5: Social and Behavioral Sciences

### **Competency 1: Information Literacy and Educational Technology**

Students will meet this competency through the completion of both objectives 1a and 1b.

- CCSSE Survey Results

Objective 1a: Access, use, and evaluate information in a variety of formats.

- ACA 111
- ACA 122

Objective 1b: Use educational technologies to achieve academic and work-related goals.

- ACA 111
- ACA 122

### **Competency 2: Communication**

Students will meet this competency through assessments in both ENG 111 and ENG 112, ENG 114, COM 120, or COM 231.

Objective: Communicate effectively through writing, reading, and speaking

- COM 120
- COM 231
- ENG 111
- ENG 112
- ENG 114
- CCSSE Survey Results

### **Competency 3: Mathematical and Scientific Reasoning**

Students will meet this competency through the completion of objectives 3a, 3b, or 3c.

Objective 3a: Analyze mathematical problems and quantitative data to make logical decisions.

- MAT 110
- MAT 121
- MAT 143
- MAT 152
- MAT 171

Objective 3b: Demonstrate knowledge of the natural sciences and use this knowledge to analyze problems and make rational decisions.

- BIO 110
- BIO 111
- BIO 161
- BIO 168

- CHM 130
- CHM 131/131A
- CHM 151
- GEL 111
- PHY 110/PHY 110A

Objective 3c: Demonstrate knowledge of the role and function of computers to solve problems.

- CIS 110
- CIS 115

#### **Competency 4: Humanities and Fine Arts**

Students will meet this competency through the completion of objectives 4a, 4b, or 4c.

Objective 4a: Demonstrate knowledge of philosophical beliefs, assumptions, and values.

- PHI 215
- PHI 240

Objective 4b: Demonstrate knowledge of cultural and artistic significance within the fine arts.

- ART 111
- ART 114
- ART 115
- MUS 110
- MUS 112

Objective 4c: Demonstrate knowledge of literary works within a historical and cultural context.

- ENG 231
- ENG 232
- ENG 241
- ENG 242

#### **Competency 5: Social and Behavioral Sciences**

Students will meet this competency through the completion of objectives 5a or 5b.

- CCSSE Survey Results

Objective 5a: Demonstrate knowledge of the historical patterns in political, cultural, and economic life and their impact on human societies.

- ECO 251
- ECO 252
- HIS 111
- HIS 112
- HIS 131
- HIS 132
- POL 120

Objective 5b: Demonstrate knowledge of the reciprocal interactions among self, society, and the environment.

- PSY 150
- SOC 210

- SOC 220

The Gaston College General Education Competencies also represent the program learning outcomes for the following degrees within the Arts and Sciences Division

- Associate in Arts – A10100
- Associate in Science – A10400
- Associate in General Education – A10300
- Associate in General Education Nursing – A1030N
- Associate in Engineering – A10500

#### Overall Assessment of General Education Competencies

The following rubric is used to holistically evaluate general education competencies. The benchmark is an overall score of 3 out of 4 or 75% (a rating of “good”). The rubric scoring range is shown below:

Improvement Needed (1)	Fair (2)	Good (3)	Excellent (4)
0-59% success rate on the course assessment activity	60-74% success rate on the course assessment activity	75-84% success rate on the course assessment activity	85-100% success rate on the course assessment activity

Summary of General Education Competencies	Total Points Achieved
Competency 1: Information Literacy and Educational Technology	16/16 = 100
Objective 1a. Access, use, and evaluate information in a variety of formats.	8/8
Objective 1b. Use educational technologies to achieve academic and work-related goals.	8/8
Competency 2: Communication	13/16 = 81%
Objective: Communicate effectively through writing, reading, and speaking	
Competency 3: Mathematics and Scientific Reasoning	44/60 = 73%
Objective 3a: Analyze mathematical problems and quantitative data to make logical decisions.	10/20
Objective 3b: Demonstrate knowledge of the natural sciences and use this knowledge to analyze problems and make rational decisions.	26/32
Objective 3c: Demonstrate knowledge of the role and function of computers to solve problems.	8/8
Competency 4: Humanities and Fine Arts	24/32 = 75%
Objective 4a: Demonstrate knowledge of philosophical and/or religious beliefs, assumptions, and values.	5/8
Objective 4b: Demonstrate knowledge of cultural and artistic significance within the fine arts.	17/20
Objective 4c: Demonstrate knowledge of literary works within a historical and cultural context.	2/4

Competency 5: Social and Behavioral Sciences	36/40 =90%
Objective 5a: Demonstrate knowledge of the historical patterns in political, cultural, and economic life and their impact on human societies.	26/28
Objective 5b: Demonstrate knowledge of the reciprocal interactions among self, society, and the environment.	10/12
Total Achieved/Total Possible	133/164
Overall Rubric Score	81% (3)

## Program Review – A55140 Cosmetology

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The Gaston College Cosmetology Program's curriculum is a competency-based curriculum that is designed around competencies needed in the cosmetology industry. The curriculum provides a simulated salon environment which enables students to develop hands-on skills under the supervision of licensed, certified cosmetology instructors. Program graduates are prepared to sit for the North Carolina Board of Cosmetic Arts' licensure examinations. Eligible graduates who sit for and successfully pass the State Board licensure exams will be issued a license to conduct cosmetic services in beauty salons and related businesses.

### STRENGTHS

The program is licensed by the North Carolina Board of Cosmetic Art Examiners and is inspected each semester by the Board. For the last three semesters, the program has maintained a 97% rating.

Program graduates are required to pass the state licensure examinations with a grade of 75% or higher before applying to become licensed to practice cosmetology. The pass rate of program graduates sitting for the state licensure exam is above the required score, with an average score of 80% on the theory portion of the exam and 90% on the practical portion.

Graduate satisfaction and job placement are positive and the program attributes its success to knowledgeable faculty and a rigorous curriculum

The total cost for attending the associate degree program, at approximately \$9,500, is much more affordable than cosmetology programs in proprietary schools in the college's service area.

As part of their training, advanced level students participate in a "Student Salon," under the supervision of licensed cosmetology educators. Through participating in the salon students have the opportunity to perfect their cosmetology skills while offering a variety of beauty services to the community at very affordable prices. Due to the excellent quality of the students' work, under the guidance of program faculty, the Student Salon has built a large, long-standing clientele through the years.

### AREAS OF IMPROVEMENT

The program is staffed with two full-time faculty and numerous adjunct faculty members. Because the program relies on employing numerous adjunct faculty, there can be inconsistencies in curriculum

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

teachings which is confusing for students when learning theory and skills. The program needs to ensure more consistency in teaching the curriculum by all faculty employed in the program.

### NEEDS

The program would benefit with one to two additional full-time faculty.

The program would benefit with more storage space for instructional products and additional computers/iPad in the salon clinic area for instructional demonstrations.

Faculty would benefit by attending continuing education/professional development activities to stay abreast of trends in the industry and State Board requirements.

The program would benefit with additional salon equipment such as salon chairs, and wig dryer.

### ACTIONS

The program will initiate monthly faculty meetings to ensure consistency in teaching the curriculum among full-time and adjunct faculty.

The Program Chair will create instructor guidebooks and State Board exam guidebooks to help with maintaining rules and inconsistencies.

Consider course success/withdrawal data.</li> </ul>	O	<ul style="list-style-type: none"> <li>• In 2020 the program retention rate was 25% but increased to 83% in 2021/2022.</li> <li>• Barriers for students in the Cosmetology Program can be: <ul style="list-style-type: none"> <li>○ the cost of the program</li> <li>○ the number of clock hours required by the NC Board of Cosmetic Arts to complete the program and be eligible to sit for the licensure examination.</li> </ul> </li> </ul> <p>Most of the barriers for students tend to be personal/life issues. Students withdraw for reasons such as personal finances, lack of</p>

	Rating	Explanation
		childcare, lack of transportation, and family issues.
<p><u>Demographics:</u></p> <ul style="list-style-type: none"> <li>• What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>		<p>Cosmetology is a remarkably diverse program based on demographic data. Based on the most recent demographic data, the student population is 61.26% White, 17.12% Black/African American, 5.41% Hispanic/Latinx, and 16.22% Unknown. Women make up 100% of students enrolled in the program.</p> <p>The college has many support programs for all its students but those in particular that would support underserved populations financially include college scholarships, financial aid, and TRIO. Strategies for academic support include TRIO/Student Support Services, peer tutoring, Counseling, and the Writing Center.</p>
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>		<ul style="list-style-type: none"> <li>• Courses are sequenced in a way that students build upon previously learned knowledge and skills from the simple to the complex.</li> <li>• The Cosmetology Program enrolls a new cohort of students each Fall and each Spring semester. Due to the nature of COS courses and skills taught, each course can only have a ratio of 20 students/1 instructor.</li> </ul>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>		<p>Courses in the Cosmetology Program are traditionally seated; however, the program tried to integrate theory content online, but wasn't as successful as seated theory classes. The program is required by the NC Board of Cosmetic Arts to operate on a system of counting in-class "clock hours." Students in the program are required by the NC Board of Cosmetic Arts to obtain 1500 clock hours and 480 performances, under the supervision of a certified cosmetology instructor, before completing the program.</p>
<p><u>Evaluation:</u></p> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>		<ul style="list-style-type: none"> <li>• End-of-Course evaluations are overall positive. Some evaluations may give feedback that the cosmetology instructors are too strict or that instructors don't have enough time to provide more individual instruction with each student. The program tries to schedule as many instructors in the clinical setting and in the classrooms as possible.</li> </ul>

	Rating	Explanation
		<ul style="list-style-type: none"> <li>If negative student feedback about an instructor is a legitimate concern, the concern is addressed through a coaching session with the instructor. If the feedback is a suggestion for improvement in the program or a concern about program guidelines, etc. then it is addressed at the level of the associate dean, and the divisional dean if necessary, and the appropriate action warranted is taken.</li> </ul>

COMPLETION

	Rating	Explanation
<p><u>Graduation:</u></p> <ul style="list-style-type: none"> <li>How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>What are the barriers to timely student completion and how can they be addressed?</li> </ul>	A	<ul style="list-style-type: none"> <li>The awards headcount percentage in the Cosmetology Program for the 2021-2022 academic year was 13%. The COVID-19 pandemic may have played a role in the award percentage falling in 2020 and 2021.</li> <li>Barriers for timely student completion in the Cosmetology Program may be due to difficult financial situations, too many personal/family responsibilities outside of school, and/or the student cannot successfully complete the required general ed classes in the program's curriculum. Cosmetology students are required to be in class Monday-Friday, 8am-2:15pm to obtain the required clock hours by the NC Board of Cosmetic Arts to complete the program. The amount of time required to complete the program doesn't allow some students enough time needed outside of class to meet other obligations such as caring for families, or working jobs. A large percentage of students would like seated classes in the evening due to working or caring for families during the day, but not all courses required in the cosmetology curriculum are offered in the evening or all the available seats fill up quickly. Also, some students have been out of school for many years and become overwhelmed with returning to school and the coursework required and get discouraged and quit.</li> </ul>

	Rating	Explanation
<u>Graduate Satisfaction:</u> <ul style="list-style-type: none"> <li>How does the actual satisfaction rate compare to the satisfaction rate goal?</li> </ul>	O	No data for graduate satisfaction

TRANSITION

	Rating	Explanation
<u>Job Placement/Transfer:</u> <ul style="list-style-type: none"> <li>Are our graduates successful? Consider the accompanying goal achievement, NCTower, and JobsEQ data.</li> </ul>	A	<p>Eighty-five percent of the students that graduate from the COS program have jobs in a salon by the time they graduate. Cosmetology has partnered with many salons to hire our graduates such as William &amp; Henry, Smart Styles, Fantastic Sam’s, Sports Clips, Great Clips, Church and Co., and Cosmo Prof.</p>
<u>Community:</u> <ul style="list-style-type: none"> <li>Is the program the right fit for our community?</li> <li>How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>What is the advisory committee feedback?</li> </ul>		<ul style="list-style-type: none"> <li>Yes, the program is the right fit for the community. The Cosmetology Program offers a full-time daytime adult program and a part-time program for high school students, each program has high enrollment.</li> <li>The Cosmetology Program has collaborated with local organizations for the purpose of teaching students the importance, as a professional in their career field, of giving back to the community. Students work with The Woman in Pink, a nonprofit organization, that provides wigs to cancer patients. Students in the Cosmetology Program raised money to give to The Women in Pink organization during Breast Cancer Awareness month to help with the purchase of wigs. Every November the Cosmetology Program partners with Christian Ministries to collect food to help feed families in need over the holidays. Students and faculty in the program partner with Phoenix House, Christian Ministries, and Amy’s House to provide free services to their residents in need. Every year, the Webb Street school has a prom for their special needs students and the cosmetology students provide hair and makeup services to the prom attendees.</li> </ul> <p>Representatives from Pretty in a Minute, Absolute Edge, Salon Centric, and Matrix, manufacturers of beauty salon products,</p>

	Rating	Explanation
		<p>meet with the cosmetology students each year to provide product and salon tool knowledge.</p> <p>Cosmetology will collaborate with the Esthetics and Manicuring programs to provide specials to the public for services provided at a discounted rate.</p> <ul style="list-style-type: none"> <li>• The Advisory Committee for the Cosmetology Program provides valuable feedback in helping to identify the program's strengths - graduates have excellent entry-level skills, a strong work ethic, are dependable, and skilled in client consultations, and the program's weaknesses – graduates are weak in knowing how to build clientele, perform clipper cuts, and finishing the final details of a style.</li> </ul>

ADDITIONAL INFORMATION

	Comments
Please include any additional data and/or information related to program-level accreditation.	The Gaston College Cosmetology Program is inspected each semester by the NC Board of Cosmetic Arts and has maintained a 96-98% rating for the last three semesters.

## Program Review – A5518CCJ Criminal Justice Technology- Forensic Science

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The mission and purpose of the Associate of Applied Science in Criminal Justice Technology-Forensic Science degree at Gaston College is to provide students with a solid education in criminal justice that emphasizes the study of evidence and processing crime scene technologies. This is in addition to receiving instruction in crime identification, investigation, and ethics. There is also a forensic science certificate within the program.

For those students who want to continue their education beyond the program. The A5518C program will transfer in its entirety to Gardner Webb University and Lees McRae College.

#### Strengths

The program employs faculty that are current practitioners in the field of police service or have retired from the police career. This is invaluable for students to learn from instructors that have performed the work that is discussed in class.

#### Areas for Improvement

Program leaders have identified several areas for further development.

- Increased recruitment efforts for the program; this will be in conjunction with the college's marketing department.
- Improvement of seamless transfer to senior institutions
- Increasing the use and quality of online and asynchronous teaching modalities by the instructors.

#### Needs

There is a need for a targeted marketing plan for the program, and for a new college scholarship program for a Criminal Justice student. The Cpl. Katelyn Self Scholarship was established to assist students pursuing a degree in criminal justice.

While facilities are adequate for current enrollment, and most classes are now online, there is a need to teach instructors how to be more proficient and innovative with the online Learning Management System

#### Actions

To meet the needs of the program, the following actions will be implemented during the 2022-23 academic year:

- Collaborate with the marketing department to create specific strategies for marketing the program and scholarship opportunities.

Executive Summary

- Strengths: What are we doing well?
  - Areas for Improvement: What can we do to better serve our students?
  - Needs: What do we need from the institution?
  - Actions: What are our next steps? How will we make use of this program review for future improvement?
- Require Blackboard training for adjuncts and full-time faculty with online classes.
  - Investigate using more online crime scene scenarios

CONNECTION

	Rating	Explanation
<p><u>Viability</u>:</p> <ul style="list-style-type: none"> <li>• How viable is the program? Consider the accompanying FTE data.</li> </ul>	A	<p>FTE Count A5518C Overall</p> <ul style="list-style-type: none"> <li>• 2019-2020 – 32.48</li> <li>• 2020-2021 – 31.22</li> <li>• 2021-2022 – 34.44</li> </ul> <p>The program is viable and necessary for the community.</p> <p>In addition to the FTE income, the future dividends of well-educated police officers for the community justifies the cost for maintaining the program and faculty salaries.</p>
<p><u>Uniqueness</u>:</p> <ul style="list-style-type: none"> <li>• What do we do that sets us apart from neighboring institutions?</li> <li>• How effective are marketing efforts in highlighting this unique and attracting students?</li> </ul>	A	<p>The Criminal Justice faculty/adjuncts are all either current or former police officers or lawyers. The students receive “real-life” experience from instructors who have actively participated in law enforcement.</p> <p>In addition, this degree program can be accomplished entirely online, which makes it attractive to working adults and active-duty police officers.</p>

	Rating	Explanation
		There is currently no data to suggest if marketing efforts in highlighting this program are effective.

## ENTRY

	Rating	Explanation
<u>Enrollment Goals:</u> <ul style="list-style-type: none"> <li>In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>What strategies have been and/or will be implemented?</li> </ul>	A	<p>The CJ Forensic Science program is a 64-credit hour program and in comparison, other area programs are between 68-71 hours.</p> <p>One strategy that will be implemented is that one instructor has primarily taught forensic specific courses. This program should begin to have other instructors teaching the courses.</p>

## PROGRESS

	Rating	Explanation
<u>SLOs and Curriculum Map:</u> <ul style="list-style-type: none"> <li>Attach curriculum map and analysis of program learning outcomes.</li> </ul>	A	
<u>Retention and Progression:</u> <ul style="list-style-type: none"> <li>How does program retention compare to the retention goal?</li> <li>What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	A	<p>For the Criminal Justice Forensic Science Program, the retention rate from Fall 2020 until Fall 2021 was 33%, which is lower than the college average of 45%. From Fall 2021 through Spring 2022 the retention rate was 17%, and for the college the percentage was 68%.</p> <p>The lower retention rates could be from students not being enthusiastic about the course content, to understanding that in this field, there is only one agency that employs civilian crime scene officers, and those jobs are less than 50.</p> <p>In reviewing the withdrawal and success data, no specific CJ Forensic Science class was listed for a high withdrawal rate.</p> <p>Students may be interested in the field of CJ Forensics, but the reality is that in this area there are limited job opportunities. Some barriers can also be student motivation once the reality of the program is seen in contrast to the media version. Some students realize they may not be able to pass a background check.</p> <p>Recent national events have cast an unfavorable light on the police profession.</p>
<u>Demographics:</u>	A	The college has many support services available for students, including the Learning Center,

	Rating	Explanation
<ul style="list-style-type: none"> <li>What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>		Writing Center, Trio, the Writing Center, Learning Center, Library etc.
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>Are courses filled at an appropriate rate?</li> </ul>	O	<p>The program is sequenced clearly, based on guided pathways principles and the advisory committee input.</p> <p>Some courses are also offered in 8-week sessions, allowing students to potentially take additional classes in a semester.</p>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>Are we choosing the best delivery methods and times?</li> <li>Also consider online and other locations, if applicable.</li> </ul>	A	All learning modalities (traditional, web-blended, hybrid, and online) exist in the A5518C program. The program has been moving more to online and hybrid instruction over the last few years in an attempt to meet student demand. Seated classes are those that have some degree of hands-on skills required. Program faculty are researching online simulations/labs for future use, especially considering the recent pandemic.
<p><u>Evaluation:</u></p> <ul style="list-style-type: none"> <li>What do course evaluations say?</li> <li>What is the process for addressing student feedback?</li> </ul>	A	<p>The course evaluations overall, for CJC classes, are positive with “agree” or higher, for over 90% in about every category. The exception was the question that asks about remote office hours provided by faculty would allow students to be successful. On this question about 60% thought they would be more successful with remote office hours.</p> <p>The response rate was good with over 61% responding.</p> <p>Feedback from the students is gathered informally by instructors, and formally by the office of Institutional Effectiveness. This feedback from the students is followed-up with discussion with the instructors on how to improve or change classes.</p>

<ul style="list-style-type: none"> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>		<p>of the program. Most Criminal Justice classes have been 16 weeks in length and now the program offers many classes in an 8-week format.</p> <p>In addition, for the math requirement in the degree, a lower math has been submitted for approval and the addition of a natural science option in the program. This may help those students who do not want to pursue a 4-year degree.</p>
---	--	--

TRANSITION

	Rating	Explanation
<p><u>Job Placement/Transfer:</u></p> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>	O	<p>With the A5518C degree the graduate could locate a job as a police officer, correctional officer or detective or criminal investigator. In reviewing the JobsEQ data, in our service area there is a combined total of over 850 jobs in those fields, with an average wage of 50,000.00 a year.</p>
<p><u>Community:</u></p> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>	O	<p>The A5518C program is a good fit for the community. This program is a criminal justice program for those interested in crime scene processing technology. While few employers in the local area employ civilian crime scene processors, this program is valuable as all police officers investigate crime; this gives the program relevance.</p> <p>The public has benefitted from the program and community partnerships in a couple of different areas including the following:</p> <ul style="list-style-type: none"> <li>• Several instructors are adjunct instructors and actively recruit from the program.</li> <li>• The program has a strong Work Based Learning Program, and as such, students receive valuable information in their career field, as well as the local police departments and employers get to see the students.</li> <li>• This program was the first program to offer a summer camp for high school students.</li> </ul>

	Rating	Explanation
		The advisory committee fully supports this program, though no local police or sheriff departments employ civilian crime scene officers.

## Program Review – A55180 Criminal Justice Technology

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The mission and purpose of the Associate of Applied Science degree in Criminal Justice Technology at Gaston College is to provide students with a solid education in criminal justice that emphasizes the study of criminal justice, criminological theory and law and evidence. This is in addition to receiving instruction in crime identification, investigation, and ethics.

For those students who want to continue their education beyond the program. The A55180 program will transfer in its entirety to Gardner Webb University and Lees McRae College.

#### Strengths

The program employs faculty that are current practitioners in the field of police service or have retired from a police career. This is invaluable for students to learn from instructors that have performed the work that is discussed in class.

#### Areas for Improvement

Program leaders have identified several areas for further development.

- Increased recruitment efforts for the program; this will be in conjunction with the college's marketing department.
- Improvement of seamless transfer to senior institutions
- Increasing the use and quality of online and asynchronous teaching modalities by the instructors.

#### Needs

There is a need for a targeted marketing plan for the program, and for a new college scholarship program for a Criminal Justice student. The Cpl. Katelyn Self Scholarship was established to assist students pursuing a degree in criminal justice.

While facilities are adequate for current enrollment, and most classes are now online, there is a need to teach instructors how to be more proficient and innovative with the online Learning Management System

#### System

#### Actions

To meet the needs of the program, the following actions will be implemented during the 2022-23 academic year:

- Collaborate with marketing department to create specific strategies for marketing the program and scholarship opportunities towards non-degree practitioners currently working in the field and those serving in the armed forces.

## DIPLOMAS & CERTIFICATES

## CONNECTION

	Rating	Explanation
<u>Viability:</u> <ul style="list-style-type: none"> <li>How viable is the program? Consider the accompanying program viability report.</li> </ul>	S	<p>FTE Count A55180 Overall</p> <ul style="list-style-type: none"> <li>2019-2020 – 102.19</li> <li>2020-2021 – 73.59</li> <li>2021-2022 – 69.47</li> </ul> <p>FTE's have decreased by almost half from 2019-2020. Even with this reduction, to the FTE income, the future dividends of well-educated police officers for the community justifies the cost for maintaining the program and faculty salaries.</p>
<u>Uniqueness:</u> <ul style="list-style-type: none"> <li>What do we do that sets us apart from neighboring institutions?</li> <li>How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>	O	<p>The program is taught by either active-duty full-time police officers in the area, or retired police officers. This “real” world view of the criminal justice field is invaluable to the understanding of the subject matter.</p> <p>Since the last program review the Gaston College website has been updated and it is easier to find the Criminal Justice program. As for how effective the marketing efforts are for the program, there is no data that provides this information as to the effectiveness of marketing.</p>

## ENTRY

	Rating	Explanation
<u>Enrollment Goals:</u> <ul style="list-style-type: none"> <li>In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>What strategies have been and/or will be implemented?</li> </ul>	O	<p>In comparison to the surrounding community colleges, the program hours are either equal to or below others. The one main difference that could be in major courses was some colleges require a sociology class.</p> <p>In comparison statewide, Gaston College Criminal Justice program is the in the top 10 colleges for enrollment in this program.</p>

	Rating	Explanation
		<p>More outreach to the high schools will be conducted in Fall 2022 and Spring 2023.</p> <p>The Criminal Justice Program has the potential to be an accelerated program in that many classes are offered in 8-week sessions in comparison to the traditional 16-week class format.</p>

**PROGRESS**

	Rating	Explanation
<p><u>SLOs and Curriculum Map:</u></p> <ul style="list-style-type: none"> <li>• Attach curriculum map and analysis of program learning outcomes.</li> </ul>	S	Attached
<p><u>Retention and Progression:</u></p> <ul style="list-style-type: none"> <li>• How does program retention compare to the retention goal?</li> <li>• What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	S	<p>For the Criminal Justice Program, the retention rate from Fall 2020 until Fall 2021 was 44%, which for the college was 45%. From Fall 2021 through Spring 2022 the retention rate was 57%, and for the college the percentage was 68%.</p> <p>The program’s 2021-2022 withdrawal rate for all CJC courses was 8%, which is below the college average of 11%.</p> <p>The success rate for all CJC classes of C and above grades in 20201-2022 was 81% which would be close to the college average of 80%.</p> <p>In reviewing the Criminal Justice courses that have a higher withdrawal rate, it appears that CJC 112 Criminology and CJC 231 Constitutional Law are the leading courses for withdrawals. Both classes are required for the program. Both classes are academically heavy in theory or case law interpretation.</p>
<p><u>Demographics:</u></p> <ul style="list-style-type: none"> <li>• What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>	S	Students are encouraged to utilize the numerous support services available at Gaston College, including TriO, the Writing Center, Learning Center, Library, etc.
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>	O	The program is sequenced clearly, based on guided pathway principles and the advisory committee input.

	Rating	Explanation
<u>Modality:</u> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>	O	The CJC program now offers more than 8-week classes allowing motivated students an opportunity to finish the program in just a year and a half.
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>	O	<p>The course evaluations overall, for CJC classes, are positive with “agree” or higher, for over 90% in about every category. The exception was the question that asks about remote office hours provided by faculty would allow students to be successful. On this question about 60% thought they would be more successful with remote office hours.</p> <p>The response rate was good with over 61% responding.</p> <p>Feedback from the students is gathered informally by instructors, and formally by the office of Institutional Effectiveness. This feedback from the students is followed up with discussion with the instructors on how to improve or change classes.</p>

COMPLETION

	Rating	Explanation
<u>Graduation:</u> <ul style="list-style-type: none"> <li>• How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>	S	<p>The 2021-2022, awards to headcount percentage of 30%.</p> <p>Some of the barriers that can be identified to timely student completion, was first the length of the program. Most Criminal Justice classes have been 16-weeks in length and now the program offers many classes in an 8-week format.</p> <p>In addition, for the math requirement in the degree, a lower math has been submitted for approval and the addition of a natural science option in the program. This may help those students who do not want to pursue a 4-year degree.</p>

TRANSITION

	Rating	Explanation
<p><u>Job Placement/Transfer:</u></p> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>	S	Most criminal justice careers show a forecasted positive annual growth, including correctional officers, criminal investigators, and police/sheriff patrol officers.
<p><u>Community:</u></p> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>	O	<p>This program is taught by practitioners in the police field or retired practitioners of criminal justice. Most have served as either a formal or informal recruiter in the criminal justice field and bring that information to the students.</p> <p>We have benefitted from having partnerships with local and state law enforcement agencies, so that we can offer Work Based Learning to students. Some of these have culminated in the student receiving a job offer.</p> <p>The advisory committee is made up of Criminal Justice leaders in the area. The discussion for Fall 2021 consisted of the following.</p> <ul style="list-style-type: none"> <li>• Continuing offering a “fast track” for the CJC degree</li> <li>• Streamline the course offerings and course schedules.</li> <li>• Equipment</li> </ul>

## Program Review – A55220 Early Childhood Education

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

### Program Summary

The Early Childhood Education program prepares individuals to promote child development and learning, work with diverse families and children, observe, document, and access to support young children and families, use content knowledge to build meaningful curriculum, and use developmentally effective approaches in collaboration with other early childhood professions.

The Early Childhood Education curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs of children; care and guidance of children; and communication skills with parents and children. Students will foster the cognitive/ language, physical/motor, social/emotional and creative development of young children.

Gaston College offers three degrees in the Early Childhood Education program.

### Early Childhood Education – Career Ready (A55220CR)

Graduates of this degree are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and childcare programs, preschools, public and private schools, recreational centers, Head Start Programs, and school age programs.

### Early Childhood Education – Transfer with Licensure (A55220TL)

Graduates of this degree are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and childcare programs, preschools, public and private schools, recreational centers, Head Start Programs, and school age programs. Successful completion of this degree allows for application for transfer as a junior to an approved Birth to Kindergarten Teacher Licensure program in the North Carolina University System.

### Early Childhood Education – Transfer (A55220T)

Graduates of this degree are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and childcare programs, preschools, public and private schools, recreational centers, Head Start Programs, and school age

## Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

programs. Successful completion of this degree allows for application for transfer as a junior to an approved Birth to Kindergarten or Child and Family Development program in the North Carolina University System.

In addition to the degree pathways, the following credentials are also available in the Early Childhood Education area.

### Certificates

- Early Childhood Administration Certificate (C55850)
- Early Childhood Education - Early Childhood Certificate (C55220C)
- Early Childhood Education - Early Literacy Certificate (C55220F)
- Early Childhood Education - Preschool Certificate (C55220G)
- Early Childhood Education - Special Needs Certificate (C55220E)
- Infant/Toddler Care Certificate (C55290)

The following action items from the 2020-2021 program review cycle were addressed.

To remove barriers and streamline prerequisites for Early Childhood Education classes and requirements for the degree programs, the following curriculum changes were implemented Fall 2021:

- EDU 119: Introduction to Early Childhood Education was removed as a prerequisite from the following courses:
  - EDU 131: Child, Family & Community
  - EDU 151: Creative Activities
  - EDU 153: Health, Safety & Nutrition
  - EDU 280: Language & Literacy Exp
- ACA 122: College Transfer Success was added to the A5520CR degree program.
- EDU 184: Intro Early Childhood Practicum and an elective was removed from both the A55220T and A55220TL degree programs.
- EDU 185: Cognitive and Language Activities was removed from the D55220 diploma program.
- The local Early Childhood Administration Certificate (C55220B) was deleted, and the State Level Early Childhood Administration Certificate (C55850) was added to be consistent with other colleges in the state who offer this certificate.
- Two new transfer degrees and two new College Now pathways in teacher preparation: Associate in Arts in Teacher Preparation, Associate in Science in Teacher Preparation, Pathway leading to Associate in Arts in Teacher Preparation, and the Pathway leading to Associate in Science in Teacher Preparation were added.

Early Childhood Education faculty implemented the following strategies to increase enrollment and retention in the program. These strategies are being used to increase success.

- Referrals for campus resources will be made by each faculty in the program, as needed.
- Inactive students will be contacted via BB reminder, email and/or phone within 3 absences and/or within 3 missed/failed assignments.

## Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

- At least five study sessions opportunities will be offered for students each semester.
- At least three recruitment and/or community events will be held annually.
- ECE faculty will serve on relevant Partnership for Children of Lincoln & Gaston Counties Board and will collaborate closely with local schools, centers, and homes.

The ECE faculty are currently using each of these strategies with their current students.

Another strategy that continues to be utilized is the Own Your Momentum program with various resources and strategies for success for our students. For this program students choose two or more resources/strategies to employ, and submit documentation to us (i.e., Writing Center Post Session Assessment/Proof of Participation notifications, screenshots and notes from Zoom study sessions, etc.) for extra credit in every EDU course by week 12. In addition, we will meet with department chair, publisher(s), etc. about logistics and securing funds for needed Spanish textbooks.

### Strengths

We have continued with Saturday course offerings which are at or almost at capacity. Our instructors conduct numerous voluntary Zoom sessions to support student success. Our instructors also teach remote courses that have mandatory weekly meetings, via Zoom, which are reported to be helpful. In addition, we are teaching an Introduction to Early Childhood course at a high school site, and we have partnered with various school systems to boost enrollment of CCP students in many of our other courses. Lastly, we successfully recruited/hired a tutor to assist our Early Childhood Education students in the Learning Center.

### Areas for Improvement

We are continuing with course development. We have revamped several courses that did not have complete assignment descriptions and/or grading rubrics. We have begun to develop Course Activity Plans that could be used by current or future Instructors. Finally, our retention efforts must continue to include additional strategies for supporting all our learners. Many of our students struggle to balance academic, professional, and personal issues. They require additional clarification on readings, assignments, etc.; they benefit from in person meetings and referrals to campus/community resources. Some of our students are English Language Learners and the resources for such learners are lacking and therefore, their success and retention is as well.

### Needs

We need to purchase additional screening/assessment kits that would be appropriate for school-age children. In addition, some of our existing text kits need to be updated so that we will be able to distribute scoring protocols, per copyright law.

### Actions

- Referrals for campus resources will be made by each faculty in the program, as needed.
- Inactive students will be contacted via BB reminder, email and/or phone within 3 absences and/or within 3 missed/failed assignments.
- At least five study sessions opportunities will be offered for students each semester.

Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?
- At least three recruitment and/or community events will be held annually.
- ECE faculty will serve on the Partnership for Children of Lincoln & Gaston Counties Board and will work closely with local schools, centers, and homes.

DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	Certificates: Infant/Toddler, Administration, Preschool, Early Literacy, Special Needs, Early Childhood
Is there anything you want to note about these diplomas, certificates, or pathways?	No

CONNECTION

	Rating	Explanation
<p><u>Viability</u>:</p> <ul style="list-style-type: none"> <li>• How viable is the program? Consider the accompanying program viability report.</li> </ul>		<p>FTE Count All Early Childhood Education Programs 55220</p> <ul style="list-style-type: none"> <li>• 2017-2018 = 76.51</li> <li>• 2018-2019 = 82.28</li> <li>• 2019-2020 = 74.93</li> <li>• 2020-2021 = 63.033</li> <li>• 2021-2022 = 46.41</li> </ul> <p>There was a decrease in FTE of approximately 20 percentage points from 2020-2021 to 2021-2022.</p> <p>FTE Count Early Childhood Administration Certificate C558850</p> <ul style="list-style-type: none"> <li>• 2021-2022 = 1.09</li> </ul> <p>The 2021-2022 academic year was the first year the certificate was offered under the new code. Therefore, there is no comparison data.</p> <p>FTE Count Infant/Toddler Care Certificate C55290</p> <ul style="list-style-type: none"> <li>• 2017-2018 = 0.7187</li> <li>• 2018-2019 = 0.4062</li> <li>• 2019-2020 = 0.1250</li> <li>• 2020-2021 = 0.81</li> <li>• 2021-2022 = .94</li> </ul>

	Rating	Explanation
		<p>There was an increase in FTE of approximately 0.13 percentage points from 2020-2021 to 2021-2022.</p> <p>Overall, FTE count has decreased in the Early Childhood Education programs. While the program is still self-sustaining, efforts will be implemented to increase marketing and recruitment for the program.</p> <p>The program is currently not self-sustaining. For the 2021-2022 academic year, EDU classes will be offered in the high school setting in Lincoln County. In addition, one of the full-time faculty resigned beginning Fall 2022. The department went from three full-time faculty to two full-time faculty and one adjunct faculty member. These changes will impact program enrollment/FTE and salary expenditures in a positive manner.</p>
<p><u>Uniqueness:</u></p> <ul style="list-style-type: none"> <li>• What do we do that sets us apart from neighboring institutions?</li> <li>• How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>		<p>Most neighboring institutions do not have Saturday course offerings. NAEYC Accreditation Our marketing efforts need to improve to highlight the uniqueness of our offerings. Marketing Efforts include – Gaston Spotlight, Open House, Child Care Center Recruitment efforts, Directors Forum</p>

Ind/Alaskan – 0%</p> <p>Asian – 1%</p> <p>Black – 18%</p> <p>Hispanic – 6%</p> <p>Multiple – 1%</p>

	Rating	Explanation
		<p>Unknown – 16% White – 57%</p> <p>The program participants are predominantly white females.</p> <p>We continue to strive to serve broader demographics, including minorities, low-income students, working adults, returning students, and students with low academic achievement. We provide academic holistic supports for students, including growth mindset activities in various courses, and individual help in the Writing Center, Math and Science Center, Learning Center, TRIO, and the Arts and Sciences Advising Center.</p>
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>		<p>We have put a tremendous amount of effort into the scope and sequence of our general education courses and our core courses. A full-time and part-time sequence has been established to aid students in planning from start to completion. To ensure appropriate course fill rates, course sequencing has been edited to offer each course in the programs one time per academic year. The only exception to this change is for EDU 119, which is offered every semester.</p> <p>EDU 261: Early Childhood Administration I and EDU 262: Early Childhood Administration II have the lowest course fill rates with 13% and 17%, respectively, Fall 2022. These courses are only offered in the fall semester in a first 8-week, second 8-week format. These courses are a part of the Transfer without Licensure degree and the Administration certificate, which both have low enrollment.</p>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>		<p>Our program has listened to our students' input and selected delivery times and methods best for their work schedules.</p> <p>We currently online, synchronous online, and evening web-assist, and Saturday web-assisted courses.</p>
<p><u>Evaluation:</u></p> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>		<p>According to Early Childhood Course Evaluations, the students' evaluations of current Early Childhood instructors and courses are excellent. Sandy Wright, the Program Chair, said that she has no suggestions for improvement at this time.</p>

	Rating	Explanation
		Student feedback is addressed in program meetings and when applicable, modifications or improvements will be made for the upcoming semester.

## COMPLETION

	Rating	Explanation
<u>Student Achievement:</u> <ul style="list-style-type: none"> <li>Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>		<p>Bottom three courses for success rate of a grade of C or higher:</p> <p>EDU 259: Curriculum Planning – 55%</p> <p>EDU 234: Infants, Toddlers, and Twos – 50%</p> <p>EDU 251: Exploration Activities – 29%</p> <p>Top three courses for withdrawal rate:</p> <p>EDU 259: Curriculum Planning – 27%</p> <p>EDU 187: Teaching and Learning for All – 25%</p> <p>EDU 119: Intro to Early Child Education – 25%</p>
<u>Graduation:</u> <ul style="list-style-type: none"> <li>How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>What are the barriers to timely student completion and how can they be addressed?</li> </ul>		<p>Early Childhood Education Associate Degrees</p> <p>Headcount – 183</p> <p>Awards – 36</p> <p>Awards at the Highest Level – 5</p> <p>Awards to Headcount Ratio – 20%</p> <p>Early Childhood Administration Certificate</p> <p>Headcount – 2</p> <p>Awards – 7</p> <p>Awards at the Highest Level – 7</p> <p>Awards to Headcount Ratio – 350%</p> <p>(Several students in the degree program were also awarded the Administration certificate)</p> <p>Most of the barriers to timely student completion are the students' work schedules and life situations. We strive to assist them in finding a schedule that fits their live circumstances. Advising is key to helping the student stay on track to completion, as only certain classes are offered fall, spring, summer. Each student has a dedicated advisor in the Arts and Sciences Advising Center who is intimately involved with the program.</p>

TRANSITION

	Rating	Explanation
<p><u>Job Placement/Transfer:</u></p> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>		<p>There continues to be a need in the community for trained Early Childhood Education professionals both in private and public sectors.</p> <p>According to JobsEQ the 5-Year forecast for jobs in this area represents a 1.8% growth.</p>
<p><u>Community:</u></p> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>		<p>The program is the right fit for our community. We have collaborations with the Partnership for Children of Lincoln and Gaston Counties and NC PreK for Gaston County Schools as well as many private childcare centers that allow us to give our students an opportunity to gain experience hands on in the field/actual classrooms.</p> <p>We are looking to partner with both Lincoln and Gaston County school systems to help train their Birth to Kindergarten assistants to meet the new State requirements and the help create a pipeline of associate degree graduates who will transfer to Belmont Abby College or Gardner-Webb University to continue their teaching degree. The counties are looking to create a pipeline to generate their future workforce of educators.</p> <p>The advisory committee wants the program to continue to grow and make sure our students receive a well-rounded learning experience.</p>

The original standard 6 assessment requires students to identify and address an existing problem at their site and document a substantial change they make, which was almost impossible with COVID issues.	

## Program Review – A35130 Electrical Systems Technology

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

**Strengths:** The Electrical systems Technology curriculum is a strong program that gives students theory and hands-on training to become successful in the electrical industry. Students are exposed to a variety of experiences from instructors with over 50 years of combined experience in the electrical and maintenance fields.

**Areas for Improvement:** It would be an advantage to have more real-world large electrical equipment to prepare graduates for the field.

**Actions:** Explore ways to increase visibility of the program and identify equipment that would improve the program.

### DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	Diploma, 4 certificates: C35130A Photovoltaic, C35130B Residential Wiring, C35130C Industrial Wiring, C35130D Renewable Energy
Is there anything you want to note about these diplomas, certificates, or pathways?	

### CONNECTION

	Rating	Explanation
<u>Viability</u> : <ul style="list-style-type: none"> <li>• How viable is the program? Consider the accompanying program viability report.</li> </ul>	A	36.03 FTE production with 1 FT instructor and 3 PT, net income of \$19,218.37
<u>Uniqueness</u> :	A	Renewable energy programs and instructor experience

	Rating	Explanation
<ul style="list-style-type: none"> <li>• What do we do that sets us apart from neighboring institutions?</li> <li>• How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>		

#### ENTRY

	Rating	Explanation
<u>Enrollment Goals:</u> <ul style="list-style-type: none"> <li>• In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>• What strategies have been and/or will be implemented?</li> </ul>	A	Program hours are set at or within 1 credit hour of state minimums as requested by the administration. Major courses are in line with neighboring colleges except for alternative energy courses.

#### PROGRESS

	Rating	Explanation
<u>SLOs and Curriculum Map:</u> <ul style="list-style-type: none"> <li>• Attach curriculum map and analysis of program learning outcomes.</li> </ul>		
<u>Retention and Progression:</u> <ul style="list-style-type: none"> <li>• How does program retention compare to the retention goal?</li> <li>• What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	A	Retention 67% for Associate, 50% for diploma
<u>Demographics:</u> <ul style="list-style-type: none"> <li>• What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>	A	Electrical industry has been predominantly white male in the past. We have been able to attract non-traditional students and serve them well.
<u>Course Sequence:</u> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>	A	Courses are sequenced to meet needs. Courses normally have a sizable number of students.
<u>Modality:</u> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>	A	We offer courses day and evening; it is difficult to deliver these courses online and COVID proved that.

	Rating	Explanation
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>	A	Evaluations are good. Student feedback is addressed to the instructor and executive level as needed. Instructors in the EST curriculum have good relationships with students and most concerns are addressed in person in a timely manner.

#### COMPLETION

	Rating	Explanation
<u>Student Achievement:</u> <ul style="list-style-type: none"> <li>• Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>	D	Developmental English courses are a barrier for second year students because of scheduling. Most low enrollments are second year or evening classes.
<u>Graduation:</u> <ul style="list-style-type: none"> <li>• How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>	A	The percentage is 55%, I am not sure how that is calculated but I believe reported is lower than actual. Diploma graduates receive 3 awards each and Associate graduates receive 5 awards each. Even if a student does not graduate it is probable that a certificate was earned.

#### TRANSITION

	Rating	Explanation
<u>Job Placement/Transfer:</u> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>	A	Most have jobs waiting or are employed at time of completion.
<u>Community:</u> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>	A	Our community would not be properly served without this program.

## Program Review – A45340 Emergency Medical Science

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

During the 2021-2022 academic year, the Emergency Medical Science (EMS) program was successful in meeting the needs of our students and area service partners who recruit and employ graduates of the EMS Education programs. The program was awarded reaccreditation by CAAHEP/ CoAEMSP in November 2018 for a period of five years. The program continues to successfully produce entry level paramedics that are knowledgeable, and confident. Graduates of the 2021-2022 academic year obtained a 100% pass rate on the NC State Office of EMS Paramedic exam.

Even though enrollment dropped from the previous academic year, coinciding with the drop in the general college enrollment, retention improved 25% over the previous academic year, with only one student withdrawing due to pregnancy and health issues. The departmental plan for recruitment and retention includes participation in community events, partnering with other departments at Gaston College and athletics, and promoting the Apprentice 321 program to both potential students and employers.

The program had a change in leadership due to the illness and death of Program Director Kent Spitler in October 2020. There were other changes to faculty due to the retirement of a lead faculty member. The vacated positions were quickly filled to maintain stability for the program in staff and faculty. In May 2021, the newly appointed Program Director, Jimmy Eubanks, left Gaston College. The oversight of the program was then assigned to an interim director that finished out the academic year. All students were able to successfully graduate from the program and were gainfully employed upon graduation.

The EMS Education program joined the Health and Human Services division in January 2021. The move allowed for increased access to simulation labs, additional classroom space and the use of other assets owned by the HHS division. The move also allowed for the addition of another full-time faculty member.

The next step for the program is partnering with local EMS agencies to determine the best practices for recruitment and retention of students and adjunct faculty. Marketing opportunities will be increased via social media and state databases for education. The Apprentice 321 program will allow for additional recruitment opportunities. The college has plans to offer an increase in professional development opportunities for faculty and adjunct instructors.

## DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	The Emergency Medical Science program culminates into an AAS. The certificate program was previously discontinued due to low enrollment.
Is there anything you want to note about these diplomas, certificates, or pathways?	Program graduates are eligible to sit for the National Registry of EMT exam, and if successful, allows for reciprocity nationwide. The National Registry pathway allows paramedics and EMTs to seek employment in many fields, including fire departments, EMS agencies, hospitals, and plasma clinics. In some instances, the pathway leads to higher education in nursing programs or medical school.

## CONNECTION

	Rating	Explanation
<u>Viability:</u> <ul style="list-style-type: none"> <li>How viable is the program? Consider the accompanying program viability report.</li> </ul>	O	The EMS program produces a healthy revenue that covers program costs via FTE. Operational costs were \$531K, while producing 126.2 FTE for a total of \$ 729,958.26.
<u>Uniqueness:</u> <ul style="list-style-type: none"> <li>What do we do that sets us apart from neighboring institutions?</li> <li>How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>	A	<p>Paramedic graduates are eligible to sit for the National Registry exam, which continues to be the gold standard of testing in the EMS profession. Graduates of Gaston College have a high success rate at the National Registry level.</p> <p>The AAS awarded is unique because some surrounding programs do not offer a degree program, only allowing certificate programs.</p> <p>Long-term leadership, faculty and staff are in place, with all open positions filled with permanent employees.</p> <p>Improvements to simulation labs have been completed and partnerships with the HHS Division have increased. The EMS Education Department has increased its presence on campus through collaboration with other public safety programs, athletics, and community partners.</p>

ENTRY

	Rating	Explanation
<p><u>Enrollment Goals:</u></p> <ul style="list-style-type: none"> <li>• In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>• What strategies have been and/or will be implemented?</li> </ul>	D	<p>The enrollment yield goal for the EMS Education program is 57%. The enrollment yields for 2021-2022 were 50%, falling short of the goal by 7%.</p> <p>EMS recruitment has been poor in recent years due to employer challenges such as low pay and strenuous working conditions. The program will collaborate with employers and local service partners to recruit students while highlighting the benefits of public safety education and employment.</p> <p>The Apprentice 321 program allows for unique partnerships with local service partners that highlight recent pay increases for EMS professionals, more flexible work schedules and career ladders that benefit employees with advanced education.</p> <p>Additional employee incentives and potential job stability have made the EMS Education program more attractive to potential students who may have been considering other educational paths.</p>

PROGRESS

	Rating	Explanation
<p><u>SLOs and Curriculum Map:</u></p> <ul style="list-style-type: none"> <li>• Attach curriculum map and analysis of program learning outcomes.</li> </ul>		
<p><u>Retention and Progression:</u></p> <ul style="list-style-type: none"> <li>• How does program retention compare to the retention goal?</li> <li>• What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	D	<p>The retention goal for the EMS Program is 49% At a 75% retention rate, the EMS Program was successful in meeting that benchmark.</p> <p>EMS recruitment has been poor in recent years due to employer challenges such as low pay and strenuous working conditions. The COVID pandemic affected the EMS community, more so than other professions, due to the increased workload, poor working conditions due to heavy PPE and extended hours, and increased fatigue on employees. Many agencies had decreased opportunities for professional development and advances in career ladders.</p>

	Rating	Explanation
<u>Demographics:</u> <ul style="list-style-type: none"> <li>What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>	D	Demographic information is available for the 2021-2022 academic year. Under Program Code A45340 (HHS) 50% Female 50% Male  100% Caucasian  College has support measures in place for all students. Those targeted to underserved populations include TRIO, MEN of Excellence, Achieve the Dream, and The McLaughlin Group counseling. The Student Emergency Assistance Fund was utilized for three students of the program that suffered economic challenges during the cohort.
<u>Course Sequence:</u> <ul style="list-style-type: none"> <li>Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>Are courses filled at an appropriate rate?</li> </ul>	D	Courses are sequenced so that concepts are presented from basic to advanced. Cognitive and psychomotor skills are evaluated at several intervals throughout the program. The program is reviewed annually by the EMS Advisory council and classes are approved by the curriculum committee.  Courses are filled at an appropriate rate.
<u>Modality:</u> <ul style="list-style-type: none"> <li>Are we choosing the best delivery methods and times?</li> <li>Also consider online and other locations, if applicable.</li> </ul>	D	In person instruction, hybrid and web assisted formats are available for instruction. Full-time faculty have completed the <i>Blackboard and Accessibility Training (BAAT)</i> via professional development to improve ADA compliance in all Blackboard courses. All faculty continue to participate in professional development related to instruction and LMS usage.  There are no satellite locations for this program
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>What do course evaluations say?</li> <li>What is the process for addressing student feedback?</li> </ul>	D	End of course evaluations are positive. Student recommendations and/or concerns are addressed by the course faculty, the director of the program and the Dean of the department. The EMS Advisory Council and the Program Medical Director are aware of all, if any, concerns from the students, EMS agencies or clinical sites.

COMPLETION

	Rating	Explanation
<p><u>Student Achievement:</u></p> <ul style="list-style-type: none"> <li>• Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>	A	<p>Since many students are employed by an EMS agency while attending school, the work/life/school balance is often overwhelming, and the pace is considered intense. The faculty and clinical coordinator work with shift schedulers and agency administrators to compromise and allow students down time, rest, and study sessions.</p> <p>Students are often referred to SOS agencies, such as The McLaughlin Group, Life Skills training, and the Learning Center. Students have been referred to the SEAF and other support programs at Gaston College.</p> <p>Students are encouraged to seek out academic advisors and counselors. The academic counselors for the EMS Education program have been valuable in assisting students to make an education plan that is both realistic and achievable.</p> <p>Instructors use Aviso Early Alerts to track student success and gain alerts for decreases in grades and attendance. Due to the small size of most cohorts, instructors can track attendance and combat personal issues early in ways that benefit the student while keeping their educational plans on track.</p>
<p><u>Graduation:</u></p> <ul style="list-style-type: none"> <li>• How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>	D	<p>In 2021, graduate surveys were not sent to students. With the illness and death of Program Director, Kent Spitler, and the departure of the Program Director, Jimmy Eubanks, the interim staff did not send surveys. Each student was employed 100% in their field upon graduation. While each graduate was gainfully employed at a local agency, employer surveys were also overlooked.</p> <p>Each student that graduated in the 2022 cohort was employed in the industry prior to graduation.</p>

TRANSITION

	Rating	Explanation
<p><u>Job Placement/Transfer:</u></p> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>	O	Job placement was 100% for graduates of the EMS program
<p><u>Community:</u></p> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>	D	<p>The EMS Education program is a good fit for the community because the program graduates confident, entry level paramedics to meet employer needs. Paramedics are in high demand in the region due to a statewide shortage of skilled EMS providers.</p> <p>The program benefits from community partnerships with local hospitals and county emergency medical agencies through providing clinical practicum sites for the program. Professionally qualified adjunct faculty are recruited from clinical sites. Trained, skilled preceptors are available at each clinical site, allowing the students to participate in actual patient care and become proficient in skills.</p> <p>Apprenticeship 321 was introduced and resulted in several Paramedic to AAS Bridge students in the program code A45340B. Each of those graduates were employed by a service partner of Gaston College.</p> <p>Lincoln and Gaston County EMS agencies, as well as Caromont Regional Medical Center are community stakeholders and assist in simulation exercises. Other agencies, such as emergency management and fire associations, assist in field training and seek out graduates to be leaders in their organizations.</p>

ADDITIONAL INFORMATION

	Comments
Please include any additional data and/or information related to program-level accreditation.	<p>The 2020 Annual Report was submitted in May 2021 for CAAHEP Accreditation.</p> <p>The program is up for re-accreditation in 2023 and will write and submit their program self-study in 2022.</p>

## Program Review – C55230 Esthetics

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The Gaston College Esthetics Technology Program's curriculum is a competency-based curriculum that is designed around competencies needed in the esthetics industry. The curriculum provides a simulated salon environment which enables students to develop hands-on skills under the supervision of licensed esthetics instructors. Program graduates are prepared to sit for the North Carolina Board of Cosmetic Arts Licensing Exam for Estheticians. Eligible graduates who sit for and successfully pass the State Board licensure exam will be issued an esthetics license.

### STRENGTHS

The Esthetics Program is licensed by the North Carolina Board of Cosmetic Art Examiners and is inspected each semester by the Board. Gaston College Esthetics Program was the first esthetics program in 20 years to receive a rating of 100% by a state inspector. The program maintained a 100% rating for seven continuous semesters, and currently maintains a 98% rating.

Program graduates are required to pass the state licensure theory and practical examinations with a grade of 75% or higher before applying to become a licensed esthetician. The pass rate of program graduates sitting for the state licensure exam is above the required score, with an average score of 84% on the theory portion of the exam and 100% on the practical.

Interest and enrollment in the esthetics program continues to remain high. The program offers three sections of classes, morning, afternoon, and evening, to accommodate the needs of students. Based on the physical space available to the program, each section can accept 10 students for a total enrollment of 30 students. In the 2021/2022 academic year, the Esthetics Program received 70 applications for the 30 available seats in the program.

As part of their training, esthetic students participate in a "Student Salon" under the supervision of licensed esthetics educators. Through participating in the clinic, students have the opportunity to further develop their skills in the art of skin care while offering a variety of esthetic services to the community at very affordable prices. Due to the excellent quality of the students' work, under the guidance of program faculty, the Student Salon has built a large, long-standing clientele through the years.

### AREAS OF IMPROVEMENT

Update educational materials with a more streamlined curriculum.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

Provide more opportunities for professional development for program faculty.

Training for new hires.

#### NEEDS

The program is in a beautiful space on the lower level of the classroom building on the Kimbrell Campus in Belmont. However, with a maximum enrollment of 30 students, the program has outgrown its space and needs more physical space to better accommodate students and faculty. The Student Salon needs more dressing rooms to serve the number of clientele patronizing the salon. Enrollment growth in the program cannot occur with the limited amount of instructional space currently available to the program.

Qualified Esthetics instructors to meet the need of enrollment growth.

#### ACTIONS

The Esthetics program will move to the Lincoln Campus in Spring 2023 to create more space for the growth of the program.

Research Pivot Point and other educational resources to find the best curriculum for the Esthetics program.

Looking for continuing education opportunities for esthetic faculty.

Advertise more for Esthetics instructors.

### CONNECTION

	Rating	Explanation
<u>Viability</u> : <ul style="list-style-type: none"><li>• How viable is the program? Consider the accompanying FTE data.</li></ul>	O	The enrollment in the Esthetics Program is excellent. The program started in 2013 with one section of only 8 students. In 2021-2022 with three sections, the program received 75 applications in 2021 for 30 available spots and 70

	Rating	Explanation
		applications in 2022. In 2021 the program enrolled 26 students and 30 in 2022. The Esthetics Program is only able to enroll a total of 30 students due to space limitations.
<u>Uniqueness:</u> <ul style="list-style-type: none"> <li>• What do we do that sets us apart from neighboring institutions?</li> <li>• How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>		<ul style="list-style-type: none"> <li>• The Gaston College Esthetics Program provides excellent instruction at an affordable cost for students. The quality of instruction is evident through the graduate pass rates on the state licensure exam. While the building space is limited for the program, the facilities that house the program are beautiful.</li> <li>• Marketing for the program has been successful through tours, career fairs, open houses, word of mouth, and social media.</li> </ul>

## ENTRY

	Rating	Explanation
<u>Enrollment Goals:</u> <ul style="list-style-type: none"> <li>• How successful have we been at achieving the enrollment/yield goal?</li> <li>• What strategies have been and/or will be implemented?</li> </ul>	O	<ul style="list-style-type: none"> <li>• Esthetics has been very successful with enrollment. In 2022 the Esthetics program filled all 30 spots available.</li> <li>• In 2023 the Esthetics program will be moved to a new facility that will give space needed for growth to possibly 45 students.</li> </ul>

## PROGRESS

	Rating	Explanation
<u>SLOs and Curriculum Map:</u> <ul style="list-style-type: none"> <li>• Attach curriculum map and analysis of program learning outcomes.</li> </ul>		
<u>Retention and Progression:</u> <ul style="list-style-type: none"> <li>• How does program retention compare to the retention goal?</li> <li>• What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	O	<ul style="list-style-type: none"> <li>• In 2021/2022 the program retention rate was 100%.</li> <li>• Most of the barriers to students successfully completing the program tend to be personal/life issues. Students withdraw for reasons such as personal finances, lack of childcare, lack of transportation, and family issues.</li> </ul>
<u>Demographics:</u> <ul style="list-style-type: none"> <li>• What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>		The Esthetics Program is a very diverse program based on demographic data. Based on the most recent demographic data, the student population is 41.30% Black/African American, 38.13% White, 4.35% American Indian/Alaska Native, 4.35% Hispanic/Latino, 2.17% Asian, and 8.70% Unknown. Females make up 100% of students enrolled in the program.

	Rating	Explanation
		The college has many support programs for all its students but those that would support underserved populations financially include college scholarships, financial aid, and TRIO. Strategies for academic support include TRIO/Student Support Services, DEI services, Counseling, peer tutoring, and the Writing Center.
<u>Course Sequence:</u> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>		<ul style="list-style-type: none"> <li>• Courses are sequenced in a way that students build upon previously learned knowledge and skills from the simple to the complex.</li> <li>• The Esthetics Program enrolls a new cohort of students each Fall semester. The program offers 3 sections, morning, afternoon, and evening, with 10 available seats available in each section. Eight to ten seats are filled in each section.</li> </ul>
<u>Modality:</u> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>		<ul style="list-style-type: none"> <li>• Courses in the Esthetics Program are traditionally seated courses. Three sections are offered: 8am-12:30pm, 12:30pm-5pm, and 5pm-10:30pm to provide as many student options for enrollment as possible.</li> <li>• Course delivery options are limited as the North Carolina Board of Cosmetic Arts requires that a certain number of hours and skill competencies be performed in class under the supervision of a licensed esthetic instructor.</li> </ul>
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>		<ul style="list-style-type: none"> <li>• End-of-Course evaluations are overall very positive regarding the program and faculty instruction.</li> <li>• If student feedback ever relays a legitimate concern about a faculty member, the concern is addressed through a coaching session with the faculty member. If the feedback is a suggestion for improvement in the program or a concern about program guidelines, etc. then it is addressed at the level of the associate dean, and the divisional dean if necessary, and the appropriate action warranted is taken.</li> </ul>

COMPLETION

	Rating	Explanation
<u>Graduation:</u> <ul style="list-style-type: none"> <li>• How does the actual awards/headcount percentage</li> </ul>	O	<ul style="list-style-type: none"> <li>• In 2021 the awards to headcount ratio was 93% which far exceeds the goal.</li> </ul>

	Rating	Explanation
<p>compare to the awards/headcount goal?</p> <ul style="list-style-type: none"> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>		<ul style="list-style-type: none"> <li>• Barriers for timely student completion in the Esthetics Program may be due to difficult financial situations, too many personal/family responsibilities outside of school and or health.</li> </ul>
<p><u>Graduate Satisfaction:</u></p> <ul style="list-style-type: none"> <li>• How does the actual satisfaction rate compare to the satisfaction rate goal?</li> </ul>		<p>The Graduate Satisfaction Goal for the Esthetics Program is %.</p> <p>The Esthetics Program is a certificate program and does not show data concerning graduate satisfaction for the 2021-2022 academic year.</p>

TRANSITION

	Rating	Explanation
<p><u>Job Placement/Transfer:</u></p> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying goal achievement, NC Tower, and JobsEQ data.</li> </ul>		<p>While no formal data is available, graduates of the Esthetics Program are very successful in finding employment. Many of the graduates are small business owners and have opened their own spas. The program partners with several salons/spas in surrounding counties to help with job placement. Also, some graduates are employed as estheticians in the medical field. Overall, graduates of the program have not had difficulty in finding employment.</p>
<p><u>Community:</u></p> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>		<ul style="list-style-type: none"> <li>• Yes, the program is the right fit for the community. By offering three different enrollment sections, morning, afternoon, and evening, the scheduling needs of adult and high school students are met.</li> <li>• The Esthetics Program has collaborated with local organizations for the purpose of teaching students the importance, as a professional in their career field, of giving back to the community. Every year, the Webb Street school has a prom for their special needs students and the esthetic students provide skin and makeup services to the prom attendees. Students work with Christian Ministries to collect food to help feed families in need over the holidays.</li> <li>• The Esthetics program will be collaborating with the Cosmetology and Manicuring programs to provide specials to the public for services provided at a discounted rate.</li> <li>• The Advisory Committee for the Esthetic Program provides valuable feedback in helping to identify the program's strengths, weaknesses, and suggestions for program improvement. Feedback from the Advisory</li> </ul>

	Rating	Explanation
		Committee guided the program in streamlining its application process using a points system. The committee also states that the Gaston College Esthetics Program fosters a strong work ethic in its students and program graduates are well-prepared for entry level positions.

## Program Review – A55240 Fire Protection Technology

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The Fire Protection Technology degree is committed to preparing students to have a clear picture of fire service operations and prepare them for advancement to supervisory roles within their organizations.

### Strengths

The program was awarded re-accreditation from IFSAC in October 2019 for an additional five years. The addition of a completely online offering has helped students with varying work schedules have an opportunity to complete classes. Due to COVID we moved to a fully online program and saw an increase in student enrollment.

### Areas for Improvement

Program leaders have identified several areas for further development. Program leaders, Faculty and staff will focus on recruitment efforts for the program, finding additional ways to reach prospective students and increase enrollment.

### Needs

There is a need for additional marketing, focusing on High School Students as well as those in the workforce seeking promotion in the field of Fire Protection Technology

### Actions

To meet the needs of the program, the following actions will be implemented during the 2023-2024 academic year:

- Collaborate with marketing department to create specific strategies for the program
- Staff and Faculty will continue to attend events and meetings that will allow for marketing and promotion of the program, including local, regional, and state fire and rescue association meetings.

### DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	CCP Certificate

	Comments
Is there anything you want to note about these diplomas, certificates, or pathways?	

### CONNECTION

	Rating	Explanation
<u>Viability:</u> <ul style="list-style-type: none"> <li>How viable is the program? Consider the accompanying program viability report.</li> </ul>	D	The program meets the needs of the local fire service community and is expanding due to fully online offerings and the establishment of the Public Safety Administration degree.
<u>Uniqueness:</u> <ul style="list-style-type: none"> <li>What do we do that sets us apart from neighboring institutions?</li> <li>How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>	D	<p>With the establishment of the Public Safety Administration degree, we can offer students two degrees by only taking three additional PSA classes.</p> <p>The marketing of the program has increased from an institutional perspective. Additionally, marketing in trade journals and targeted marketing to High School students is needed. Departmental efforts have continued by attending local, regional, and state meetings promoting the program. The program has a strong social media presence.</p>

### ENTRY

	Rating	Explanation
<u>Enrollment Goals:</u> <ul style="list-style-type: none"> <li>In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>What strategies have been and/or will be implemented?</li> </ul>	D	Locally we have seen a steady uptick in enrollment over the last two semesters and is expected to continue with the switch to fully online and the connection with the Public Safety Administration. With no specific program entry point, tracking statistics is difficult.

### PROGRESS

	Rating	Explanation
<u>SLOs and Curriculum Map:</u> <ul style="list-style-type: none"> <li>Attach curriculum map and analysis of program learning outcomes.</li> </ul>		
<u>Retention and Progression:</u> <ul style="list-style-type: none"> <li>How does program retention compare to the retention goal?</li> <li>What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	D	Students who begin typically completing the program. Students do not complete in a "normal" timeframe. Work schedules tend to conflict with completing general education courses. Our program allows students to enroll at any point and courses are offered on a two-

	Rating	Explanation
		year cycle. We do not begin a new two year cycle every academic year. This makes tracking retention and award goals very difficult
<u>Demographics:</u> <ul style="list-style-type: none"> <li>What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>	D	Marketing efforts are carried out in local High Schools, Fire Stations as well regional and state meetings. We have worked with Hunter Huss and the Fire Tech program to encourage their students to continue in the field.
<u>Course Sequence:</u> <ul style="list-style-type: none"> <li>Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>Are courses filled at an appropriate rate?</li> </ul>	D	<p>Students have sufficient opportunities to complete their degree.</p> <p>We have moved classes that have lower fill rates to continuing education. An example is FIP 230, Chemistry of Haz-Mat. Additionally, students can receive credit for prior learning for FIP 120, FIP 124, and FIP140.</p>
<u>Modality:</u> <ul style="list-style-type: none"> <li>Are we choosing the best delivery methods and times?</li> <li>Also consider online and other locations, if applicable.</li> </ul>	D	The program can be completely in a fully on-line format. Students do have the option to take general education courses in a seated format if desired,
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>What do course evaluations say?</li> <li>What is the process for addressing student feedback?</li> </ul>	D	Course evaluations are positive. Concerns are addressed to faculty and staff as needed. Additionally, the advisory committee provides feedback, as necessary.

## COMPLETION

	Rating	Explanation
<u>Student Achievement:</u> <ul style="list-style-type: none"> <li>Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>	D	Most courses would be considered low enrollment by college standards. Withdrawal rates are low for the program.
<u>Graduation:</u> <ul style="list-style-type: none"> <li>How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>What are the barriers to timely student completion and how can they be addressed?</li> </ul>	D	Work schedules tend to interfere with completion of general education requirements

TRANSITION

	Rating	Explanation
<u>Job Placement/Transfer:</u> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>	D	The program has a five-year (2018-2022) average of 87% of our graduates employed in a Public Safety field or enrolling in four-year universities
<u>Community:</u> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>		<p>Local employers require this degree to be eligible for promotional exams.</p> <p>Collaborating with our employers and advisory committee we continue to offer a program that is meeting their needs.</p>

### Student Learning Outcomes – Fire Protection Technology

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
1	Demonstrate fire prevention practices, per NFPA 1021 guidelines	Students are required to create various types of presentations in FIP 124. The student is required to research fire prevention needs in their area, develop a fire safety program, and present their findings in a graded paper.	On average the student earns at least a 70% score of the available points on their final exam as well as their graded final research project.	<p>2021-2022 Academic year 75% of students received a grade of 70% or higher.</p> <p>2020-2021 Academic year 100% of students received a grade of 70% or higher.</p>	Majority of students are performing above the success criteria	Work to ensure a higher percentage of on-line students achieve the stated goal.	A 25% reduction from 2020-2021	Use Gaston College services to encourage and ensure on-line students are successful in their class attempt.
2	Demonstrate written and oral communication skills, applicable to the fire service, incorporating NFPA 1041 and 1021	Students are required to examine various case studies in FIP 152. The case studies promote the student's ability to discuss laws, codes, and ordinances as they relate to fire protection.	On average the student earns at least a 70% score of the available points on their final exam as well as their graded final project.	<p>2021-2022 Academic year 95% of students received a grade of 70% or higher.</p> <p>2020-2021 Academic year 82% of students received a grade of 70% or higher.</p>	Majority of students are performing above the success criteria	Work to ensure a higher percentage of on-line students achieve the stated goal.	A 13% increase from 2020-2021	Use Gaston College services to encourage and ensure on-line students are successful in their class attempt.

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
3	Demonstrate knowledge of the financial processes associated with the fire service	Students are required to examine different types of budgets and grants in FIP 228. The budget analysis allows the student the ability to comprehend the importance of finance as it applies to the operations of a fire department.	On average the student earns at least a 70% score of the available points on their final exam as well as their graded final project of a fiscal capital and operational budget.	<p>2021-2022 Academic year 89% of students received a grade of 70% or higher.</p> <p>2020-2021 Academic year 100% of students received a grade of 70% or higher.</p>	Students are performing above the success criteria	Continue to stay abreast of industry trends	An 11% decrease from 2020-2021	Explore ways to better communicate and relate material related to outcomes through assignments and class materials
4	Demonstrate and apply fire-ground operations management, to include applicable NFPA standards and guidelines	Students are presented scenarios and provided strategies and tactics associated with fire ground operations during FIP 220, FIP 221 and in FIP 276. ## Program Review – A10300 Associate in General Education Degree

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The Associate in General Education (AGE) curriculum is designed for the academic enrichment of students who wish to broaden their education, with emphasis on personal interest, growth, and development. Course work includes study in the areas of humanities and fine arts, social and behavioral sciences, natural sciences and mathematics, and English composition. Opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers will be provided. Through these skills, students will have a sound base for lifelong learning. Graduates are prepared for advancements within their field of interest and become better qualified for a wide range of employment opportunities. This degree is not intended to prepare students for transfer to senior institutions; however, individual courses within the degree program may transfer.

The AGE curriculum program includes 15 semester hours of credit from general education curriculum courses, including six hours in communications, three hours in humanities/fine arts, three hours in social/behavioral sciences, and three hours in natural sciences or mathematics. An additional 49-50 semester credit hours are required from courses at the 110-199 or 210-299 level.

The Arts and Sciences Divisional Council (dean, associate deans, and department chairs) serves as the primary program review committee for this degree program. This group meets once or twice monthly depending upon current needs and activities.

The following action items from the 2021-2022 program review cycle were addressed.

Increase the number of successful coaches in the division.

All A&S faculty received success coach training during the Fall 2021 term. During the Spring 2022 term, the A&S students were distributed among A&S faculty members to serve as their success coach. Faculty were surveyed about their experience at the end of the semester. Based on the information collected, changes were made to the success coach model. Beginning Fall 2022, faculty will serve as success coaches for the students in their classes for all course related issues (attendance, low grades, etc.). Two staff members will be assigned to A&S students to serve as a success coach for non-academic issues.

Train all faculty and advisor on the new Self-Service program.

## Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

Faculty within the division were trained to use the Self-Service program. The dean and associate deans used the program in the fall semester. During the spring semester, all faculty within the Science and Math, Physics, and Academic Studies department were trained and used the Self-Service program. All faculty teaching during the summer semester were trained and used the Self-Service program during the summer term. The remaining faculty were trained prior to the start of the Fall 2022 term.

Explore more inclusive access and Open Education Resources (OER) in the general education and program courses.

Faculty teaching in the A.G.E. pathway was provided the option to attend workshops and training during OER week during the Spring 2022 semester. Arts and Science faculty groups met to discuss inclusive access and OER options in addition to the recommended training. Some course release was available to instructors moving to OER. BIO-275 moved their textbook requirements to inclusive access. Active OER groups in Science and Math are continuing to meet (Course Leads) and discussing the transition to OER in future academic years. Psychology and Sociology faculty met and made PSY 150 and SOC 210 OER respectively. ENG 111, ENG 112, and MAT 171 taught exclusively at local high schools are now OER. English faculty are currently in the process of making all ENG 111 sections OER.

Work with Human Resources to hire new faculty in the division.

The Arts & Sciences held several hiring committees throughout the 2021-2022 academic year to replace faculty who retired or resigned. During the Spring and Summer of 2022, 2 biology instructors of 4 were hired, 1 math instructors, 1 PSY and 1 Art instructor for College Now Programs. These faculty will start during the AY 2022-2023. Despite filling the need with these faculty members, the division also saw the retirements or resignations of 1 biology and 1 chemistry faculty as well as several other faculties from other A&S areas that serve to teach students in the A.G.E. pathway.

Implement the QEP case management advising model for all A&S

The Arts and Science Advising Center was fully staffed with three full-time advisors and one part-time advisor. All the students participating in a Transfer Agreement Guarantee (TAG) program are assigned to the Lead Advisor in the center. The Early Childhood Education students are also all assigned to one advisor. The other students within the division are divided equally among the advisors. New students are required to meet with their assigned advisor during their first semester and they are encouraged to schedule a follow up meeting during their first semester to create a two year plan. Students are encouraged to complete ACA 122: College Transfer Success, ENG 111: Writing and Inquiry, and their required math course in their first semester.

**Strengths**

The program remains vital to the offerings at the College, as evidenced by program enrollment data. In addition, courses within the Arts and Sciences (A&S) Division in this program are an integral component of all degrees offered at the College. The Division remains at the forefront for statewide and national improvement initiatives. With the interdependent nature of the Arts and Sciences Division, collaboration with other programs and divisions at the College is a high priority and strong point. To increase fill-rates and provide consistent offerings of courses, A&S has worked hard to streamline semester schedules. Data analysis of previous semesters has been conducted to determine student demand related to course, modality, time of day, and campus location.

Numerous impactful academic resources are offered to aid in student successful completion. The Division remains active in a variety of campus initiatives and activities, including: CoDE (Co-requisite

Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

Developmental Education; Gaston College Study Tours; Writing Center; Learning Center, MASC Center, Transfer Advising Center; Psi Beta; Gamma Beta Phi; Completion by Design; Achieving the Dream; NC College Transfer Program Association; STEM Persistence and Retention via Curricula, Centralization, and Cohorts (SPARC); Inquiry Based Learning methods; and North Carolina Guided Pathways to Success (NC-GPS).

Many A&S faculty received specialized professional development related to conducting high quality online courses in the form of online course audits, Blackboard and Accessibly Training, Quality Matters Courses (QM), and Association of College and University Educators (ACUE).

Areas for Improvement

The Arts and Sciences Division is always looking to enhance and improve the student experience. With continuous improvement in mind, several areas have been identified for further development: This includes developing and training faculty in a new Success Coach Model, developing more targeted professional development related to online teaching and content improvement. Additionally, divisional leaders will focus on providing further academic support to students in science and math courses, Needs

Due to multiple retirements and resignations as well as growth in the College Now programs, the college has multiple open positions. Full-time faculty are needed in the following areas – math, biology, and communications.

Actions for 2022-2023

- Implement strategies to improve online learning and teaching within Arts and Sciences.
- Work with Human resources to hire faculty in needed positions within Arts and Sciences.
- Develop Strategies to retain existing faculty.
- Increase Diversity among Arts & Science Faculty
- Increase Fall to Fall retention and degree completion within Arts and Sciences

During Fall 2021, more non-white students were served proportionally in the A10300 pathway.</p> <p>We continue to strive to serve broader demographics, including minorities, low-income students, working adults, returning students, and students with low academic achievement. We provide academic holistic support for students, including growth mindset activities in various courses, and individual help in the Writing Center, Math and Science Center, Learning Center, TRIO, and the Transfer Advising Center. Additionally, we are an early adopter of</p>

	Rating	Explanation
		the North Carolina Community College System developmental redesign, which has a goal of accelerating the progression of underprepared students using a corequisite model.
<u>Course Sequence:</u> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>		<p>Course sequencing is a high priority within the Division. Collaboration with other divisions and programs occurs each semester to meet the general education needs of all program's college wide. A course matrix of semester offerings is provided to college program leaders.</p> <p>Data analysis of fill rates and course demands of prior semesters is used to create the schedule for each upcoming semester. Course fill rates are closely monitored during registration periods to maximize efficiencies in course offerings.</p>
<u>Modality:</u> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>		<p>All learning modalities (traditional, web-blended, hybrid, and online) exist in A10300. Classes are offered day, night, and online on multiple campuses and high school locations. Various start dates are provided to accommodate the different populations served as well as to aid in progression to degree completion.</p>
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>		<p>Course evaluations are conducted each fall and spring semester for every faculty member and every class. Faculty members along with their department chairs have access to course evaluations upon the completion of the semester. Annually, strategies to address student feedback are developed for any areas of concern. Overall, student feedback for the program is positive.</p>

## COMPLETION

	Rating	Explanation
<u>Student Achievement:</u> <ul style="list-style-type: none"> <li>• Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>		<p>Current science courses with a high withdraw rate are BIO-110 (17%). In math, courses with a high withdraw rate are MAT-152 (21%), MAT-171 (11%).</p> <p>COM 231(21%) and 120 (19%) have high withdrawal rates. These courses have a strong writing and oral presentation focus which contributes to the difficulty.</p> <p>ENG 002 (25%), ENG 011(23%), ENG 111 (17%), and ENG 112 (16%) traditionally have higher withdrawal rates due primarily to the strong writing requirements in each class.</p>

	Rating	Explanation
		REL 110 (25%), SOC 225 (23%) It is important to address these high withdrawal rates to help improve student success in these courses, whether through student and/or faculty support in these courses and making faculty aware of the high withdrawal rates.
<u>Graduation:</u> <ul style="list-style-type: none"> <li>How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>What are the barriers to timely student completion and how can they be addressed?</li> </ul>		A10300 Headcount – 374 Awards – 32 Awards at the Highest Level – 32 Awards to Headcount Percentage –9 % Timely student completion has been a major objective for both the Division and the College. Specific initiatives such as Completion by Design, Achieving the Dream, and NC-GPS have provided the framework for improvement strategies. Students in A10300 have diversified goals for attending; and completion of a credential is only one preference. Many students plan to transfer before fulfilling degree requirements.

TRANSITION

	Rating	Explanation
<u>Job Placement/Transfer:</u> <ul style="list-style-type: none"> <li>Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>		Transfer Performance, as provided by the NCCCS performance measures, has been consistent for Gaston College, 2018 - 85%, 2019 - 82%, 2020 – 86%, 2021 – 83%, 2022 – 85%. The numbers indicate that transfer performance is below the average college percentage for the state but above the system baseline level. We have created a Transfer Performance Improvement Team consisting of divisional leadership, faculty, and staff to address improvement of this measure.  Additionally, we have a Transfer Advisory Committee with membership from our Arts and Sciences Advising Center, A&S Dean’s Office, Academic Affairs, and representatives from our top transfer institutions. This committee meets in the spring semester.  Students have the benefit of one-on-one advising in the Arts and Sciences Advising Center. Transfer advisors assist students in developing educational plans with the goal of seamless transfer to a senior institution based on the

	Rating	Explanation
		published Baccalaureate Degree Plans (BPDs). The advising staff offer both in person and virtual advising meetings.
<u>Community:</u> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>		Program administrators, faculty, and staff collaborate with internal and external stakeholders regarding program updates and changes. An annual Transfer Advisory Committee is conducted with representatives from the main senior institutions for our transfer students. Transfer Admission Guarantees (TAGs) have been developed with several public and private institutions in our area. Students are guaranteed admission to the selected institution if they maintain a certain GPA and follow the established program guidelines. Several of the private institutions offer specific scholarship opportunities to Gaston College transfer students.

## Program Review – A45630 Health and Fitness Science

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

Strengths: We continue to provide an excellent curriculum resulting in three consecutive years of 100% first-time pass rates on the ACE Personal Training Certification Exam (CPT) and 6 consecutive years of 100% pass rates by the second attempt. Our first-year cohort sizes have both been 12 these past two academic years. The move to open enrollment helped bump these up from 7 in 2019. We have seen an increase in enrollment in the Health and Fitness Science track at the CaroMont Health Academy, 2 in 2021 and 6 in 2022. Hopefully, these students will join our AAS program upon graduation and help bolster our numbers for future academic years. Our newly updated fitness center has received excellent feedback, and the sports teams are utilizing it well for their means. Graduates (in addition to earning the HFS AAS Degree) earn the following:

- ACE Personal Trainer Certification
- Having the first attempt paid for with lab fees has been a great marketing point and tremendously helps the students.
- Gaston College Health & Wellness Coach Certificate
- Gaston College Group Exercise Instructor Certificate

Areas for Improvement: Our goal is to see our first-year cohort size increase to our cap of 20 consistently. This would ensure the program remains viable and would be the maximum capacity our department can handle with two full-time faculty.

Needs: With the move to open enrollment and the potential for larger cohort sizes, we will need a third full-time faculty member in the Health and Fitness Science Department to help with the increased load if we do indeed begin to meet the 20 incoming cohort size. Until then, we will rely upon adjunct faculty to help cover courses the two full-time faculty are unable to.

Actions: We are preparing to establish an articulation agreement with Wingate University so that our students have an avenue to enter the closest university with a Doctorate in Physical Therapy program, which many are interested in. We also continue to look for new ways to market the program to the community.

Diplomas, Certificates & Pathways

	Comments
List any diplomas, certificates, or pathways offered by this program.	AAS – Health and Fitness Science; Health and Wellness Coach Certificate; Group Exercise Instructor Certificate; Health and Fitness Science certificate; CaroMont Health Academy pathway in Health and Fitness Science.
Is there anything you want to note about these diplomas, certificates, or pathways?	We have several articulation agreements with NC Universities, allowing our AAS students pathways to receive their BS in Exercise Science and related degrees. The Health and Wellness Coach Certificate continues to see growing community interest. The pathway at the CaroMont Health Academy will help increase enrollment in our AAS program with students interested in continuing their education.

CONNECTION

	Rating	Explanation
<p><u>Viability:</u></p> <ul style="list-style-type: none"> <li>How viable is the program? Consider the accompanying program viability report.</li> </ul>	O	<p>Our incoming cohort size for the 2021 and 2022 Fall semesters has been 12. I believe we will continue to see increases in enrollment going forward with COVID being under control, decreasing student hesitancy we have seen in prior years, and more student-athletes entering the college.</p> <p>Our PED and HEA courses continue to see significant numbers in FTE. For the 2020-2021 academic year, 268 enrolled in 13 HEA courses, and 230 enrolled in 16 PED courses. For the 2021-2022 academic year, we had 243 enrolled in 13 HEA courses and 308 enrolled in 19 PED courses. The increase in enrollment and courses for PED was due to running several courses for the two early colleges and the addition of PED 121: Walk, Jog, Run, which has seen increasing student interest.</p>
<p><u>Uniqueness:</u></p> <ul style="list-style-type: none"> <li>What do we do that sets us apart from neighboring institutions?</li> <li>How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>	O	<p>Our students obtain an AAS degree, a certificate in Group Exercise Instruction, and a certificate in Health and Wellness Coaching upon graduation. We also have a standalone exercise laboratory with state-of-the-art equipment and cover the cost of the students' CPT examination. We will also be looking into accreditation to become the second HFS program in the state to be accredited.</p> <p>We will send a newly updated poster highlighting our program with contact info to 18 local high schools and request permission from</p>

	Rating	Explanation
<u>SLOs and Curriculum Map:</u> <ul style="list-style-type: none"> <li>Attach curriculum map and analysis of program learning outcomes.</li> </ul>		
<u>Retention and Progression:</u> <ul style="list-style-type: none"> <li>How does program retention compare to the retention goal?</li> <li>What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	O	<p>The starting and ending enrollment numbers for our last 3 cohorts were as follows: 2018-20, started with 11 and ended with 4, 2019-2021, started with 6 and ended with 3, 2020-2022, started with 11, and ended with 6. This resulted in retention rates of 36%, 50%, and 55, respectively. However, a few students take the courses out of the recommended sequence or on a longer timeline than 2 years. NeoGov shows 44% (2018), 75% (2019). The goal is 49%.</p> <p>The most common reason for withdrawing from the program is a significant life change for our students, such as moving out of state, having a child, or starting a new job. Also, COVID-19 proved a challenge for some of our students.</p>
<u>Demographics:</u> <ul style="list-style-type: none"> <li>What strategies are utilized to support underserved populations?</li> </ul>	O	Our program is open to all, with no prerequisite to enter. For students struggling with courses due to having been away from education for

	Rating	Explanation
Consider program demographic data.		some time, such as adult learners, or lacking basic skills, we direct them to campus resources and help personally. We have 56.00% Caucasian, 36.00% Black/African American, and 8.00% unknown. Of these, 54.00% are male, and 46.00% are female.
<u>Course Sequence:</u> <ul style="list-style-type: none"> <li>Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>Are courses filled at an appropriate rate?</li> </ul>	O	Yes. Our curriculum is designed logically, allowing increased material retention by having similar courses taken during the same semester to increase the time spent learning the content (e.g., BIO 168 with HFS 110). We have also decreased our overall curriculum to less than 70 credits to help better align with Guided Pathways to Success. Yes.
<u>Modality:</u> <ul style="list-style-type: none"> <li>Are we choosing the best delivery methods and times?</li> <li>Also consider online and other locations, if applicable.</li> </ul>	O	We have changed formats and times over the past few years based on student needs and requests, such as adding a PED 122 section over the summer to help students with time constraints in a regular semester. We consistently apply student feedback to our program to help increase student satisfaction and retention.
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>What do course evaluations say?</li> <li>What is the process for addressing student feedback?</li> </ul>	O	Overall good scores and feedback.  I review the evaluations at the end of the academic year and discuss any feedback from students with the adjuncts that I believe will help them with their courses and teaching.

## COMPLETION

	Rating	Explanation
<u>Student Achievement:</u> <ul style="list-style-type: none"> <li>Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>	A	Enrollment in some courses fluctuates from year to year, but overall, we have good enrollment numbers and retention.
<u>Graduation:</u> <ul style="list-style-type: none"> <li>How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>What are the barriers to timely student completion and how can they be addressed?</li> </ul>	A	Our graduation numbers were as follows: 4 (2020), 3 (2021), and 4 (2022). NeoGov data shows 17% (2018), 20% (2019), 8% (2020). The goal is 16%.  Most of our students delay their WBLP until the summer after completing the other coursework to focus on the internship. Also, some of our students have had to skip a core course in the recommended semester for various reasons, delaying their completion date.

TRANSITION

	Rating	Explanation
<p><u>Job Placement/Transfer:</u></p> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>	O	<p>Most of our students enter the workforce as personal trainers, with several having gone on to pursue higher education. Our current incoming cohort has shown an increased interest in transferring to a university upon completing the program.</p> <p>NeoGov data shows 83% employment in NC (2014)</p>
<p><u>Community:</u></p> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>	O	<p>Yes.</p> <p>Our Advisory Board includes individuals from institutions we have articulation agreements with and from some of our WBLP sites, which allows more substantial feedback for suggestions on our curriculum.</p> <p>Our 2022 Advisory Board meeting was positive, with several department chairs at universities we hold articulation agreements with stating that our students are well prepared when entering their institutions.</p>

ADDITIONAL INFORMATION

	Comments
<p>Please include any additional data and/or information related to program-level accreditation.</p>	<p>Our program continues to strengthen in both enrollment and design. We have made several beneficial curriculum changes these past few academic years, both in removing/adding courses and in the instruction of our courses. We look forward to the continued positive trends we have been seeing.</p>

## Program Review – A45360 Health Information Technology

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

### STRENGTHS:

- The HIT program has the option to be very versatile as a 100% online asynchronous program.
- The program receives excellent support for software and equipment necessary for online program development and student technology needed to meet competencies.
- Instructors trained in Blackboard and Accessibility Training (BAAT)
- Instructor Credentials in Effective College Instruction.
- Instructor Trained in Online Delivery Instruction:
  - Instructor completed ACUE Micro-credential in Promoting Active Learning Online
  - Instructor completed ACUE Micro-credential in Inclusive Teaching for Equitable Learning
  - Instructor completed ACUE Micro-credential in Creating an Inclusive and Supportive Online Learning Environment
  - Instructor completed ACUE Micro-credential in Designing Learner-Centered & Equitable Courses
  - Instructor completed ACUE Inspiring Inquiry and Lifelong Learning in Your Online Course

### AREAS FOR IMPROVEMENT:

- Increase enrollment in the Health Information Technology Program
- Additional course availability and options for students wishing to take courses part-time, as well as the option for additional pathways.
- Additional marketing to the community to enhance the program availability would help educate the community about the variety of career options and advancements available through the HIT program.
- Streamlining the program curriculum by reducing required credits
- Embedding certificate or diploma options for those students wanting to complete a degree quicker than 5 semesters.

### NEEDS:

- Additional marketing would increase the awareness of the community and employers of the HIT program's availability.

Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

- Another faculty, adjunct or full-time, to carry more of the individual course loads would allow the Program Lead/Director to focus more time on building and developing the program to meet accreditation standards to enhance the competitive marketability of the program in comparison to the surrounding community colleges providing this program option.
- Continued professional development for distance education.
- Implement and map CAHIIM competencies.
- Community Outreach and partnership with local facilities contacts

ACTIONS:

- Work with the Marketing and Public Relations Department to begin marketing opportunities for the program.
- Scheduling additional information sessions with social media outreach to the local community.
- Seeking additional avenues to make program availability known to high school healthcare care organizations utilizing health information technology and employing personnel in this field.
- Continue with professional development opportunities to increase skills in online instructions and leadership administrative tasks.
- Continue in ECU courses to obtain RHIA certification.
- Continue to work with CAHIIM to map competencies and preparations for accreditation as soon as able to meet requirements.
- Continue to meet with CaroMont HIT representatives to discuss Apprenticeship options.
- Continue to discuss potential HIT options and necessities for the high schools and Continuing Education pathways.

DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	(A45360) Associates in Science
Is there anything you want to note about these diplomas, certificates, or pathways?	<ul style="list-style-type: none"> <li>• The AAS program must be accredited by CAHIIM for students to qualify for the Registered Health Information Technology certification. The AAS is the only program offered currently that allows students to be eligible for the certification. Certificate and diploma options are available. Considering these shorter but limited pathways would provide education to students to allow them to enter the HIT field quicker with some entry-level knowledge. With careful course selection, the certificate and/or diploma pathway would enable the students to return to work and earn money while they continue to take courses to earn their AAS as they earn</li> </ul>

	Comments
	<p>valuable work experience in the field, providing them with both in a relatively short amount of time.</p> <ul style="list-style-type: none"> <li>• The certificate/diploma option would be beneficial for those interested in high schools, as well.</li> </ul>

CONNECTION

	Rating	Explanation
<p><u>Viability:</u></p> <ul style="list-style-type: none"> <li>• How viable is the program? Consider the accompanying FTE data.</li> </ul>	D	<ul style="list-style-type: none"> <li>• This is a new start-up program with the first semester offered in January 2022 with 2.91% FTEs for HIT major.</li> <li>• The interest is high according to marketing interests and students requesting information. According to the Bureau of Labor Statistics, the predicted growth for certified RHIT is up to 13% from 2016 -2026.</li> <li>• Inpatient and Outpatient Medical Billing &amp; Coding growth potential is 15% by 2024.</li> </ul>
<p><u>Uniqueness:</u></p> <ul style="list-style-type: none"> <li>• What do we do that sets us apart from neighboring institutions?</li> <li>• How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>	D	<ul style="list-style-type: none"> <li>• We offer open enrollment compared to selective admissions at most of the surrounding community colleges offering this program.</li> <li>• We are not credentialed with the CAHIIM Accrediting body for AHIMA, the only certifying body in the nation.</li> <li>• Limited marketing was available for the new program last year. The only marketing in 2022 was the Facebook blast announcing the Information session in late July.</li> <li>• Flyers have been provided at the Lincoln County Schools open house and tours. Currently, there is no other marketing taking place. The biggest draw, according to student feedback during the Information session, was the online classes and the ability this degree offers to work remotely.</li> <li>• The program is not effectively marketed to the local communities. Very little marketing has been available this past year. Community feedback does not know if the program exists or is available.</li> <li>• More than 30+ HIT-related job postings published daily for hybrid and remote work</li> </ul>

<p><u>Retention and Progression:</u></p> <ul style="list-style-type: none"> <li>• How does program retention compare to the retention goal?</li> <li>• What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	D	<ul style="list-style-type: none"> <li>• This is my first year running the program. Course retention averages about 40% of those registered for the course and 67% retention after the first four weeks.</li> <li>• Students were withdrawing due to a lack of anticipated financial aid and apprenticeship available. Others withdrew due to life issues preventing them from focusing on the courses. (i.e., Divorce, illness, small children, and work schedules)</li> </ul>
<p><u>Demographics:</u></p> <ul style="list-style-type: none"> <li>• What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>	D	<ul style="list-style-type: none"> <li>• 83% Caucasian Female</li> <li>• 16.67% Middle Eastern Indian</li> <li>• The college has many support programs for its students but those that would support underserved populations include college scholarships, financial aid, and TRIO. Strategies for academic support, include TRIO/Student Support Services, peer tutoring, Men of Excellence (male mentoring program), and the Writing Center.</li> </ul>
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>	D	<ul style="list-style-type: none"> <li>• Courses are sequenced in a way that a student builds upon previously learned knowledge and skills from the simple to the complex. <ul style="list-style-type: none"> <li>○ The current sequencing of the courses needs some rescheduling to be sequenced to provide a more natural learning process for the course content. Many of the courses do not have prerequisites; however, the content in the courses is required to understand better and complete the coursework in the later courses. With the courses listed as open enrollment, students are registering for courses to meet financial aid hourly requirements because a prerequisite is not present to find they are struggling because they have not had the exposure to courses sequenced earlier in the course schedule and drop the course. For</li> </ul> </li> </ul>

	Rating	Explanation
		<p>example, medical terminology or anatomy classes are not listed as prerequisites to diagnostic coding but students' success is more likely with these courses completed before taking any of the coding classes. This is the same for the first practiced experience course should not take place until the students have completed enough major core classes to be able to have enough of a foundation of HIT knowledge before attempting to practice coding in the field with preceptors.</p> <ul style="list-style-type: none"> <li>• Courses are not being filled at an appropriate rate due to the open registration capabilities. The courses are being completed out of sequence for the cohort students resulting in open classes offered, leaving students needing additional courses to meet financial aid requirements or long gaps between utilizing knowledge and skills learned and the expiration of subscriptions to lab components from one year to the next.</li> </ul>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>	D	<ul style="list-style-type: none"> <li>• This program is 100% online asynchronous. Students like the availability to work on coursework on their schedule. Some students state they would like the option of seated classes.</li> <li>• Students have mentioned wanting seated options. A Hybrid synchronous option for the lab components may be considered if enrollment and additional instructors are available.</li> </ul>
<p><u>Evaluation:</u></p> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>	D	<ul style="list-style-type: none"> <li>• Only one semester of evaluations is available. Only one student completed it. The student complained about timely grading and feedback.</li> <li>• Attempting to hire an adjunct to assist in the course load for faculty/director balance to allow a timelier turnaround on assignment grading and feedback for the students.</li> </ul>

COMPLETION

	Rating	Explanation
<u>Graduation:</u> <ul style="list-style-type: none"> <li>• How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>	D	<ul style="list-style-type: none"> <li>• Anticipated graduation date is not until 2024 for the current cohort. The 2021-2022 head count was 12, and current enrollment is only 5.</li> <li>• Students do not want to wait for the sequencing of courses. Would like more available courses each semester or a shorter course period (8wk)</li> </ul>
<u>Graduate Satisfaction:</u> <ul style="list-style-type: none"> <li>• How does the actual satisfaction rate compare to the satisfaction rate goal?</li> </ul>	D	<ul style="list-style-type: none"> <li>• Not applicable this year.</li> </ul>

TRANSITION

	Rating	Explanation
<u>Job Placement/Transfer:</u> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying goal achievement, NC Tower, and JobsEQ data.</li> </ul>	D	<ul style="list-style-type: none"> <li>• Not applicable currently</li> </ul>
<u>Community:</u> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>	D	<ul style="list-style-type: none"> <li>• Yes, however, the current focus in community hospitals is direct patient care post-pandemic shortages.</li> <li>• The CaroMont partnership has refocused its efforts on direct patient care; however, they are still working on accepting our students during their practicum rotations in the HIT and HIM departments. Other opportunities include potential partnerships with Atrium, Novant, and Piedmont Plastics Surgery and Dermatology for student practicums and possible apprenticeships in the future. Early college opportunities may be viable partnerships with the development of Certificates or Diploma pathways.</li> <li>• The Advisory Board and meetings have not been developed at this time. However, research shows that coding or RHIT credentials are required for most hospital positions in the HIT/HIM departments.</li> </ul>

ADDITIONAL INFORMATION

	Comments
<p>Please include any additional data and/or information related to program-level accreditation.</p>	<ul style="list-style-type: none"> <li>• All known AAS HIT programs are accredited through the omission of Accreditation for Health Informatics and Information Management Education (CAHIIM). This is a requirement of the program for graduates of the HIT program to be eligible to sit for the certification of Registered Health Information Technologist (RHIT).</li> <li>• There are 18 accredited 100% online programs offered in NC currently.</li> <li>• Diplomas are an option through the state, but graduates are not eligible to sit for the RHIT certification exam.</li> <li>• Embedded certificates/diploma pathways are an option, and graduates are eligible for employment but will be limited in position choices.</li> <li>• Access Specialist, Authorization &amp; Length of Stay Specialist, Benefit Eligibility Specialist, Patient Financial Rep I &amp; II, Patient Service Specialist I, II, and Scheduler – Centralized Scheduling are a few of the non-RHIT positions available for hire.</li> </ul>

## Program Review – A45380 Human Services Technology

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

#### Strengths:

- Continuing the Scholarship Committee for the *Remembering Austin Memorial Annual Scholarship* and selected two (2) award recipients during the summer for the upcoming academic year (2022-2023).
- Completed a new articulation agreement with Lenoir Rhyne to begin spring 2023.
- Completed a new articulation agreement with Belmont Abbey to start summer of 2022.

#### Areas for Improvement:

- Increase in the Human Services Technology enrollment for degrees and certificates. (The lowest enrollment has been the SAB, AAS, and Gerontology Certificate).
- Need to incorporate an instrument to evaluate practicum and employer satisfaction.
- Need to incorporate an instrument to improve the follow-up process of program graduates.
- Increase the number of articulation agreements with colleges and universities.
- Increase marketing strategies.

#### Needs:

- Continued marketing coverage.
- Continued professional development training for distance education.

#### Actions:

- Increase the number of existing stakeholder collaborations by contacting schools, service institutions, and non-profit organizations.
- Increase the number of college/university articulation agreements by revisiting previous plans to formulate a contract agreeable to all parties.
- Compose a draft for an employer satisfaction survey specific to the program and submit it to the WBL Office for approval to be incorporated in the WBL Workbook.
- Adapt and incorporate an outcomes instrument to improve the follow-up process of program graduates.
- Work with the marketing department to continue marketing opportunities.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?
- Participate in available professional development opportunities to increase skills in instruction and in leadership tasks.

## Program Review – A25590 Information Technology

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The mission and purpose of the degree program tracks within the Information Technology department at Gaston College is to provide students with the knowledge and skills that will allow them to work in a variety of information technology environments. The five different degree program tracks are as follows:

- The Applications Development (AD) track prepares individuals for employment as computer programmers, applications specialists, and related positions through study and applications in computer concepts, logic, programming procedures, languages, platforms, data management, and business operations.
- The Data Analytics and Database Management (DA) track prepares graduates for employment with organizations that use database management system software to process, manage, analyze, synthesize, and communicate information.
- The Digital Media (DM) track prepares students for entry-level jobs in the digital design, multimedia, and Web technologies industry. Students learn to synthesize multimedia, graphics, hypertext, programming, and information architecture using both Internet and non-network-based media.
- The Information Systems Support (IS) track is designed to prepare graduates for employment with organizations that use computers to process, manage, and communicate information.
- The Networking and Cyber Defense (NS) track prepares individuals for employment supporting network infrastructure environments. The curriculum provides individuals with the skills required to implement effective and comprehensive information security controls.

### Strengths

All program tracks begin with the same common core of classes in the first semester. This common core of classes gives the student an introduction to their chosen major. Should a student decide to switch majors to another track within Information Technology beginning in the second semester, they will not lose any coursework toward the new track. The classes listed in the first semester of each degree program also earn the student a certificate when completed.

The Information Technology department employs faculty with a diverse range of technical skills. Students are able to work with experts in their chosen major.

## Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The program of study for the Networking and Cyber Defense track received validation from the National Security Agency through the CAE designation process. Gaston College received full CAE designation during the Spring 2022 semester.

### Areas of Improvement

Some of the areas of improvement we will focus on include:

- Increase enrollment within all tracks.
- Continual update of skills for all faculty members
- Continual update of technology within tracks

### Needs

With Guided Pathways and the System Office moving the programs to parent programs with tracks beneath the parent programs, assistance is needed in marketing each of the child programs (tracks). Within each program, technology advances rapidly. With these changes, there is a constant need for and support from the college to help with keeping the labs updated for students to gain skills in the latest software and technology advancements.

### Actions

- Work with the marketing department to promote all Information Technology tracks.
- Work with Gaston College to secure additional funds for advanced faculty development.
- Work with technology services to ensure all labs are updated and maintain the latest in technology advancements.
- Work with Gaston College to secure equipment funds to stay abreast of the latest technologies.
- Expansion of Networking and Cyber Defense labs across all campuses
- Coordination with Continuing Education regarding Networking and Cyber Defense offerings

## DIPLOMAS, CERTIFICATES, & PATHWAYS

CONNECTION

	Rating	Explanation
<p><u>Viability:</u></p> <ul style="list-style-type: none"> <li>How viable is the program? Consider the accompanying program viability report.</li> </ul>		<p>The following FTE data for the Information Technology Department is from the Gaston College Fact Book and represents curriculum FTEs by students' primary major.</p> <ul style="list-style-type: none"> <li>FTE 2020-2021 124.50</li> <li>FTE 2021-2022 99.27 *</li> </ul> <p>* Note that this data from the Gaston College Fact Book does not consider FTE's being generated by classes being taken by non-IT majors. Therefore, the FTE numbers are considerably higher if all departmental earned FTEs are reflected. If you take all the individual prefixes making up classes taught within the department, the FTE's generated were 159.40, which is a significant increase over the same number during the 2020-2021 academic year, Hence, the FTE's earned during the 2021-2022 academic year were the highest in many years.</p>
<p><u>Uniqueness:</u></p> <ul style="list-style-type: none"> <li>What do we do that sets us apart from neighboring institutions?</li> <li>How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>		<p>Gaston College participated in the North Carolina Guided Pathways to Success (NC-GPS). As a result of this initiative, streamlined pathways were created for students in the Information Technology programs effective Fall 2020. One of the benefits of NC-GPS is to create greater cost savings and efficiencies for the students.</p> <p>To align with NC-GPS, all five of the programs within the Information Technology department</p>

	Rating	Explanation
		<p>(Applications Development, Data Analytics and Database Management, Digital Media, Information Systems Support, and Networking and Cyber Defense) were reduced in hours from 76 to 68 beginning Fall 2020.</p> <p>During the year, faculty from the Information Technology department have typically also gone into high schools at the request of Career and Technical Education instructors to present information on the programs available through Gaston College's Career and Technical Education division; however, these efforts were dramatically impacted by Covid-19.</p> <p>The Career and Technical Education division also maintains a presence on Facebook to market the programs in the division.</p> <p>Five (5) different courses allow students to participate in the Global Scholars of Distinction recognition (CIS 110, CIS 115, CTS 115, CTS 250, CTS 288).</p> <p>All program tracks could benefit from targeted marketing efforts due to their uniqueness.</p>

ENTRY

	Rating	Explanation
<p><u>Enrollment Goals:</u></p> <ul style="list-style-type: none"> <li>In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>What strategies have been and/or will be implemented?</li> </ul>		<p>To align with NC-GPS, all five of the programs within the Information Technology department (Applications Development, Data Analytics and Database Management, Digital Media, Information Systems Support, and Networking and Cyber Defense) were reduced in hours from 76 to 68 beginning Fall 2020.</p>

PROGRESS

	Rating	Explanation
<p><u>SLOs and Curriculum Map:</u></p> <ul style="list-style-type: none"> <li>Attach curriculum map and analysis of program learning outcomes.</li> </ul>		<p>See attached curriculum map and program learning outcome data for each track.</p>
<p><u>Retention and Progression:</u></p> <ul style="list-style-type: none"> <li>How does program retention compare to the retention goal?</li> </ul>		<p>There was not a stated retention goal for the college found in the Gaston College Fact Book, and the previous system (Tableau) does not</p>

	Rating	Explanation
<ul style="list-style-type: none"> <li>What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>		<p>contain the 2021-2022 data. In 2020-2021 the college goal was 49%. The previous retention rates from previous years for A25590 were as follows:</p> <ul style="list-style-type: none"> <li>2018-2019 44%</li> <li>2019-2020 53%</li> <li>2020-2021 48%</li> </ul> <p>In the Gaston College Fact Book, the retention rates for Fall 2020 to Fall 2021, and Fall 2021 to Spring 2022, were as follows for each of the following tracks:</p> <ul style="list-style-type: none"> <li>Applications Development (25%, 0%)</li> <li>Digital Media (0%, 50%)</li> <li>Information Systems Support (0%, 100%)</li> <li>Networking and Cyber Defense (67%, 25%)</li> </ul> <p>Note there was no data for the Data Analytics and Database Management track. Since there have been graduates in all five tracks, it is unclear as how there are 0% values in the listed retention rates. A better analysis should come from departmental retention data from the previous years since the current data seems to be incomplete.</p> <p>The Career and Technical divisional faculty utilize Aviso alerts and Success Coaches to help in retaining students. Faculty members in the Information Technology department are asked to submit cases when students stop working in their classes. The success coaches for the division are quick to contact students to help the faculty retain the students.</p> <p>Many of the students enrolled in the Information Technology department either work full or part time jobs. Many also have families and commitments outside of their classes. These are barriers to achieving retention goals. There are too many unknown variables to properly determine actions.</p>
<p><u>Demographics:</u></p> <ul style="list-style-type: none"> <li>What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>		<p>The departmental demographics for the previous 2021-22 academic year are as follows:</p> <ul style="list-style-type: none"> <li>Percent Female 26%</li> <li>Percent Male 74%</li> <li>Percent White 52%</li> <li>Percent Black 24%</li> <li>Percent Hispanic 12%</li> </ul>

	Rating	Explanation
		<ul style="list-style-type: none"> <li>• Percent Age 18-24 43%</li> <li>• Percent Age 25-44 40%</li> </ul> <p>The demographics for the college for 2021-2022 are as follows:</p> <ul style="list-style-type: none"> <li>• Percent Female 66%</li> <li>• Percent Male 34%</li> <li>• Percent White 63%</li> <li>• Percent Non-White 37%</li> </ul> <p>According to the National Center for Women in Information Technology (NCWIT), in 2020, 25% of the computing workforce were women. The percentage of women in the Information Technology programs (31.52%) is higher than that current percentage.</p> <p>According to the U.S. Bureau of Labor Statistics, in early 2020, different computer-related jobs had various non-white percentages. Various jobs included: computer programmers (32.2%), database administrators (28%), computer support specialists (25.8%), network and computer systems administrators (22.8%), and web developers (22.4%). With the non-white student population being 36.96%, the department is well above the average currently in industry in similar IT functions.</p> <p>The department continually strives to be more inclusive, serving a broader demographic, including minorities, low-income students, working adults, returning students, and students with low academic achievement. Gaston College provides individual student assistance with the Writing Center, Math and Science Center, Learning Center, and TRIO.</p>
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>		<p>Course sequencing in the Information Technology programs must be carefully considered. Many of the courses in this program have state prerequisites that must be met to progress in each program.</p> <p>Students have a good balance of the general education courses in addition to the courses part of their major. The department strives to have consistency with the first fall semester to allow for students to change their track if they choose to do so. Faculty members advise students throughout the program to keep them on track to</p>

	Rating	Explanation
		<p>ensure they meet all state/local pre-requisites for the advanced courses.</p> <p>Course demand and previous scheduling is used to create course schedules each semester. Many of the courses offered throughout the department are offered in an online format; however, some classes are offered in a hybrid modality due to the choice by the student or demands of the course. Every attempt is made to capture enrollment with classes that start at the beginning of the semester, as well as courses that begin later in the semester (late start classes and second session classes).</p>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>		<p>The Information Technology department offers courses in a hybrid and online format. Three of the degree programs (Applications Development, Data Analytics and Database Management, and Digital Media) are offered entirely online. The Information Systems Support program is offered entirely online except for one course. The Networking and Cyber Defense program has several classes that are hybrid due to the necessity of hands-on activities.</p> <p>Most hybrid courses are offered during the day; however, some introductory classes are offered in the evening and at the Lincoln and Kimbrell campuses when possible.</p>
<p><u>Evaluation:</u></p> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>		<p>Course evaluations are conducted in all Career and Technical Education courses in the fall and spring. In the summer term, courses offered as summer only courses are evaluated. All faculty members and department chairs have access to the course evaluations. Faculty members in the Information Technology department review feedback from evaluations and utilize the feedback to determine if any changes need to be made to the courses.</p> <p>Feedback and response rates from the course evaluations for Information Technology are overwhelmingly positive.</p> <ul style="list-style-type: none"> <li>• Fall 2021: 69% course evaluation response rate; 6.32/7 mean score.</li> <li>• Spring 2022: 74% course evaluation response rate; 6.11/7 mean score</li> </ul>

COMPLETION

	Rating	Explanation
<p><u>Student Achievement:</u></p> <ul style="list-style-type: none"> <li>• Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>		<p>The courses with the lowest enrollments were the core courses within the Digital Media and Data Analytics and Database Management tracks. These two tracks have been the lowest enrollment tracks. However, the Data Analytics and Database Management track is on pace in Spring 2023 to have the highest enrollment in the capstone course (DBA 289) since inception of the track. Effective Fall 2022, there are 23 active students in the Data Analytics and Database Management track and 17 students in the Digital Media track.</p> <p>CTI 110 had the highest withdrawal rate (35%) of courses with 20 or more students. The instructor of the course has modified the course effective Fall 2022 in hopes of improving this rate.</p> <p>DBA 289, which is the capstone course of the Data Analytics and Database track, had the lowest number of successful completers. The instructor of the course is implementing strategies when the course is taught again (Spring 2023) to increase the number of successful completers.</p>
<p><u>Graduation:</u></p> <ul style="list-style-type: none"> <li>• How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>		<p>The headcount in all Information Technology tracks was 238. The total number of awards was 43, with 21 at the highest level. This yields an award to headcount ratio of 18%. There are no stated awards to headcount ratio goal for the college during the 2021-2022 academic year. Student completion is the top priority of the Information Technology faculty members. Specific guidelines provided through Guided Pathways have helped to reduce the number of required hours for completion. Many of our students transition from full-time to part-time and then sometimes back to full-time depending on their family and work situations. The Information Technology faculty advise students to continue their education and stay as current as possible.</p> <p>Due to the ever-changing personal situations of the students, it is often difficult for students to complete in a timely manner. However, many</p>

		student-centered programs at Gaston College are in place to assistance students financially and personally.

#### TRANSITION

	Rating	Explanation
<u>Job Placement/Transfer:</u> <ul style="list-style-type: none"> <li>Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>		According to the JobsEQ data, all positions related to the Information Technology tracks have a very small unemployment rate and a positive forecasted annual growth rate.
<u>Community:</u> <ul style="list-style-type: none"> <li>Is the program the right fit for our community?</li> <li>How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>What is the advisory committee feedback?</li> </ul>		<p>Bi-annual Divisional Advisory Committee meetings are conducted. The Divisional Advisory Committee is made up of members of the community working in the field in positions our students would pursue for employment as well as hiring managers. During the advisory committee meetings, members discuss the needs of their companies, sequencing is evaluated, and suggestions are made to improve the programs.</p> <p>The members of the Advisory Board are invaluable and the programs within the Information Technology department have benefitted greatly. The Information Technology department is fortunate to have past graduates, and non-graduates, to serve in this capacity.</p>

#### ADDITIONAL INFORMATION

	Comments
Please include any additional data and/or information related to program-level accreditation.	The program of study for the Networking and Cyber Defense track received validation from the National Security Agency through the CAE designation process. Gaston College received full CAE designation during the Spring 2022 semester.

## Program Review – A40320 Mechanical Engineering Technology

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The Mechanical Engineering Technology program at Gaston College serves Gaston and Lincoln counties of North Carolina. Graduates from the program are highly trained in hands-on and analytical skills in engineering technology. They are the graduates of choice for employers in the area seeking employees at the associate degree level with engineering technology skills. The industries in and around Gaston County prefer our graduates to those from other similar programs. The program core courses are taught at the higher end of the application of math and physics to analyzing and solving engineering technology problems. The students of the program are also given hands-on training in labs and workshops associated with program curriculum courses. Therefore, the performance of our graduates stands out when hired by industry. Also, they perform very well when they transfer to universities to continue their education. They show no shortfall in any foundational knowledge required in the programs they transfer into. The level of skill and knowledge of the fresh graduate from the MET program exceeds the level of skill and knowledge expected by our constituents of a fresh graduate from an associate degree program.

All graduates get hired or have been admitted into transfer programs in higher institutions less than a year after graduation.

**Areas of Improvement:** There is a need for improvement in enrollment and recruiting methods. Relationships with high schools and industries in the counties mentioned need improvement. Efforts and methods in retaining enrolled students until graduation need to be improved. Enrollment has dropped since the beginning of COVID-19 pandemic. Better methods for delivery of online instruction need to be explored. We need to promote more active participation of students in lab experiment activities. We must continue to ensure the program meets the needs of local industry.

**Needs:** The program needs the institution to help more with effective marketing and recruitment. The institution could help greatly with recruitment by assigning recruiters specific to engineering technology programs. Online representations of program course activities need improvement.

### Actions:

1. Collaborate with marketing department to create strategies that make program more attractive to the high school students and employees in the industries.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

2. Mitigate situations that cause some of program students to transfer out of the program without completing it.
3. Devise ways to improve and increase the completion rate of students in the program.
4. Increase interactive activities with our sources of students.
5. Improve the methods of having students actively participate in lab experiment activities.
6. Improve online portions of program courses.

### DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	C40320-Certificate in Mechanical Engineering Technology
Is there anything you want to note about these diplomas, certificates, or pathways?	The certificate program was created to provide completion for those students who could not put in all the time and learning required to complete the associate in Mechanical Engineering Technology. Also, it provides completion for the part time students who have work and other things taking priority in their busy life schedules. It also provides a step and encouragement towards the completion of the associate degree program

### CONNECTION

	Rating	Explanation
<u>Viability</u> : <ul style="list-style-type: none"> <li>• How viable is the program? Consider the accompanying program viability report.</li> </ul>	D	<p>The program is viable as evidenced in the curriculum FTEs, enrollment goals, retention and progression, graduation satisfaction and job placement/transfer.</p> <p>FTE data: 2018-2019-37.07; 2019-2020-16.47; 2020-2021-12.88; 2021-2022-10.56</p> <p>The FTE of 2018-2019 looks good. There was a drop of about 50 percent in 2019-2020. This is the period when COVID 19 started, and the enrollment was heavily affected. The lives of the student population of our service areas were affected and regular scheduled activities of their lives changed. In the consequent years until current the FTEs kept dropping slightly though but not as significantly as the drop from 2019 to 2020. The current FTE in 2022 is 10.56. It is expected to start climbing back up as the COVID pandemic has mostly subsided.</p>

	Rating	Explanation
		The Mechatronics Engineering Technology program is being terminated and material incorporated into the MET program. This should concentrate enrollment and improve numbers.
<p><u>Uniqueness:</u></p> <ul style="list-style-type: none"> <li>• What do we do that sets us apart from neighboring institutions?</li> <li>• How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>	A	<p>Gaston College participates in the North Carolina Guided Pathways to Success. These pathways for students help reduce program costs, promote efficiencies, reduce credits required to graduate in the programs and increase graduation rates. The MET program has benefited from being part of this. The division has very good interaction with county high schools and industries where most of our new students come from. Fest activities are organized yearly and students in middle and high schools are invited to participate. The students visit the program labs and short summaries of the programs of the division are presented to them during the visit. This exposes the middle and high school students to our programs.</p> <p>These ways of marketing the programs help with the recruiting of potential new students into the programs.</p> <p>The Apprentice 321 program also helps feed students into the MET program. Industries in our serving counties send their employees willing to participate in the program to the college to take courses that related to their job descriptions. These courses also count towards a degree at the college. Most participants of the Apprentice 321 program have continued into the mechanical engineering technology program after completing the courses their companies scheduled for them to take. This track has worked well for the MET program in drawing students from the apprentice program.</p> <p>Graduates from Gaston College MET program is rated very highly by the employers who hire them and by the university programs where they transfer to continue their education. MET program graduates from Gaston college are graduates of</p>

ENTRY

	Rating	Explanation
<p><u>Enrollment Goals:</u></p> <ul style="list-style-type: none"> <li>• In comparison to neighboring institutions, how do program</li> </ul>	D	The Mechanical Engineering Technology program at Gaston College requires a total of sixty-seven credit hours to complete the associate degree. Similar programs in neighboring

	Rating	Explanation
<p>hours compare? What are the differences in major courses?</p> <ul style="list-style-type: none"> <li>• What strategies have been and/or will be implemented?</li> </ul>		<p>institutions require the same number of credit hours to complete. There is not much difference in major courses because the courses that make up the mechanical engineering technology program in the neighboring institutions are selected from the common course library of the North Carolina Community College System. The differences exist in the course contents and how they are being delivered to students. The program courses at Gaston College are taught at a significantly higher level compared to the neighboring institutions. This is evidenced in the performances of graduates from the program at their new jobs or programs they transfer to in the universities.</p> <p>Many ways of marketing and recruitment have been tried but have shown slow increases in enrollment. New methods are always being explored.</p> <p>The recruitment activities to promote the program include follow-up emails and phone calls to prospective students, as well as involvement in open houses and expos. A good number of program courses have online options. These enable working students to enroll in program courses.</p>

**PROGRESS**

	Rating	Explanation
<p><u>SLOs and Curriculum Map:</u></p> <ul style="list-style-type: none"> <li>• Attach curriculum map and analysis of program learning outcomes.</li> </ul>		See attached for curriculum map and program learning outcomes information
<p><u>Retention and Progression:</u></p> <ul style="list-style-type: none"> <li>• How does program retention compare to the retention goal?</li> <li>• What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	D	<p>Program Retention ----New Students</p> <p>2015...91 %      2016....53%</p> <p>2017....63%</p> <p>2018...33%      2019....40%      2020-</p> <p>2021....33%</p> <p>2021-2022....0%</p> <p>Program Retention ----All Students</p> <p>2015...51 %      2016....38%</p> <p>2017....56%</p> <p>2018...55%      2019....37%      2020....</p> <p>Not available</p>

	Rating	Explanation
		<p>Retention at Gaston -----New Students  2015...71 %            2016....54%  2017...64%  2018...64%            2019....60%      2020-  2021---52%  2021-2022---79%</p> <p>In 2015, retention of new students in the program was remarkably high, 42% above the college goal. In 2016 it was 4% above college goal and in 2017 it was 14% above goal. It fell below the college goal in 2018 and 2019. This might have been due to a drop in jobs for the MET graduates in surrounding counties. For all students in the program retention was acceptable, 2% above goal in 2015 and was outstanding in 2017 and 2018. It dropped significantly in 2019 to 12% below the goal in 2019. In 2021 the retention dropped by 13%. And in 2022 it dropped to zero. From 2019 to the first half of 2022 was the height of the COVID-19 pandemic. In 2022 when many employers started hiring again there were many available jobs. This affected retention in college programs because many employers were hiring at incredibly attractive starting salaries. Prospective students felt less need to obtain or complete a degree.</p> <p>Some of the students in the MET program transferred out of the program to mechatronics engineering technology and other programs in the college, especially trade and industrial programs. Some transferred out of college to universities in North Carolina. Some also took on more hours of work and suspended classes for some semesters.</p> <p>Barriers to students' progress in the program include coping with the change from traditional method of delivery to online learning due to the pandemic situation. Many of the students in the program are very used to sitting in class and having face-to-face interactions with the</p>

	Rating	Explanation
		<p>instructor. They get more understanding from in-person interactions with the instructor. Online delivery of MET-related courses put more stress on students especially in addition to their regular work schedules.</p>
<p><u>Demographics:</u></p> <ul style="list-style-type: none"> <li>What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>	D	<p>Demographics A40320 Fall 2018  Male: 93.75 %      Female: 6.25%  White: 78.13%      Nonwhite: 21.87%</p> <p>Demographics A40320 Fall 2019  Male: 83.33 %      Female: 16.67%  White: 77.78%      Nonwhite: 22.22%</p> <p>Demographics: E&amp;IT Fall 2018  Male: 93.14 %      Female: 6.86%  White: 64.91%      Nonwhite: 35.09%</p> <p>In 2018, the male to female ratio in the A40320 was almost 15 to 1 and the white to non-white ratio was about 4 to 1. In 2019 the ratio improved. The male to female ratio for the A40320 program was 5 to 1 and the white to non-white ratio was about 4 to 1.</p> <p>The engineering technology programs are less attractive to the females in the regions served by the program and the division as whole. Similarly, the program and the division are heavily dominated by whites which reflect the race distribution in the counties served by the program and the division. Efforts and effective strategies are being put in place to encourage non-whites to enroll in the program and the division programs. More related activities and interactions need to be organized with minority area high schools and minorities working in surrounding industries should be given incentives that attract them to enroll in the program while working.</p>
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>Are courses filled at an appropriate rate?</li> </ul>	A	<p>Course sequence is of high priority in the division and in the program. General education courses are mostly offered in the first two semesters of the program. These courses have no prerequisites. Students that show weakness in the placement screenings are scheduled to go through skill building courses to bring them to</p>

	Rating	Explanation
		<p>the level of the beginning courses of the program.</p> <p>Most of the third and fourth semester courses have MAT 171, PHY 151 and DFT 170 as prerequisites. Students are advised to take these courses within the first and second semester of starting the program so that they would have the door open for the application courses in the third and fourth semesters. Some of them get out of sequence when they must take skill building classes first.</p> <p>The general educational courses are normally filled to maximum capacity. The program core classes are sometimes not filled.</p> <p>Courses are logically sequenced to establish and expand knowledge as the students' progress.</p>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>	A	<p>Classes in the program are offered mostly in the day and a few of them are offered at night. The general educational classes have many online options in addition to the traditional way of delivery in instruction. The program core classes are mostly traditional with few online and hybrid options. Since most of the students in the division have jobs the online and hybrid options work better for some of them.</p> <p>Instructors teaching program courses are highly qualified and very friendly with the students. They employ delivery methods that are basic and very understandable to the students and that facilitate learning.</p> <p>I teach DFT 170, Engineering Graphics and most of the second-year classes in the program. These mainly require the applications of math and physics and hands-on laboratory and demonstration work. Delivery methods include a lot of problem solving in the class, examples of practical applications of principles. These improve the understanding of the students. Also, the hands-on lab work gives them more understanding. All these methods of teaching facilitate student learning.</p>
<p><u>Evaluation:</u></p> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>	A	<p>Course evaluations are conducted in the fall and spring semesters for instructors. Faculty members and their department chairs have access to course evaluations upon completion of</p>

	Rating	Explanation
		<p>the semester. Course evaluations have been incredibly positive.</p> <p>Student feedback is addressed at meetings between the supervisor and faculty member who has been evaluated. Areas of concern and complaints from students are addressed at the meeting. When an evaluation includes student complaints and instructor shortfall, the instructor is required to come up with a plan or strategy to make improvement.</p>

COMPLETION

	Rating	Explanation
<p><u>Student Achievement:</u></p> <ul style="list-style-type: none"> <li>Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>	D	<p>In Fall 2021 and Spring 2022, there were program courses with low enrollments. MEC 270, machine design had only one student. The class was offered for a student to enable him to graduate on schedule. Classes are not normally offered for a single student.</p> <p>MEC 265 and MEC 275 were also offered with two students in each class.</p> <p>Low enrollments in classes started showing when the pandemic started. Many students dropped out of the program because of the pandemic. Students are not very comfortable with these engineering technology classes being offered completely online. These high-end applications and hands-on classes serve students better in seated classes where the instructor has more direct interaction with the students. As the pandemic seems to be dying down it is expected that enrollment will pick up in these classes.</p>
<p><u>Graduation:</u></p> <ul style="list-style-type: none"> <li>How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>What are the barriers to timely student completion and how can they be addressed?</li> </ul>	D	<p>The awards/headcount goal is not available for 2021 and 2022 graduation.</p> <p>The awards/headcount percentage ratio for the MET program was 10%. This is low compared to previous years. The big drop in award/headcount ratio is due mainly to the sudden drop in enrollment and withdrawals when the pandemic started.</p> <p>The barriers to timely completion of the A40320 program by students include:</p>

	Rating	Explanation
		<p>More than 90% of the students in the A40320 program have jobs working on average 40 hours a week. They are therefore not able to take full time load each semester to lead them to complete the program in a timely manner.</p> <p>Those who take a full load in addition to their work schedule do not do very well in some classes and they may have to repeat some.</p> <p>Due to work schedules, some of them are not able to take the classes they need in a timely manner because of conflicts with their work schedules.</p> <p>In the years of 2020 and 2021, the COVID-19 pandemic contributed immensely to the barriers to timely graduation of students. Registration in program courses have gone down. Students have not been comfortable taking second year courses online because they are a bit more involved in the higher end of the applications of the required math and physics.</p> <p>Many students lost their jobs during this pandemic. They were then more occupied with seeking means to generate income and were not willing to add part-time schooling.</p> <p>As many classes as possible are offered online and as hybrid to offer more options to the students to enroll in classes they need.</p> <p>Also, sometimes some classes are offered to some students as independent study to enable them to complete the program, especially when they have very tight work schedules that are making it difficult to take the class they need.</p>

## Student Learning Outcomes – A40320 Mechanical Engineering Technology

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
1	Ability to apply knowledge, techniques, skills and modern tools of mathematics, science engineering, and technology to solve well-defined engineering problems appropriate to mechanical engineering technology.	This learning outcome is assessed by a test in MEC 265 Fluid Mechanics during the second half of the semester. The elements of the test are targeted at meeting the outcome. Problems in the test include determination of forces and hydrostatic pressures on submerged planes. Indirect measure on this outcome include answering of questions relating to understanding, interpreting the problems and	<p>Direct On average students completing the artifact will earn at least 75%.</p> <p>Indirect On the average students are expected to score at least 75% on the questions in the questionnaire.</p>	<p>Spring 2020</p> <p>Direct Mean:85% MEC265 test mean: 85% n:3</p> <p>Indirect Questionnaire mean: 86% Students rated 86 out of 100.</p>	<p>Students showed strengths in interpreting the problems and coming up with the appropriate formula to use.</p> <p>Students also showed strength in application of fluid principles to determine forces and pressure.</p>	<p>There were weaknesses showed in applying the appropriate math principles and in interpreting results obtained.</p>	<p>More reviews of responses to questions relating to interpretation of results obtained in test offered in MEC 265. Improvement was seen in interpreting the results of problems solved, which was a weakness in the previous cycle.</p>	<p>Continue to review related math principles applied to determining fluid pressure and forces on planes. More examples to be done in class as time permits. Assessment means to be changed.</p>

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
		knowing the principles to apply in solving them.						
2	Ability to design solutions for well-defined technical problems and assist with the engineering design of systems, components, or processes appropriate to the field of mechanical engineering technology.	This learning outcome is assessed by a test in MEC 275, Engineering Mechanisms during the second half of the semester. The elements of the test are targeted at meeting the outcome. Problems in the test include determination of the lengths of members of a four-bar linkage mechanism and a crank-rocker mechanism. Indirect measure on this outcome includes answering of questions relating to understanding	On average students completing the test in MEC 275 will earn at least 75%.  On the average students are expected to score at least 75% on the questions.	Spring 2020 Direct Mean:80% Mean of Completers:85% Range:75% n:4  Indirect  Mean:85% Mean of Completers:81% Range: n:4  Spring 2021  Direct Mean:75% Mean of Completers: Range:50%-100% n:5  Indirect Mean: 70% Range: 60%-100% n:5	Students showed strengths in the application of mechanism principles to categorize types of four-bar linkages-mechanism. Students also showed strengths in applying principles in determining displacements of points of interest on links of mechanism.	Some weaknesses were shown in the application of appropriate math principles in determining displacements. Interpretation of results obtained also needs improvement.	Trigonometry principles were reviewed before teaching in depth the mechanism principles relating to topic covered.  Improvement was seen in the application of the trigonometry principles in solving the design problem in MEC 275. Improvement was also seen in the interpretation of results which showed as a weakness in previous cycle.	Continue to review related math principles applied to determining displacements of points of interest. More examples to be done in class on determining of displacements and in interpreting results from problem solved.

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
		and interpreting the problems and knowing the principles to apply in solving them.						
3	Ability to apply written, oral, and graphical communication in well-defined technical and non-technical environments; and an ability to identify and use appropriate technical literature	This learning outcome is assessed by an assigned mini project in MEC 270 Machine Design during the second half of the semester. The elements of the project are targeted at meeting the outcome. Elements in the project are written and graphical communication and justification of quantities obtained. Also included is a presentation of a project report. Indirect measures on this outcome	<p>Direct On average students completing the test in MEC 270 will earn at least 75%.</p> <p>Indirect On the average students are expected to score at least 75% on the questionnaire.</p>	<p>Spring 2020 Direct Mean:74% Mean of Completers:78% Range:65% - 100% n:3</p> <p>Indirect Mean:85% Mean of Completers:81% Range: 65%-100% n:3</p> <p>Spring 2021 Direct Mean:84% Mean of Completers: Range:50%-100% n:2</p> <p>Indirect</p>	Students showed strength in the application of graphical communications in writing reports. Oral communication in the presentation of reports was also strong.	Written communications and use of appropriate technical literature needs some improvement	The points awarded to areas that showed weakness in previous cycle were increased relative to the sections of graphical and oral sections. These were the written and use of appropriate literature. There were improvements in both the oral and written part of the project report. The improvements were not that significant. More work still needs to be done in these areas.	Instructor will increase points awarded to written communications and use of appropriate literature. Assessment means will be modified and the bar for acceptable performance changed.

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
		include answering questions relating to understanding, research sources, conclusion and discussions and results interpretation.		Mean: 100% Range: 50%-100% n:2				
4	Ability to conduct standard tests, measurements, and experiments and to analyze and interpret the results.	This learning outcome is assessed by an organized lab assignment in MEC 180 Engineering Materials during the second half of the semester. The elements of the experiment are targeted at meeting the outcome. Elements in the experiment include. conducting the experiment, taking measurements,	Direct On average students completing the lab in MEC 180 will earn at least 75%.  Indirect On the average students are expected to score at least 75% on the questionnaire.	Spring 2020 Direct Mean: 85% Mean of Completers: 90% Range: 70% - 100% n: 8  Indirect  Mean: 90% Mean of Completers: 92% Range: 70%-100% n: 8  Spring 2021  Direct Mean: 92%	Students showed strength in setting up, conducting the experiment, and taking measurements.	Some weaknesses were showed in analyzing and interpreting results.	Points awarded to analysis of data, interpretation of results and relating conclusion to objectives were increased relative to the points awarded to other sections. Students showed slight improvement in these areas of data analysis, results interpretation and drawing appropriate conclusions. These areas still	The instructor will give more examples on analyzing data and how to interpret results obtained from the experiment's outcome. Assessment means will be modified and the goal for acceptable performance changed.

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
		and analyzing the results in discussions and conclusions of the experiment Indirect measure on this outcome includes discussions of results and drawing conclusions from the results obtained.		Mean of Completers: 92% Range: 80%-100% n: 12  Indirect Mean: 98% Range: 90%-100% n: 12			need improvement.	
5	Ability to function effectively as a member of a technical team	This learning outcome is assessed by an organized lab assignment in MEC 180 Engineering Materials during the second half of the semester. The elements of the experiment are targeted at meeting the outcome. Elements in the experiment include	Direct On average students completing the lab in MEC 180 will earn at least 75%.  Indirect On the average students are expected to score at least 75% on the questionnaire.	Spring 2020 Direct Mean: 85% Mean of Completers: 90% Range: 70% - 100% n: 8  Indirect Mean: 85% Mean of Completers: 81% Range: 65%-100% n: 8	Strength was shown in working in teams. Roles were well fulfilled by team members. Brainstorming, organizing, and gathering information revealed strength.	Weaknesses were shown in roles of discussions pertaining to results obtained.	Weaknesses identified in the previous cycle include team members being late in turning in assigned role work. Points were discounted for role work turned in late. Significant improvement was realized in this previously weak area. Also, improvement was realized in	Points awarded to discussion roles will be increased relative to sections. Assessment means will be modified and the goal for acceptable performance changed.

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
		<p>students working in teams to do the assigned lab experiment. Each student is assigned a team role.</p> <p>Indirect measures on this outcome include discussions of difficulties and problems encountered in working in the teams. Also discussed is the advantages and disadvantages in working in teams.</p>		<p>Spring 2021</p> <p>Direct Mean:84% Mean of Completers: 84% Range: 50%-100% n: 12</p> <p>Indirect Mean: 90% Range: 50%-100% n: 12</p>			section topic discussions.

## Program Review - A4500 Medical Assisting

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

### Strengths:

- **Certification Exam Pass Rate:** Graduates are well-prepared to sit for the American Association of Medical Assistants certification exam and enter the workforce credentialed as a CMA (AAMA). Program graduates have maintained a 100% pass rate on the national certification exam for the last four years. Two graduates within the last five years (the most recent in 2020) obtained the highest score possible on the certification exam.
- **Quality Instruction:** The Medical Assisting Program has a reputation for providing quality instruction. Students are placed in jobs 3 to 4 months after graduation, with some being hired prior to graduation. The demand within the local workforce for CMAs (AAMA) is high.
- **Well-Prepared Graduates:** Gaston College provides an adequate budget with which to purchase instructional equipment and supplies. Students state that they are well-prepared to enter the workforce as entry-level health care professionals.
- **Instructors Trained in Blackboard:** Blackboard and Accessibility Training (BAAT) was completed by all full time and adjunct faculty.
- **Instructor Trained in Online Delivery Instruction:** One Medical Assisting instructor enrolled in professional development courses offered at Gaston College to better perfect her skills of teaching online and completed - Teaching Online, Designing Your Blended Course. 2 Instructors have completed ACUE certificate for Effective Online College Instruction

### Areas for Improvement:

- Increase enrollment in the Medical Assisting Program.
- Encourage medical assisting students to better utilize the David Belk Cannon Health Academic Center for Excellence (ACE) to receive academic assistance when experiencing academic difficulty or otherwise wanting to improve academic success skills.
- Increasing Simulation offerings for students for real-life instruction.

### Needs:

- More marketing is needed to promote the Medical Assisting Program and recruit students to meet the current workforce demand in the local workforce.
- Continued professional development for distance education.
- Implement new revised MAERB competencies.
- Adjunct faculty to meet the new needs of increased enrollment and apprenticeship opportunities.

### Actions:

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

- Work with the Marketing and Public Relations Department to continue marketing opportunities for the program.
- Participate in available professional development opportunities to increase skills in online instruction and in leadership administrative tasks.
- Apprenticeship with hospital affiliates underway.
- Medical Assisting Program faculty are adequately prepared for the Foundations of Medical Assisting courses to be delivered at the East Gaston Health Academy
- Work closely with faculty members to make sure MAERB competencies are being met in classroom effectively.

### DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	<ul style="list-style-type: none"> <li>• Diploma in Medical Assisting</li> <li>• AAS in Medical Assisting – optional but encouraged.</li> <li>• Foundations of Medical Assisting certificate at East Gaston Health Academy</li> <li>• Medical Assisting Apprenticeship starting Fall 2023</li> </ul> Continuing Education course for CMA(AAMA) Exam Review Prep for Kintegra employees
Is there anything you want to note about these diplomas, certificates, or pathways?	Continued work through Apprenticeship 321 for completion of plans for apprenticeship for medical assistants

### CONNECTION

	Rating	Explanation
<u>Viability</u> : <ul style="list-style-type: none"> <li>• How viable is the program? Consider the accompanying program viability report.</li> </ul>	A	<ul style="list-style-type: none"> <li>• The Medical Assisting program is a viable program as indicated by the Fall 2021 FTEs – 22.19</li> <li>• FTEs were reduced with the addition of a Medical Assisting Program in a neighboring college within an 18- mile radius. FTEs were also reduced due to pandemic and COVID-related issues.</li> </ul> Anticipate a decrease in operating expenses with the reduction in personnel due to retirement during the next review cycle.
<u>Uniqueness</u> : <ul style="list-style-type: none"> <li>• What do we do that sets us apart from neighboring institutions?</li> </ul>		<ul style="list-style-type: none"> <li>• Gaston College Medical Assisting graduates sit for the American Association of Medical Assistants (AAMA) certification exam, which</li> </ul>

	Rating	Explanation
<ul style="list-style-type: none"> <li>How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>		<p>is the gold standard in medical assisting certification.</p> <p>Program graduates have an excellent pass rate on the AAMA's national certification exam, well above the national average. The percentage of Gaston College medical assisting graduates who passed the AAMA's certification exam in 2021 and 2022 diploma class was 100% compared to 66% national pass rate.</p> <p>The local health care organizations continually seek to employ Gaston College medical assisting graduates. Employers are impressed with the graduates' level of knowledge and skills.</p> <p>Marketing efforts through online articles and social media posts have been very effective in highlighting the quality of the program and graduates' accomplishments.</p>

ENTRY

	Rating	Explanation
<p><u>Enrollment Goals:</u></p> <ul style="list-style-type: none"> <li>In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>What strategies have been and/or will be implemented?</li> </ul>	D	<p>The Medical Assisting Program's Enrollment/Yield Goal is 57%.</p> <ul style="list-style-type: none"> <li>The most recent rate available is 48%, which is 9% below the goal.</li> <li>In recent years, the Medical Assisting AAS program has not been able to meet the high demand of local health care organizations for medical assistants. This is in part due to the low salary offered to entry-level medical assistants. The salary for an entry-level medical assistant with an AAS degree does not yield a good return based on what the student has invested in obtaining his/her AAS degree.</li> <li>Graduates who successfully complete the diploma program can sit for the certification exam and upon successfully passing the exam, be employed as a certified medical assistant, all in one year. The diploma graduate, while working as a certified medical assistant, is encouraged to return and complete their associate degree in medical assisting in the evening program.</li> </ul>

	Rating	Explanation
		The Medical Assisting Program currently only admits one cohort a year but will start a summer cohort in Summer 2023.

## PROGRESS

	Rating	Explanation
<u>SLOs and Curriculum Map:</u> <ul style="list-style-type: none"> <li>Attach curriculum map and analysis of program learning outcomes.</li> </ul>		See attached
<u>Retention and Progression:</u> <ul style="list-style-type: none"> <li>How does program retention compare to the retention goal?</li> <li>What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	O	<p>The Medical Assisting Program's Retention Goal is 49%.</p> <ul style="list-style-type: none"> <li>The program met and exceeded its retention goal for the 2021-2022 academic year. The retention rate for 2021-2022 was 75%.</li> <li>Of the 2021 diploma class, 11 of the 11 students have successfully passed the CMA (AAMA) exam.</li> <li>Of the 2022 Diploma class, 9 of the 10 students successfully passed the CMA (AAMA) exam. The remaining student has decided to stay in her role as a CNAI.</li> </ul> <p>The barriers to retention are usually financial and/or life factors. Many community college students work full time jobs and/or have other responsibilities/obligations outside of school that prohibit them from successfully completing the program.</p>
<u>Demographics:</u> <ul style="list-style-type: none"> <li>What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>		<ul style="list-style-type: none"> <li>Males make up only 4.44% of the student population in the diploma degree program with females making up 95.56%. The demographics for the 2021-2022 diploma degree program consists of 75.56% White, 17.78% Black/African American, and 2.228% unknown.</li> </ul> <p>The college has many support programs for its students but those that would support underserved populations include college scholarships, financial aid, and TRIO. Strategies for academic support, include TRIO/Student Support Services, peer tutoring, Men of Excellence (male mentoring program), and the Writing Center.</p>
<u>Course Sequence:</u> <ul style="list-style-type: none"> <li>Are courses (including general education and elective courses)</li> </ul>		<ul style="list-style-type: none"> <li>Courses are sequenced in a way that students build upon previously learned knowledge and skills from the simple to the complex.</li> </ul>

	Rating	Explanation
<p>selected and sequenced in a way that makes sense?</p> <ul style="list-style-type: none"> <li>• Are courses filled at an appropriate rate?</li> </ul>		<p>The Medical Assisting Program currently admits one cohort per academic year, in the fall semester, in its diploma program. Courses are only offered in sequence, i.e., MED 140 Fall semester → MED 240 the following Spring semester so that students build on previous knowledge. The course sequencing will stay the same with the summer cohort.</p> <p>Courses are filled at an appropriate rate due to the sequencing of courses.</p>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>		<p>Courses in the Medical Assisting Program have traditionally been seated; however, the program is beginning to integrate theory content online in some medical assisting courses. The accrediting agency for the program has strict guidelines pertaining to the evaluation of psychomotor and affective competencies, which requires face-to-face contact. Some courses have moved online that do not have a lab component. All classes that have a lab component are either web-blended or face to face.</p>
<p><u>Evaluation:</u></p> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>		<ul style="list-style-type: none"> <li>• End-of-Course evaluations are overall positive. Students indicate that instructor support is a valuable resource provided to them from the medical assisting faculty. The Program Chair reviews all end-of-course evaluations with program faculty. If negative student feedback about an instructor is a valid concern, the concern is addressed through a coaching session with the instructor. If the feedback is a suggestion for improvement in the program or a concern about program guidelines, etc. then it is addressed at the level of the program chair, and the divisional dean if necessary, and the appropriate action warranted is taken.</li> </ul>

COMPLETION

	Rating	Explanation
<p><u>Student Achievement:</u></p> <ul style="list-style-type: none"> <li>• Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>		
<p><u>Graduation:</u></p> <ul style="list-style-type: none"> <li>• How does the actual awards/headcount percentage</li> </ul>		<p>The Medical Assisting Program's Awards/Headcount Goal is 59%.</p>

	Rating	Explanation
<p>compare to the awards/headcount goal?</p> <ul style="list-style-type: none"> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>		<p>The awards/headcount percentage for the Medical Assisting Program in 2021 was 60%, which is above the goal. Barriers for timely student completion in the Medical Assisting Program may be due to problems with personal finances, personal/family concerns outside of school, and/or the student cannot successfully complete the required general education courses in the program's curriculum and COVID-19 pandemic.</p>

TRANSITION

	Rating	Explanation
<p><u>Job Placement/Transfer:</u></p> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>		<ul style="list-style-type: none"> <li>• Diploma Graduates are typically employed or continuing their education by September after graduating in August.</li> </ul> <p>In 2021, 10 of the 13 diploma graduates, who passed the certification exam, were employed full-time as medical assistants immediately upon completing the program. One student who did not take the exam continues to work as an industrial supervisor, one student who developed health issues and cannot be reached at this time, and one moved to another state.</p> <p>In 2022, 7 of the 10 diploma graduates, who passed the certification exam, were employed full-time as CMA (AAMA).</p>
<p><u>Community:</u></p> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>		<ul style="list-style-type: none"> <li>• The Gaston College Medical Assisting Program offers a diploma and an A.A.S. degree in medical assisting to meet the needs of local health care organizations.</li> <li>• The Gaston College Medical Assisting Program partners with local medical practices to provide clinical sites for its medical assisting students to complete their eight-week clinical practicum. Many of the medical practices employ the program's graduates after practicum. This partnership benefits the program through providing clinical sites for its students and the local community healthcare organizations by providing well-trained, knowledgeable entry-level medical assistants for employment upon graduation.</li> </ul>

	Rating	Explanation
		<p>A collaboration between the Medical Assisting Program, the Gaston College Continuing Education Department's 321 Apprenticeship Program, and one of the three largest local health care organizations could result in a medical assisting apprenticeship to fill the need for medical assistants within the organization.</p> <p>The Medical Assisting Program meets with its advisory committee twice a year, in the fall and spring semesters. The Advisory Committee for the Medical Assisting Program provides guidance to the program in areas such as curriculum, program admission requirements, and continuing education offerings by the program for area medical assistants. The program's annual report to its accrediting agency is shared each year with the advisory committee along with average graduate certification scores and pass rates. The Advisory Committee feedback validates the excellence of the program and its graduates.</p>

ADDITIONAL INFORMATION

	Comments
<p>Please include any additional data and/or information related to program-level accreditation.</p>	<ul style="list-style-type: none"> <li>• The Medical Assisting Review Board (MAERB) made provisions for the impact of COVID. The provisions are contained in an official MAERB statement. The complete MAERB COVID-19 Statement is available on the MAERB website (<a href="http://www.maerb.org">www.maerb.org</a>) on the Reference tab.</li> <li>• MAERB's COVID-19 statement: "As we are living in unprecedented times, we have needed to make unprecedented adaptations. Even in this chaotic period, the central goal of a CAAHEP-accredited medical assisting program remains the same: producing competent entry-level medical assistants and preserving patient and student safety. At the same time, the pathway to producing those competent entry-level medical assistants may vary. As outlined in the MAERB COVID-19 Statement, the programs can implement a broader-than-normal range of approaches to the practicum, including simulation, through the Sunset Date of December 31, 2021."</li> <li>• The Sunset Date for this specific MAERB COVID-19 allowance is currently set for December 31, 2021. A survey will be sent out by the MAERB Office in late October 2021 to determine the access that programs currently have to lab</li> </ul>

	within the health care community.	within the health care community.	85% on this artifact.					

### Student Learning Outcomes – D45400 Medical Assisting

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
1.	Communicate effectively as a health care professional to a diverse population.	Students will demonstrate competency in the ability to communicate through role play scenarios by using a faculty driven rubric to evaluate student performance on communication in MED 240.	On average, students will earn at least 90% on this artifact.	Spring 2022 Mean: 100% Mean of Completers: 100% Range: 80% - 100% n:11	Students were able to achieve 100% on this outcome. Current scenarios are proven successful and will be used for evaluations	No changes at this time.	Scores increased from previous year.	Create environments and activities that provide opportunities for students to engage in critical thinking. Risk-free environment to improve patient safety.
2.	Perform administrative competencies related to the practice of medical assisting utilizing necessary computer applications when applicable.	Faculty will observe and grade students on administrative competencies by using a rubric for role play project in MED 130 which incorporates manual and computer applications.	On average, students will earn at least 80% on this artifact.	Spring 2022 Mean: 95.8% Mean of Completers: 95.8% Range: 89.6%-99.3% n:11	Students were able to achieve 95.8% or greater on this outcome. Simulation with part manual application and part computer application. Based on rubric grading.	Administrative instructor needs further guidance in developing scenarios for use in simulation lab for students understanding of real-world activity.	More simulation activities were introduced and students had a better understanding of the topics with hands on approach.	Continue with simulation and hands on skills in EHR playground. Trying to get permission from health affiliates to have access to their HER program for student training.

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
3.	Perform clinical competencies related to the practice of medical assisting.	Faculty will observe and grade students on assisting with minor office surgery in MED 240.	On average, students will earn at least 90% on this artifact.	Spring 2022 Mean: 99% Mean of Completers: 99% Range: 94%-100% n:10	Students were able to achieve 99% or greater on this outcome. Students have the skill evaluation check off list prior to coming to validate the skill.	No changes at this time.	Scores increased from previous year.	Continue to assess class average and achievement of this skill successfully.
4.	Perform laboratory procedures related to the physician's office laboratory.	The faculty will observe and grade students performing blood collection in MED 150.	Student will achieve at least an 85% or higher on MED 150 venipuncture	Spring 2022 Mean: 96% Mean of Completers: 96% Range: 90%-100% n:10	Students were able to achieve 96% or higher on this venipuncture outcome.	No changes at this time.	Scores increased from previous year. Purchased new simulation venipuncture arms for a more real-life experience.	Continue to provide one-on-one remediation to students who are not successful on their first attempt at skill evaluation.
5.	Implement legal and ethical concepts in the medical office setting.	Faculty will assess students' knowledge through legally ethical concept scenarios in MED 118.	On average, students will earn at least 80% on this artifact.	Spring 2022 Mean: 97% Mean of Completers: 97% Range: 70%-100% n:11	Students were able to achieve 97% or greater on this outcome.	No changes at this time.	No changes at this time.	Continue to assess class average and achievement of this skill successfully. Add more discussion case studies.
6.	Demonstrate knowledge of biological sciences, medical terminology, and disease processes	Faculty will assess students' knowledge through testing in MED 122	On average, students will earn at least 85% on this artifact.	Fall 2021 Mean: 89.1% Mean of Completers: 89.1% Range: 69%-100% n:11	Students were able to achieve 89.1% or greater on this outcome for the MED 122 Unit Exam.	Utilizing more HHS ACE appointments with students.	Scores increased from previous year.	Have students elaborate more on pathophysiology assignments to ensure retainment and research of topic.
7.	Demonstrate knowledge of management	Faculty will assess students'	Student will achieve at least an 85%	Spring 2022 Mean: 91.6%	Students were able to achieve 91.6% or greater on this	No changes at this time.	More simulation trainings implemented	Continue to assess class average and achievement of

## Program Review – A25310 Medical Office Administration

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The mission and purpose of the Medical Office Administration (MOA) degree programs at Gaston College are to provide students with the knowledge base for employment in hospitals, nursing facilities, assisted living facilities, medical offices, and emergency medical facilities. Students in the Medical Office Administration-General (GE) track may answer phones, schedule appointments, process payments and insurance information, handle voice reminders for appointments, and other front office duties as assigned. Students in the Medical Office Administration-Billing and Coding (MC) track will process patient insurance information, file insurance claims, resubmit insurance claims as needed/requested, and other front office duties as assigned.

#### Strengths

The medical-focused classes provide students with a vast background in the terminology and procedures and tasks required of medical office professionals. The office administration classes in this program ensure students understand the procedures for completing office tasks performed in a medical facility. The Medical Office Administration program maintains a great relationship with Work Based Learning. Many of our students have had the opportunity to work while enrolled in our program. These opportunities have led to many of our students gaining full-time positions in medical facilities.

#### Areas of Improvement

Some areas of improvement include:

- Increasing recruitment efforts
- Increasing response rates for graduate surveys
- Tracking graduate employment and success
- Continue to work with the Advisory Board to ensure the students are gaining applicable skills for the workplace.

#### Needs

With Guided Pathways and the System Office moving our programs to a parent program with tracks beneath the parent, assistance is needed with marketing each of the “child” programs (tracks).

Continuous technological advances require up-to-date computer labs that provide students with current skills. With the onset of COVID-19, the department needs to explore opportunities for offering students an online option for the Microsoft Office Specialist certification testing. Additionally, the focus should be on allowing faculty to attend conferences to stay abreast of technological changes and to network with peers on successful recruitment ideas and setting up courses.

#### Actions

- Work with the Work Based Learning Department to assist in monitoring student employment.

Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

- Work with the Marketing Department to promote the Medical Office Administration program tracks.
- Work with Technology Services Department to ensure labs are updated to maintain the latest in technology advancements.
- Continue to promote and provide Microsoft Office Specialist certification testing.

Due to low enrolment in A25310DS Medical Office Administration Document Specialist and D25310DS Medical Office Administration Document Specialist, the decision was made to discontinue these degree and diploma programs in the November 2021 Curriculum Committee meeting.

DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	<ul style="list-style-type: none"> <li>• A25310GE Medical Office Administration-General</li> <li>• D25310GE-Medical Office Administration-General Diploma</li> <li>• A25310MC-Medical Office Administration-Billing and Coding</li> <li>• D25310MC-Medical Office Administration-Billing and Coding Diploma</li> </ul>
Is there anything you want to note about these diplomas, certificates, or pathways?	

CONNECTION

	Rating	Explanation
<p><u>Viability</u>:</p> <ul style="list-style-type: none"> <li>• How viable is the program? Consider the accompanying program viability report.</li> </ul>		<p>The Medical Office Administration had an FTE count of 100.28 for Fall 2022. Medical Office Administration is a viable program for Gaston College and other institutional programs.</p> <p>The MOA program has one parent program with two child programs (tracks): General (GE) and Billing and Coding (MC). Within each of the tracks, students can choose to obtain an associate degree or diploma. Often, students return for retraining with a diploma program.</p> <p>Due to the low enrolment in the Document Specialist child program, the decision was made to discontinue both the degree and the diploma will be discussed for removal at the November</p>

	Rating	Explanation
		<p>2021 Curriculum Committee meeting. The Medical Office Administration Document Specialist certificate was removed in October 2020.</p> <p>Many medical facilities require an associate degree for advancement, making our Medical Office Administration General and Billing/Coding programs vital to the communities we serve.</p>
<p><u>Uniqueness:</u></p> <ul style="list-style-type: none"> <li>• What do we do that sets us apart from neighboring institutions?</li> <li>• How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>		<p>The Medical Office Administration General program allows students to gain the knowledge to be successful in a hospital, nursing facility, Emergency Medical Services, and in medical offices. The Medical Office Administration Billing and Coding program takes that a step further by giving students the knowledge of coding procedures for each of the facilities as listed above. After obtaining the degree and work experience, the students are eligible to sit for a national coding certification.</p> <p>Our MOA instructors would love to have more marketing for these programs. They are vital to the facilities where our students work. Through Guided Pathways, the instructors took a hard look at the program and adjusted the curriculum to include the courses that are pertinent for success in this industry.</p> <p>Through Work-Based Learning, students gain valuable skills and work experience in Gaston and Lincoln counties. Many MOA students have been hired full-time after their Work-Based Learning experiences.</p>

ENTRY

	Rating	Explanation
<p><u>Enrollment Goals:</u></p> <ul style="list-style-type: none"> <li>• In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>• What strategies have been and/or will be implemented?</li> </ul>		

PROGRESS

	Rating	Explanation
<p><u>SLOs and Curriculum Map:</u></p> <ul style="list-style-type: none"> <li>• Attach curriculum map and analysis of program learning outcomes.</li> </ul>		See attached Curriculum Map and Program Learning Outcome Data.
<p><u>Retention and Progression:</u></p> <ul style="list-style-type: none"> <li>• How does program retention compare to the retention goal?</li> <li>• What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>		<p>The Medical Office Administration Program had a 67% retention rate from Fall 2021 to Spring 2022.</p> <p>Through Success Coaching of our students, the MOA department encourages student participation and helps students to stay on track. Through Spring 2022, Watermark (formerly Aviso) and email were utilized for faculty/student communications.</p> <p>Many of the MOA students work full-time jobs and have families, creating challenges for taking full-time course loads. Thus, many MOA students take reduced courseloads.</p>
<p><u>Demographics:</u></p> <ul style="list-style-type: none"> <li>• What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>		There are more females than males in the Medical Office Administration programs. In the past, it has been typical for a Medical Office Administration position to be filled by a female. Marketing efforts and MOS certification opportunities may yield more interest in the program by males.
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>		<p>Course sequencing in the Medical Office Administration programs must be considered carefully. Many of the courses in this program have state prerequisites that must be met to progress in the program.</p> <p>Students have a good balance of general education courses in addition to the courses that are part of their major. The department strives to have consistency with the first fall semester in each track to allow students the opportunity to change tracks, if necessary, without losing credit for completed coursework. Faculty members advise students throughout the program to keep them on track and ensure all state prerequisites for the advanced courses.</p> <p>Course demand and historical enrollment trends are used to create schedules for each semester. The MOA/OA department strives to offer</p>

	Rating	Explanation
		courses seated as well as online to accommodate the students' modality choice.
<u>Modality:</u> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>		<p>The MOA program offers courses in hybrid and online formats. Most hybrid classes are offered during the day and seem to suit student needs. The MOA program offers all courses online to market the program as a completely online program as online courses tend to be the most popular modality for MOA students. Due to COVID-19, we only have data for online course method delivery.</p>
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>		<p>Course evaluations are conducted in all Career and Technical Education classes in the fall and spring semesters. For the summer term, courses offered as summer only are evaluated. All faculty members and program chairs have access to the course evaluations. Overall, the feedback from the course evaluations is positive. Faculty members in the MOA programs review feedback from evaluations and utilize the feedback to determine if any changes need to be made to the courses.</p>

COMPLETION

	Rating	Explanation
<u>Student Achievement:</u> <ul style="list-style-type: none"> <li>• Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>		<p>Student completion is a top priority for Medical Office Administration and Office Administration faculty members. Specific guidelines provided through Guided Pathways have helped to reduce the number of required program hours for completion.</p> <p>Depending on family and work situations, many students transition back and forth between full-time to part-time statuses, preventing timely completion of the program. MOA faculty members encourage students to persist and retain in meeting their higher education goals based upon students' nonacademic responsibilities.</p>
<u>Graduation:</u> <ul style="list-style-type: none"> <li>• How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> </ul>		<p>The Medical Office Administration program had an awards/headcount ratio of 37%. The headcount in the Medical Office Administration was 249. The total number of awards was 92, with 25 at the highest level. This yields an awards/headcount ratio of 37%. There</p>

	Rating	Explanation
<ul style="list-style-type: none"> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>		<p>is no stated awards/headcount ratio goal for the College during the 2021-2022 academic year. Student completion is the top priority of the Medical Office Administration faculty members. Specific guidelines provided through Guided Pathways have helped to reduce the number of required hours for completion. Depending on family and work situations, many students transition back and forth from full-time to part-time status, preventing timely completion of the program. MOA faculty members encourage students to persist and retain in meeting their higher education goals based upon students' nonacademic responsibilities.</p>

TRANSITION

	Rating	Explanation
<p><u>Job Placement/Transfer:</u></p> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>		<p>According to JobsEQ data, medical secretaries and administrative assistant positions have had a five-year historical annual growth of 3.3% with a five-year forecasted annual growth of 1.5%. The unemployment rate is very low at 1.9%</p>
<p><u>Community:</u></p> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>		<p>Bi-annual Advisory Board meetings are conducted. The Advisory Board is made up of professionals from the community who hold positions in the medical field that our students would pursue as well as positions of hiring managers. During the meetings, members discuss the needs of their companies, evaluate sequencing, and offer suggestions to improve the programs. Our Advisory Board has been very supportive of the child programs. Many members state having a specialization in an area will help the students stand out when interviewing and will also assist in furthering their careers.</p> <p>The Medical Office Administration program is fortunate to have a great working relationship with Work Based Learning. Each semester, we have students working in the field for a major hour elective credit while gaining valuable hands-on work experience. The WBL experiences are primarily positive for both the students and the employers.</p>

## ADDITIONAL INFORMATION

	Comments
Please include any additional data and/or information related to program-level accreditation.	<p>The MOA Program meets the National Healthcareer Association (NHA) guidelines. MOA students qualify to sit for NHA's certified medical administration assistant (CMAA) examination. According to the 2020 Industry Outlook, 75% of employers require or encourage certification for medical administrative assistants.</p> <p>Recommendations: Achieve MOA Program accreditation. Encourage students to seek CMAA status.</p>

## Program Review – A45110 Associate Degree Nursing

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

Strengths: Nationally Accredited program, graduates sought after by local healthcare facilities.

Areas for Improvement: Retention of students and utilization of Nurse Think products to prepare graduates for the NextGen NCLEX.

Needs: Faculty professional development on NextGen NCLEX and utilization of Nurse Think products. Recruitment of qualified full-time and adjunct faculty.

Action: Professional development webinars are shared with faculty from Nurse Tim and Nurse Think. Faculty meet each semester with our assigned Nurse Educator from Nurse Think. Working directly with CaroMont health to help recruit new adjunct clinical instructors in specialty areas.

## Student Learning Outcomes – A45110 Associate Degree Nursing

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
1	Practice professional nursing behaviors incorporating personal responsibility and accountability for continued competence.	Direct Measure: Faculty will evaluate all NUR 213/223 students on their ability to effectively demonstrate nursing behaviors that are consistent with the NCBON RN Scope of Practice on the clinical evaluation tool.	On average, students will earn at least an evaluation of satisfactory on this artifact.	100% of graduates	Nursing skills, communication, safety, prioritization	Time management	Faculty assigned to group of students to follow as Success Coach and/or Academic Coach-provided more contact with students at risk for being unsuccessful	Faculty to attend workshops conducted by NurseThink leadership to change standardized testing from ATI to NurseThink beginning Fall 2022
2	Communicate professionally and effectively with individuals, significant support person(s), and members of the interdisciplinary healthcare team.	Direct Measure: All NUR 111 students will successfully complete the ATI Civility Mentor certificate for Foundations of Professionalism and Civility.	On average, students will earn at least satisfactory on this artifact.	95%	Objective standardized test.	Faculty considering change to NurseThink standardized tests.	Will continue to evaluate and re-evaluate	Review at end-of-course meeting and develop a measurable assessment for the change to NurseThink resources beginning Fall 2022
3	Integrate knowledge of the holistic needs of the individual to provide an individual centered assessment.	Direct Measure: All NUR 111 students will be evaluated on their ability to satisfactorily complete a holistic assessment during the Holistic Assessment Simulation utilizing a faculty developed rubric.	On average, students will earn at least a satisfactory on this artifact.	100%	Students have didactic instruction, lab instruction with practice and check-off, then one-on-one with clinical instructor.	Grading rubric is subjective. Need to review using objective grading scale.	Students will have access to rubric prior to check-off in order to practice and understand how they will be assessed and how the grade is determined.	Review at end-of-course meetings.

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
4	Incorporate informatics to formulate evidence-based clinical judgments and management decisions.	Direct Measure: Each NUR 112 student will submit documentation in the EHR (DocuCare) without errors by the end of NUR 112.	On average, students will earn at least 100% on this artifact.	100%	Students have opportunity to use EHR (DocuCare) for clinical assignment and simulation lab assignments.	Grading rubric is subjective. Need to review using objective grading scale.	Students will have access to rubric prior to EHR assignments in order to understand what is required documentation and how the grade is determined.	Review at end-of-course meetings.
5	Implement caring interventions incorporating documented best practices for individuals in diverse settings.	Direct Measure: All NUR 212 students will be evaluated on their ability to plan and implement a teaching project on a regional, state or national health/wellness and illness initiative be graded on a faculty developed rubric.	On average, students will earn at least 80% on this artifact.	95%	Opportunity for students to participate in evidence-based practice initiatives on local, state, or national level.	Grading rubric is subjective. Need to review using objective grading scale.	Students will have access to rubric along with instructions for completion of a teaching project in order to understand what is required to complete the project and how the grade is determined.	Review at end-of-course meetings.
6	Develop a teaching plan for individuals, and/or the nursing team, incorporating teaching and learning principles	Direct Measure: All NUR 114 students will develop and present a teaching plan for a client with congestive heart failure that and be evaluated on a faculty developed rubric.	On average, students will earn at least 80% on this artifact.	95%	Opportunity for students to participate in evidence-based practice initiatives observed in clinical experience.	Grading rubric is subjective. Need to review using objective grading scale.	Students will have access to rubric along with instructions for developing and presenting a teaching plan for a client with congested heart failure in order to understand what is required to complete the plan and how the grade is determined.	Review at end-of-course meetings.
7	Collaborate with the interdisciplinary healthcare team to advocate for positive	Direct Measure: NUR 112 students will be required to round with other disciplines such as PT, RT and social	On average, students will earn at least 80% on this artifact.	95%	Opportunity for nursing students to collaborate with other interdisciplinary team members.	Grading rubric is subjective. Need to review using objective grading scale.	Students will have access to rubric along with instructions for completion of a client care plan with at least one interdisciplinary	Review at end-of-course meetings.

## Program Review – D45660 Practical Nursing

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

Strengths: Ranked #1 PN program in NC second year in a row, consistent high NCLEX-PN passage rates, graduates highly sought after by area healthcare agencies after graduation.

Areas for Improvement: Increase retention of both day and evening PN cohorts. Integrate Nurse Think into the curriculum to prepare the graduates to be successful on the new NCLEX.

Needs: Fill evening vacant full-time instructor position, hire additional qualified adjunct faculty to assist with clinical rotations.

Actions: Share program review with faculty in faculty meetings so data can be assessed for improvements, share needs and areas of improvement with administration and stake holders for the program and college, offer NextGen training for faculty.

## Program Review – A25370 Office Administration

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

The mission and purpose of the Office Administration (OA) degree programs at Gaston College are to provide students with the knowledge base that will allow them to work in a variety of office environments, including real estate, manufacturing, industrial, banking or financial institutions, government offices and schools, and any other general businesses. Students in the Office Administration track will greet clients, answer phones, file, create documents, organize projects, maintain inventories, interact with customers, clients, co-workers, perform budgeting and payroll dealings, maintain accurate financial records., and perform other front office duties as assigned.

### Strengths

The office-focused classes provide students with a vast background in the terminology and procedures/tasks that an office professional may be required to perform in an office environment/facility. Students develop an understanding of handling minutes for meetings, organizing travel, providing customer service, and using various types of software. Students also learn the procedures for completing tasks performed in an office environment/facility. The program has a great relationship with Work Based Learning. Many students have had the opportunity to work while enrolled in our program. These opportunities have led to many students getting positions in offices in various facilities.

### Areas of Improvement

Focus on helping students obtain their MOS certifications.  
Increase recruiting efforts in program and reach out to local businesses.  
Increase Zoom sessions virtually for student questions.

### Needs

Continue allowing us to attend conferences to stay abreast of technological changes and to network with peers on successful recruitment ideas and setting up courses.

### Actions

- Continue to work with the Work Based Learning Department to assist in monitoring student employment.
- Work with the marketing department to promote Office Administration

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

- Work with technology services to ensure labs are updated to maintain the latest in technology advancements.
- Continue to promote and provide Microsoft Office Specialist certification testing.

Based on enrollment the past few semesters, we removed the Office Administration Office Finance and Office Administration Software Specialist degree and diplomas beginning Fall 2022.

### DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	A25370GE-Office Administration-General D25370GE-Office Administration-General Diploma C25370GE-Office Administration-General Certificate C25370CS-Office Administration-Customer Service Certificate
Is there anything you want to note about these diplomas, certificates, or pathways?	We are working with Adult High School and GED program for students to transition to a college degree.

### CONNECTION

	Rating	Explanation
<u>Viability</u> : <ul style="list-style-type: none"> <li>• How viable is the program? Consider the accompanying program viability report.</li> </ul>		Office Administration had an FTE count of 25.56 for Fall 2022. The Office Administration program is a viable program for the school and for other programs. Some of the course offerings in the Office Administration program are also a part of other course offerings in various programs at the college.
<u>Uniqueness</u> : <ul style="list-style-type: none"> <li>• What do we do that sets us apart from neighboring institutions?</li> <li>• How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>		<p>Through Guided Pathways, we have aligned the program to reduce the number of hours of completion to be close to the same number of hours in programs in the surrounding counties.</p> <p>In OA, we work with WBL to help students gain experience in the field. Many of these experiences have resulted in full-time employment for our students.</p> <p>By working with the Adult High School and GED programs, some students can transition to</p>

	Rating	Explanation
		college courses and pursue their degree in Office Administration.

## ENTRY

	Rating	Explanation
<u>Enrollment Goals:</u> <ul style="list-style-type: none"> <li>In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>What strategies have been and/or will be implemented?</li> </ul>		

## PROGRESS

	Rating	Explanation
<u>SLOs and Curriculum Map:</u> <ul style="list-style-type: none"> <li>Attach curriculum map and analysis of program learning outcomes.</li> </ul>		See attached PLOs and Curriculum Map
<u>Retention and Progression:</u> <ul style="list-style-type: none"> <li>How does program retention compare to the retention goal?</li> <li>What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>		<p>The Office Administration-General program had a 100% Fall 2021-Spring 2022 retention rate.</p> <p>Through Success Coaching for our students, the OA department encourages student participation and helps students to stay on track. Watermark and email are both utilized to help track communication between the faculty member and student.</p> <p>Many of our students work full-time jobs and have families which makes it difficult to take a full load of courses. Therefore, many of our students are part-time students.</p>
<u>Demographics:</u> <ul style="list-style-type: none"> <li>What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>		There are more females (92%) than males (8%) in the Office Administration programs. In the past, it has been typical for an Office Administration position to be filled by a female, but marketing efforts and MOS certification opportunities may yield more interest in the program by males.
<u>Course Sequence:</u> <ul style="list-style-type: none"> <li>Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>Are courses filled at an appropriate rate?</li> </ul>		Course sequencing in the Office Administration programs must be carefully considered. Many of the courses in this program have state prerequisites that must be met to progress in the program.

	Rating	Explanation
		<p>Students have a good balance of general education courses in addition to the courses that are part of their major. Advisors advise students throughout the program to keep them on track and ensure all state prerequisites for the advanced courses.</p> <p>Course demand and historical enrollment trends are used to create schedules for each semester. The OA department strives to offer courses seated as well as online to accommodate the students' modality choice.</p>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>		<p>The students can take all courses online if they choose. We do offer an option on the schedule for students to take courses (OST 137 Office Applications, OST 153 Office Finance Solutions, and OST 286 Professional Development) in a hybrid format. Many semesters these do not make, as we have found students prefer the online opportunities.</p>
<p><u>Evaluation:</u></p> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>		<p>Course evaluations are conducted in all Career and Technical Education courses in the fall and spring semesters. For the summer term, courses offered as summer only are evaluated. All faculty members and program chairs have access to the course evaluations. Overall, the feedback from the course evaluations is positive. Faculty members in the OA programs review feedback from evaluations and utilize the feedback to determine if any changes need to be made to the courses.</p>

COMPLETION

	Rating	Explanation
<p><u>Student Achievement:</u></p> <ul style="list-style-type: none"> <li>• Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>		<p>OST 137 Office Applications I has a 26% withdrawal rate. Many students do not realize until they are in the course that they need to be in a seated format.</p> <p>OST 184 Records Management and OST 284 Emerging Technologies have shown low enrollments. OST 284 is being replaced with OST 145 Social Media for the Office Professional in hopes that it will have more of an interest for students. OST 184 was removed from the medical tracks when the program went through a State Improvement Project. This has lowered the numbers on the course since it is</p>

	Rating	Explanation
		only in the Office Administration program.
<u>Graduation:</u> <ul style="list-style-type: none"> <li>• How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>		<p>The Office Administration program had an Awards to Headcount ratio of 75%.</p> <p>Student completion is the top priority of the Office Administration faculty members. Specific guidelines provided through Guided Pathways have helped to reduce the number of required hours for completion.</p> <p>Depending on family and work situations, many students transition back and forth from full-time to part-time status, preventing timely completion of the program. OA faculty members strive to counsel students to continue their education, even if only one course can be taken during a semester.</p>

TRANSITION

	Rating	Explanation
<u>Job Placement/Transfer:</u> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>		<p>Our students have been successful in the past. According to the Jobs Eq, Office Clerks will see an increase in annual growth of 0.4%. Office and Administrative Support Workers will see an increase in annual growth of 1.4%. Although the expected growth for Secretaries and Administrative Assistants is low, the unemployment rate for those working in the field is only 2.7%.</p>
<u>Community:</u> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>		<p>Bi-annual Advisory Board meetings are conducted. The Advisory Board is made up of professionals from the community who hold positions our students would pursue as well as positions of hiring managers. During the meetings, members discuss the needs of their companies, evaluate sequencing, and offer suggestions to improve the programs. Our Advisory Board has been very supportive of our program.</p> <p>Through MOS certifications, our students have more of an opportunity to make more money and an advantage when starting their career. The Office Administration program is fortunate to have a great working relationship with Work Based Learning. Each semester, we have students working in the field for a major hour elective credit while gaining valuable hands-on</p>

	Rating	Explanation
		work experience. The WBL experiences are primarily positive for both the students and the employers.

## Program Review – A25380 Paralegal Technology

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

### STRENGTHS:

- Faculty/adjuncts have strong connections to local legal employers.
- Courses are scheduled to meet student needs, utilizing live, virtual technology.
- Faculty/adjuncts are NC-licensed attorneys.
- Program coursework is geared toward practical, real-life paralegal work.
- NC State Bar Qualified Paralegal Program

### AREAS OF IMPROVEMENT:

- The program could use more legal connections in Lincoln County.
- Students would benefit from more field trips/enrichment or volunteer opportunities.
- With only one full-time faculty member, it is hard to grow the program and keep up with course development.

### NEEDS:

- Additional adjuncts and personnel support are needed for teaching, course development, and growing the program. (It is challenging to get licensed attorneys to work for adjunct pay.)

### ACTIONS:

- Curriculum changes for Fall 2023 will help with limited Paralegal faculty/adjuncts. Some course content will be shifted from courses that will be removed from the program. BUS 115 – Business Law I will be utilized instead of LEX 220 - Corporate Law.
- Brainstorm ways to get better virtual student engagement/participation.
- CJC 131 will be adding a Global enrichment component.

## DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	Paralegal Technology, AAS (A25380) Paralegal Technology-Paralegal Office Administration Certificate (C25380)
Is there anything you want to note about these diplomas, certificates, or pathways?	The certificate includes both Paralegal and Office Administration courses, allowing students to preview both programs. Skills are transferrable in these programs.

## CONNECTION

	Rating	Explanation
<u>Viability:</u> <ul style="list-style-type: none"> <li>How viable is the program? Consider the accompanying program viability report.</li> </ul>	O	<p>Enrollment decreased from Fall 2020-Fall 2021 but increased in Spring 2022.</p> <p>As far as cost, program viability for Paralegal is grouped with Criminal Justice in the viability report. With only one full-time faculty member and limited program expenses, the program is viable.</p>
<u>Uniqueness:</u> <ul style="list-style-type: none"> <li>What do we do that sets us apart from neighboring institutions?</li> <li>How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>	O	<p>The program is a NC State Bar Qualified Paralegal Program, which allows graduates to take the NC Certified Paralegal Exam. This also requires nine (9) live classroom hours of teaching in the program.</p> <p>Using live/virtual technology helps with accommodating student needs. Faculty/adjuncts are well-connected to jobs in our service area.</p> <p>Marketing efforts have increased this year; the program has been highlighted in social media posts and in a virtual information session (Summer 2022).</p>

## ENTRY

	Rating	Explanation
<u>Enrollment Goals:</u> <ul style="list-style-type: none"> <li>In comparison to neighboring institutions, how do program hours compare? What are <b>the differences</b> in major <b>courses</b>?</li> <li>What strategies have been and/or will be implemented?</li> </ul>	O	<p>The program currently has 68 hours but will decrease to 64 in Fall 2023.</p> <ul style="list-style-type: none"> <li>Caldwell CC = 64 hours</li> <li>Central Piedmont CC = 71 hours</li> <li>Western Piedmont CC = 67 hours</li> </ul>

PROGRESS

	Rating	Explanation
<p><u>SLOs and Curriculum Map:</u></p> <ul style="list-style-type: none"> <li>• Attach curriculum map and analysis of program learning outcomes.</li> </ul>	A	Students are meeting expected outcomes, but measurement tools should continually be evaluated for improvement.
<p><u>Retention and Progression:</u></p> <ul style="list-style-type: none"> <li>• How does program retention compare to the retention goal?</li> <li>• What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>		<p>Program retention from Fall 2020-Fall 2021 was only 25%, but retention from Fall 2021-Spring 2022 was 100%.</p> <p>Faculty/adjuncts work hard to engage with and encourage students, but many Paralegal students work full-time, have families, and encounter life issues out of their control. For example, in Spring 2022, LEX 170 had a high withdrawal rate (44%), but through communication with students, faculty discovered almost all were withdrawn for personal reasons, including deaths in the family, domestic situations, and issues managing Covid-19 exposures with children.</p> <p>Courses with virtual (live) class requirements have higher withdrawal rates but “live” hours are a requirement for Qualified Paralegal Studies Programs by the NC State Bar.</p> <p>The highly sequenced nature of the program can often be a barrier for students. If they miss or fail a course, it is not offered again for a year.</p> <p>Students in the LEX prefix is less successful (77%) than the college average (90%). LEX courses require strong writing, research, and analytical skills. This is an opportunity for the program to brainstorm ways to increase that success rate.</p>
<p><u>Demographics:</u></p> <ul style="list-style-type: none"> <li>• What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>		<p>The Paralegal Technology program consistently has more females (82%) than males (18%). White students make up 76% of the student population; 12% are Black and 9% are Hispanic. This career seems to attract an older student population; 68% of students are over the age of 45. This data shows there are opportunities to recruit a more diverse student group.</p> <p>19 students reside in Gaston County, 7 in Lincoln County, and 7 in surrounding counties (Mecklenburg, Iredell, Cleveland, Rutherford.)</p>

	Rating	Explanation
		With live, virtual classes available now, there might be opportunities to expand the program into other areas that do not offer this program. The Gaston College Paralegal program is consistently between #9 and 11 in comparing Paralegal enrollment state-wide, and it is the same as NCCCS with respect to percentage change in enrollment (-21%).
<u>Course Sequence:</u> <ul style="list-style-type: none"> <li>• Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>• Are courses filled at an appropriate rate?</li> </ul>		<p>Program sequencing is straightforward and efficient. Only one section of each LEX course is offered each year, so it is vital that students are well-advised. This can be problematic if a student has to take a semester off.</p> <p>Course fill-rates are hard to control as there are not multiple sections offered of LEX courses. Fall 2023 curriculum changes will assist this issue.</p>
<u>Modality:</u> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>		“Live” classes are offered remotely in the evenings, which students seem to like. Students would like more online courses, which might be possible if the “live” hours are tweaked to be in fewer LEX courses in future catalog years.
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>		<p>Student course evaluations are consistently positive and reflect positive relationships and effective communication with faculty. Concerning student feedback is addressed with faculty individually, and a plan is developed to address.</p>

COMPLETION

	Rating	Explanation
<u>Student Achievement:</u> <ul style="list-style-type: none"> <li>• Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>		<p>LEX 120 was the lowest enrolled course. It is sequenced after ENG 111, which is a prerequisite, but due to the high number of part-time students, many likely did not take it in advance and were then not able to take LEX 120.</p> <p>Withdrawal is discussed above in retention.</p> <p>Almost all LEX courses fall below the college success rate of 90%. Some students struggle with the writing, research and analytical skills needed in the paralegal career, but faculty should research and recommend additional support services for students.</p>

	Rating	Explanation
<u>Graduation:</u> <ul style="list-style-type: none"> <li>• How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>• What are the barriers to timely student completion and how can they be addressed?</li> </ul>		<p>The Awards to Headcount ratio is 25% with nine (9) students receiving their AAS degree. Because many LEX courses are only offered once a year, getting off sequence can be a barrier for students. Waiting a year for a course to be offered can be discouraging to students, especially if it is a prerequisite course needed to progress in the program. In addition, since so many students are attending part-time, the length of the program can be discouraging, especially if a job has already been obtained.</p>

TRANSITION

	Rating	Explanation
<u>Job Placement/Transfer:</u> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>		<p>Graduates who want employment are often hired before graduation. The paralegal career has a 5-year forecasted annual growth of 1.8%, and the mean annual wage is \$46,700. Faculty are contacted often with job postings for students.</p>
<u>Community:</u> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>		<p>The Paralegal Technology program is needed in our community, as evidenced by consistent student hiring and feedback from Advisory Board members.</p> <p>Paralegal students are solicited for volunteer opportunities with the local bar association and mock trial association.</p> <p>Advisory Board feedback includes more soft skills training, research/writing skills, and basic office skills. Faculty will consider how to best reinforce these skills and integrate them into existing courses.</p>

ADDITIONAL INFORMATION

## Program Review – A25620 Supply Chain Management

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

**Strengths:** An in-demand program relevant to our geographic location that offers students strong employment opportunities. A new articulation agreement with NC A&T gives students an additional pathway to further their education.

**Areas for improvement:** Low enrollment and loss/non-replacement of the primary instructor.

**Needs:** An instructor who can dedicate the time to teaching/maintaining the courses.

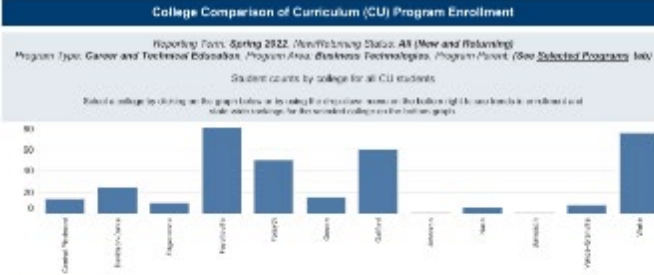

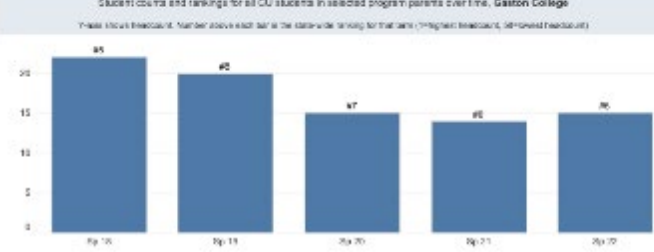

**Actions:** Recommend pausing the degree program and attempting to retain the certificate by re-housing it under Business Administration. We will still need an instructor to teach/maintain 4 courses. Our previous full-time instructor has agreed to do some instruction and maintenance on a contract basis, but he is retired and will not be able to teach very much longer.

The top dashboard is titled 'Curriculum (CU) Program Enrollment by Sex' for Gaston College. It shows enrollment over time by sex (line chart) and enrollment distribution by sex (stacked bar chart) from Fall 2017 to Fall 2021. The bottom dashboard is titled 'Curriculum (CU) Program Enrollment by Race/Ethnicity' for NCCCS. It shows enrollment over time by race/ethnicity (line chart) and enrollment distribution by race/ethnicity (stacked bar chart) from Fall 2017 to Fall 2021. Both dashboards include filters for Sex, Race/Ethnicity, and Age Range, and a 'Hide Comparison' button.</p>
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>Are courses (including general education and</li> </ul>	A	<p>The bulk of the program sequence is appropriate and has been recently verified by faculty as having no reason to change for the moment. There is some level of debate regarding whether general education courses should be sequenced toward the beginning of the program vs the end. Currently, they are</p>

	Rating	Explanation
elective courses) selected and sequenced in a way that makes sense? <ul style="list-style-type: none"> <li>• Are courses filled at an appropriate rate?</li> </ul>		sequenced toward the end to present less of a barrier to completion. Evaluation will continue.
<u>Modality:</u> <ul style="list-style-type: none"> <li>• Are we choosing the best delivery methods and times?</li> <li>• Also consider online and other locations, if applicable.</li> </ul>	A	All LOG-prefixed courses are online only due to enrollment numbers. For the other prefixes, we offer a blend of traditional seated, hybrid, and online-only courses.  Though some faculty would rather we offered more seated courses, enrollment numbers do not support them now.
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>• What do course evaluations say?</li> <li>• What is the process for addressing student feedback?</li> </ul>	A	Most of our students are extremely happy with our instructors and courses.

COMPLETION

	Rating	Explanation
<u>Student Achievement:</u> <ul style="list-style-type: none"> <li>• Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>	A	Apart from LOG 110, all LOG-prefixed courses have exceptionally low enrollment, less than 5 students, sometimes only 1. Withdrawal rates are not a problem.
<u>Graduation:</u> <ul style="list-style-type: none"> <li>• How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>• What are the barriers to timely</li> </ul>	A	Headcount: 31 Awards: 10 Awards at the highest level: 4 Awards/headcount ratio: 32%  No awards goal was set for this year.  No barriers to timely completion are identified.

	Rating	Explanation
student completion and how can they be addressed?		

#### TRANSITION

	Rating	Explanation
<u>Job Placement/Transfer:</u> <ul style="list-style-type: none"> <li>Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>	n/a	No data on job placement this year.
<u>Community:</u> <ul style="list-style-type: none"> <li>Is the program the right fit for our community?</li> <li>How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>What is the advisory committee feedback?</li> </ul>	D	On paper, the program is the right fit for the community, considering the supply chain management and logistics opportunities in the area. The problem is in enrollment numbers.

#### ADDITIONAL INFORMATION

## Program Review – A45780 Veterinary Technology

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
- Areas for Improvement: What can we do to better serve our students?
- Needs: What do we need from the institution?
- Actions: What are our next steps? How will we make use of this program review for future improvement?

Strengths The strengths of the program are the diverse faculty, the rigor of the program, exceptional VTNE pass rates, and the new state-of-the-art facility constructed in 2020. Veterinary Technology faculty have a broad range of experience in the veterinary field. One Doctor of Veterinary Medicine (DVM) and two Registered Veterinary Technicians (RVT) make up the full-time faculty, and six RVT's and one DVM make up the part-time faculty. With over 50 years combined experience in the field, the faculty have knowledge in small, large and exotic animal medicine, radiology, emergency medicine, ICU, and traditional Chinese medicine.

Students perform the most essential skills multiple times throughout the program. This allows the students to become more proficient in the tasks performed by RVT's in practice. Students are graded on their skills and their ability to apply them multiple times throughout the program. Employer surveys have stated that Gaston College Vet Tech graduates outperform graduates of other programs in their ability to perform the skills necessary for the job.

Areas for Improvement: The program recognizes that the area in which the most improvement is needed is flexibility for students who must work full-time jobs. The program has students who have difficulties completing due to the time requirements for seated classes and labs.

Needs: The program needs sufficient staffing to be able to accomplish plans for a hybrid option and the possible inclusion of a veterinary assistant certification. These endeavors, along with the additional courses being taught at East Gaston, decrease the number of faculty available for labs and push the program's ability to meet the faculty to student ratios required by the AVMA for labs.

Actions: With the new facility comes the ability to adapt the program for a hybrid program to accommodate the students who cannot attend a full-time seated program. It is the desire of the program to begin the process of adding this option to the curriculum.

It is also the desire of the program to seek the possibility of including a Certified Veterinary Assistant pathway into the program.

## DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	There are no diplomas, certificates or pathways offered by this program.
Is there anything you want to note about these diplomas, certificates, or pathways?	

## CONNECTION

	Rating	Explanation
<p><u>Viability:</u></p> <ul style="list-style-type: none"> <li>How viable is the program? Consider the accompanying program viability report.</li> </ul>		<p>FTE Counts:</p> <ul style="list-style-type: none"> <li>2020 – 2021 FTE's by were 93.56</li> <li>2021 – 2022 FTE's by were 90.72</li> </ul> <p>The program currently accepts 40 students in the fall of each year but plans on increasing that number to 45 and then 55 as there are potential students on waiting lists and potential students who have stated they would attend the program if it had an online or evening option.</p> <p>On average, the program receives 60 complete applications each year and has more incomplete applications coming in as acceptance letters are sent out. The program will be able to increase FTEs with changes in how the curriculum is provided and possible pathways into the curriculum.</p>
<p><u>Uniqueness:</u></p> <ul style="list-style-type: none"> <li>What do we do that sets us apart from neighboring institutions?</li> <li>How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>		<ul style="list-style-type: none"> <li>Gaston College Veterinary Technology Program is unique in that it serves students from surrounding counties and states. The nearest college that offers Veterinary Medical Technology is 1 hour and 43 minutes away. Still, we have students move from out-of-state to attend the program. At 84.45%, the Gaston College Veterinary Medical Technology Program is well above the 2019 – 2022 first-time candidate pass rate of 66% for the Veterinary Technician National Exam.</li> </ul> <p>A brand new 16,000 square-foot, beautiful facility built on campus to specifically to</p>

	Rating	Explanation
		<p>house the veterinary technology program is a draw for potential students as well.</p> <ul style="list-style-type: none"> <li>Marketing for the program is well-done, and the program has a waiting list of applicants.</li> </ul>

## ENTRY

	Rating	Explanation
<p><u>Enrollment Goals:</u></p> <ul style="list-style-type: none"> <li>In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>What strategies have been and/or will be implemented?</li> </ul>		<ul style="list-style-type: none"> <li>The program received 55 completed applications for admission into the program beginning Fall 2022. Thirty-nine students out of forty-five, who received letters of acceptance, accepted their place in the program for a yield of 87%. Some students declined their place in the program or did not respond. Students were then contacted from the waiting list. This is well above the 57% goal of the college.</li> <li>While the new facility is able to accommodate increased enrollment for seated classes, the program is looking to expand to a hybrid model where class is online, but lab is seated. The program is currently finishing courses at East Gaston High School as part of the Caromont Health Sciences Academy.</li> </ul>

## PROGRESS

	Rating	Explanation
<p><u>SLOs and Curriculum Map:</u></p> <ul style="list-style-type: none"> <li>Attach curriculum map and analysis of program learning outcomes.</li> </ul>		
<p><u>Retention and Progression:</u></p> <ul style="list-style-type: none"> <li>How does program retention compare to the retention goal?</li> <li>What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>		<ul style="list-style-type: none"> <li>In fall 2021, the program started with 39 students. In fall 2022, the program has retained 20 of those 39 for a retention rate of 51%. This is above the 49% goal of the college.</li> </ul>

	Rating	Explanation
		<ul style="list-style-type: none"> <li>The program has a retention rate of 89% for Fall 2021 to Spring 2022.</li> <li>Barriers to student success are most often related to managing school while working and maintaining a home/family-life. Some withdrawals/failures from program are due to the inability of the student to meet the rigorous standards required, however, this is often complicated by the student's personal life.</li> </ul>
<p><u>Demographics:</u></p> <ul style="list-style-type: none"> <li>What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>		<p>The veterinary technology program is still mostly female, however, the ratio of female to male students has remained close to the same number for years. Two male students started in Fall 2022. The program also has 3 known students representing the LGTBQ+ community.</p> <p>The overall ethnicity of the program is changing with a more diverse population of people.</p> <p>In 2022, the percentage of students who are Latinx/Hispanic is 5%, American Indian 2% and Black is 15%.</p> <p>The program is striving to include more photos of diverse students in their social media feeds and to make sure people of color in the veterinary field are represented more.</p> <p>Charlotte Animal Referral and Emergency (CARE) established a scholarship for the purpose of promoting diversity and inclusion of underrepresented populations in the veterinary industry.</p>
<p><u>Course Sequence:</u></p> <ul style="list-style-type: none"> <li>Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> <li>Are courses filled at an appropriate rate?</li> </ul>		<ul style="list-style-type: none"> <li>Courses are sequenced in such a way that content builds from the simple to the complex.</li> <li>Courses are filled based on how many students are in the program during that semester.</li> </ul>
<p><u>Modality:</u></p> <ul style="list-style-type: none"> <li>Are we choosing the best delivery methods and times?</li> </ul>		<ul style="list-style-type: none"> <li>Currently the program only offers day, seated classes. This was because of the lack</li> </ul>

	Rating	Explanation
<ul style="list-style-type: none"> <li>Also consider online and other locations, if applicable.</li> </ul>		<ul style="list-style-type: none"> <li>of space and other factors related to the old veterinary technology facility.</li> <li>With the new facility, it is the intent of the program to begin the process of determining the execution of a hybrid option where lectures will be online, but labs will be seated. The program's advisory board supports this decision.</li> </ul>
<p><u>Evaluation:</u></p> <ul style="list-style-type: none"> <li>What do course evaluations say?</li> <li>What is the process for addressing student feedback?</li> </ul>		<ul style="list-style-type: none"> <li>Overall, course evaluations are positive.</li> <li>The program director reads the course evaluations and discusses them with the faculty. Any feedback from students that needs to be addressed is addressed either one-on-one or as a faculty group, depending on the nature of the feedback.</li> </ul>

COMPLETION

	Rating	Explanation
<p><u>Student Achievement:</u></p> <ul style="list-style-type: none"> <li>Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>		<ul style="list-style-type: none"> <li>The courses with the lowest success rates are typically within the first two semesters. These courses are often a student's first foray into the medical field, and some find them more challenging than expected. However, faculty have looked at the classes and modified them to remove any extraneous material that is not considered foundational.</li> </ul>
<p><u>Graduation:</u></p> <ul style="list-style-type: none"> <li>How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>What are the barriers to timely student completion and how can they be addressed?</li> </ul>		<ul style="list-style-type: none"> <li>The awards/headcount ratio for Veterinary Medical Technology is 44%, which is well above the 16% goal.</li> <li>Veterinary Medical Technology students typically complete on time due to the structured nature of the program. The most common barrier to student completion is the time-requirements of the program and its impact on the working student; hybrid classes may address this.</li> </ul>

TRANSITION

	Rating	Explanation
<p><u>Job Placement/Transfer:</u></p> <ul style="list-style-type: none"> <li>• Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>		<p>Upon graduation, most students have a job, and those that are not employed upon graduation are often employed in the field shortly thereafter.</p>
<p><u>Community:</u></p> <ul style="list-style-type: none"> <li>• Is the program the right fit for our community?</li> <li>• How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> <li>• What is the advisory committee feedback?</li> </ul>		<ul style="list-style-type: none"> <li>• The Veterinary Technology Program’s relationship with Gaston County Animal Care and Enforcement benefits the community by helping to increase adoption and rescue of animals. The program also provides spays and neuters for animals during certain semesters, thereby helping to reduce the number of unwanted pets in the community, which in turn, decreases the potential for the spread of diseases.</li> <li>• The program receives animals from Gaston County Animal Care and Enforcement. This partnership not only allows students to learn but also allows students to better the lives of shelter animals by running bloodwork, treating illnesses, assisting in spays/neuters, performing dentals, and socializing the animals. At the end of the week the animals are returned to the shelter with a detailed report on what tests and procedures were performed and how the animal behaved in the program. This information goes out with the animal to adopters or rescue groups.</li> <li>• The advisory committee is very much in favor of a hybrid option and would like to see that implemented. Their practices have veterinary assistants that they would like to have attend our program but can’t be due to working. The practices have been paying for the students to take online programs. This is a population of potential students that we have not been able to find a good fit for in our current program.</li> </ul>

ADDITIONAL INFORMATION

	Comments

## Program Review – D50420 Welding Technology

### Rating Scale

O=Outstanding: exceptional and distinguished; little room for improvement. For the four quantitative goals (enrollment/yield, retention, awards/headcount, and satisfaction rate), the program has scored 5% or more above the goal (or 100%).

A=Accomplished: proficient; meets expectations; improvements can be made. For the four quantitative goals, the program has scored within 5% of the goal.

D=Developing: in progress; improvements needed. For the four quantitative goals, the program has scored below 5% of the goal.

### Executive Summary

- Strengths: What are we doing well?
  - Areas for Improvement: What can we do to better serve our students?
  - Needs: What do we need from the institution?
  - Actions: What are our next steps? How will we make use of this program review for future improvement?
- **Strengths**: We have good communication with local industry; we use of a team of instructors with various backgrounds and skill sets; we maintain two welding labs with up-to-date welding equipment; we provide a safe working and learning environment; students learn with industry standard consumables; students learn not just “how” but also “why”; and many students are employed soon after completing the program.
  - **Areas for Improvement**: We need to update the ventilation system in PTI 115. We must develop a recruitment plan to increase minority enrollment. We will explore the possibility of additional sections to better use labs.
  - **Needs**: Updated ventilation system in PTI 115 and promotion/advertisement of our program to our target audience.
  - **Actions**: Explore including Apprenticeship 321 program in welding.

### DIPLOMAS, CERTIFICATES, & PATHWAYS

	Comments
List any diplomas, certificates, or pathways offered by this program.	Welding Technology Diploma (D50420) Welding Technology- Level I Certificate (C50420A) Welding Technology – Level II Certificate- (C50420B)
Is there anything you want to note about these diplomas, certificates, or pathways?	Fall changes to 2023 to Level 1 and 2 certificates to better structure for industry needs.

CONNECTION

	Rating	Explanation
<u>Viability:</u> <ul style="list-style-type: none"> <li>How viable is the program? Consider the accompanying program viability report.</li> </ul>	A	The welding Technology Program at Gaston College per this report finds data related to the welding technology slightly above the NC average by .04 %.
<u>Uniqueness:</u> <ul style="list-style-type: none"> <li>What do we do that sets us apart from neighboring institutions?</li> <li>How effective are marketing efforts in highlighting this unique vision and attracting students?</li> </ul>	A	The welding technology Program at Gaston College has been strategic in exposing the welding industry to up and coming junior and seniors across Gaston and Lincoln County high schools.

ENTRY

	Rating	Explanation
<u>Enrollment Goals:</u> <ul style="list-style-type: none"> <li>In comparison to neighboring institutions, how do program hours compare? What are the differences in major courses?</li> <li>What strategies have been and/or will be implemented?</li> </ul>	O	The welding program will be adding the AWS certifications for the D1.1 structural practical exam. The welding program will also look to become an AWS accredited facility for instruction and testing. This will help boost and promote the welding programs already above average enrollment.

PROGRESS

	Rating	Explanation
<u>SLOs and Curriculum Map:</u> <ul style="list-style-type: none"> <li>Attach curriculum map and analysis of program learning outcomes.</li> </ul>		
<u>Retention and Progression:</u> <ul style="list-style-type: none"> <li>How does program retention compare to the retention goal?</li> <li>What are the barriers to student progress? Consider course success/withdrawal data.</li> </ul>	A	According to this Gaston Colleges factbook for 2021- 2022, the welding program retention for Fall 2020 to Fall 2021 is at 27%. However according to the Gaston College factbook, the Fall 2021 to Spring 2022 retention is 83%.
<u>Demographics:</u> <ul style="list-style-type: none"> <li>What strategies are utilized to support underserved populations? Consider program demographic data.</li> </ul>	D	Men to woman ratio-73 male, 5 female and further demographic breakdown is as follows, Black male is 3%, Hispanic Male is 5%, Other UNK, 3%, Other UNK 22%, White female 4%, White Male 64%.
<u>Course Sequence:</u> <ul style="list-style-type: none"> <li>Are courses (including general education and elective courses) selected and sequenced in a way that makes sense?</li> </ul>	A	One glaring inefficiency in the welding program class sequence is that the computer class should be offered as early as possible in the sequence since most welding classes are now blackboard assisted.

	Rating	Explanation
<ul style="list-style-type: none"> <li>Are courses filled at an appropriate rate?</li> </ul>		
<u>Modality:</u> <ul style="list-style-type: none"> <li>Are we choosing the best delivery methods and times?</li> <li>Also consider online and other locations, if applicable.</li> </ul>	A	The delivery of welding program content online is difficult. The typical trades student/customer is a hands-on kinesthetic learner. This type of learner thrives on face-to-face student-instructor interaction. It is impossible to gain an employable comprehension of the hands-on skill set needed to succeed in industry through online courses.
<u>Evaluation:</u> <ul style="list-style-type: none"> <li>What do course evaluations say?</li> <li>What is the process for addressing student feedback?</li> </ul>	A	The evaluation from the students has been mostly positive feedback when asked about instruction, hands-on experience, and overall learning comprehension. Student feedback is addressed by collecting data from all classes and then evaluating where changes need to be made for the better.

#### COMPLETION

	Rating	Explanation
<u>Student Achievement:</u> <ul style="list-style-type: none"> <li>Are there courses with low enrollments? low success rates? high withdrawal rates?</li> </ul>	A	According to the latest report 74.53 % of students are completing what they sought to achieve.
<u>Graduation:</u> <ul style="list-style-type: none"> <li>How does the actual awards/headcount percentage compare to the awards/headcount goal?</li> <li>What are the barriers to timely student completion and how can they be addressed?</li> </ul>	D	The Welding Technology Graduation satisfaction rate is lower than the college goal at 80%. The instructors believe this is due to some shortcoming of the program that we are addressing at this very moment.

#### TRANSITION

	Rating	Explanation
<u>Job Placement/Transfer:</u> <ul style="list-style-type: none"> <li>Are our graduates successful? Consider the accompanying JobsEQ data.</li> </ul>	O	According to JOB EQ, the mean salary is \$41,700. Total area demand is 405 with an annual growth of .05% and an unemployment rate of 5%. Total IQ rating is 2.06.
<u>Community:</u> <ul style="list-style-type: none"> <li>Is the program the right fit for our community?</li> <li>How have we benefitted from community partnerships and what other opportunities exist for collaboration?</li> </ul>	O	The welding program is designed to instill in the graduate a sound foundation of welding skills, knowledge, and nomenclature. The skillset obtained allows a student to compete for entry level welding positions. The program has benefitted by providing a quality product to the industry. A competent welding graduate is the best advertisement. The welding program

	Rating	Explanation
<ul style="list-style-type: none"> <li>What is the advisory committee feedback?</li> </ul>		partners with various local industries who generously supply our students with materials needed to train various processes, materials, and positions.

ADDITIONAL INFORMATION

Please include any additional data and/or information related to program-level accreditation.	N/A

## Student Learning Outcomes – D50420 Welding Technology

PLO#	Expected Program Learning Outcome Description	Assessment Means	Success Criteria	Assessment Analysis			Impact of Changes from Previous Cycle	Actions to be Implemented
				Results	Strengths	Areas for Improvement		
1	Graduates will demonstrate an ability to safely inspect, test, install, repair, and replace oxyfuel welding/cutting equipment.	Direct Measures Identify components. Assemble components. Light, setup and shutdown Quizzes	Direct On average, students will earn at least 90% on this artifact.	Fall 2021 Mean: 93.00-95.00% Mean of Completers:100% Range: 60-100  Spring 2022 Mean: 85.00-91.00% Mean of Completers: 100% Range: 60-100  Summer 2022 Mean 98.00% Mean of Completers: 100% Range: 60-100	Students work with hands-on cutting rigs and various cutting processes from introductory to proficiency to achieve and demonstrate proficiency in various cutting processes related to the welding and fabrication industry.	Expand stations by purchasing additional outfits so students can master the objective more efficiently.	Updated existing equipment to meet industry standards so students are now able to train on the actual apparatus equal to what they will use while working in the field.	Since the oxyfuel process is used in every WLD section, equipment is in continual need of maintenance, replacement, and expansion.
2	Graduates will be able to demonstrate cutting both ferrous and non-ferrous metals utilizing flame, plasma,	Direct Measures Oxyfuel cutting torch. Manual plasma cutting CNC Plasma cutting Shears Saws	Direct On average, students will earn at least 70% on this artifact.	Fall 2021 Mean: 100% Mean of Completers:100% Range: 60-100  Spring 2022 Mean: 100%	The students have more available hands-on, new equipment in the labs. Students are receiving the course	Need to update and maintain equipment to industry standards.	Lab assignments have been updated and reevaluated because of new equipment (CNC Plasma Cutter). Since 2017 there have been more	As equipment is updated, continue to update assessment to meet course objectives.
