COLLEGE

Apprenticeship 321

With the **Industrial Electrician** Apprenticeship 321 program, earn an AAS in Electrical Systems Technology in 4 years.

Industrial Electricians install, maintain, and repair electrical power, communications, lighting, and control systems in existing and newly constructed buildings.

What Industrial Electricians Do*:

- Read blueprints or technical diagrams
- Install and maintain wiring, control, and lighting systems
- Inspect electrical components, such as transformers and circuit breakers
- Identify electrical problems using a variety of testing devices
- Repair or replace wiring, equipment, or fixtures using hand tools and power tools
- Follow state and local building regulations based on the National Electrical Code
- Direct and train workers to install, maintain, or repair electrical wiring or equipment

*For information on Job Outlook, Median Pay, and On-the-Job Training, visit the U.S. Bureau of Labor Statistics at www.bls.gov.
