Seamless Transfer to
4-YEAR
PROGRAMS

HANDS-ON
Experience

COMPUTER UPGRADE AND REPAIR

Learn how to build and repair your own computer in this program, as well as how a computer system operates.

CIRCUIT ANALYSIS

Discover how to build, analyze, and test circuits while gaining a basic understanding of electricity in this hands-on course.

LOCAL AREA NETWORKS

This class will teach you how computers communicate so you can design and build your own small computer network.

PROGRAMMABLE LOGIC CONTROLLERS

Study PLC components and design and get equipped to implement a wide range of industrial control applications.

A 2+2 PROGRAM

Our program is designed to allow Gaston graduates to transfer seamlessly to a four-year school, so you have the option to continue your education.

GREAT EARNING POTENTIAL

With your associate degree from Gaston, you can expect to earn $35-45K per year, depending on experience, and $60-65K entry-level salaries with your bachelor's degree.

EARN PROFESSIONAL CERTIFICATIONS

This program will prepare you for two foundational certifications: your CompTIA A+ and Cisco Certified Network Associate (CCNA) 1 exams.

STRONG LOCAL JOB MARKET

Job opportunities in Gaston and surrounding counties are plentiful, and we expect healthy growth in technology jobs in the next 10 years.
